Power Boating ,1915 The Economics of Regulation Alfred E. Kahn, 1988-06-22 As Chairman of the Civil Aeronautics Board in the late 1970s Alfred E Kahn presided over the deregulation of the airlines and his book published earlier in that decade presented the first comprehensive integration of the economic theory and institutional practice of economic regulation In his lengthy new introduction to this edition Kahn surveys and analyzes the deregulation revolution that has not only swept the airlines but has transformed American public utilities and private industries generally over the past seventeen years While attitudes toward regulation have changed several times in the intervening years and government regulation has waxed and waned the question of whether to regulate more or to regulate less is a topic of constant debate one that The Economics of Regulation addresses incisively It clearly remains the standard work in the field a starting point and reference tool for anyone working in regulation Kahn points out that while dramatic changes have come about in the structurally competitive industries the airlines trucking stock exchange brokerage services railroads buses cable television oil and natural gas the consensus about the desirability and necessity for regulated monopoly in public utilities has likewise been dissolving under the burdens of inflation fuel crises and the traumatic experience with nuclear plants Kahn reviews and assesses the changes in both areas he is particularly frank in his appraisal of the effect of deregulation on the airlines His conclusion today mirrors that of his original seminal work that different industries need different mixes of institutional arrangements that cannot be decided on the basis of ideology

The Racial Politics of Division Monika Gosin, 2019-06-15 The Racial Politics of Division deconstructs antagonistic discourses that circulated in local Miami media between African Americans white Cubans and black Cubans during the 1980 Mariel Boatlift and the 1994 Balsero

Crisis Monika Gosin challenges exclusionary arguments pitting these groups against one another and depicts instead the nuanced ways in which identities have been constructed negotiated rejected and reclaimed in the context of Miami's historical multiethnic tensions Focusing on ideas of legitimacy Gosin argues that dominant race making ideologies of the white establishment regarding worthy citizenship and national belonging shape inter minority conflict as groups negotiate their precarious positioning within the nation Rejecting oversimplified and divisive racial politics The Racial Politics of Division portrays the lived experiences of African Americans white Cubans and Afro Cubans as disrupters in the binary frames of worth citizenship narratives Foregrounding the oft neglected voices of Afro Cubans Gosin posits new narratives regarding racial positioning and notions of solidarity in Miami By looking back to interethnic conflict that foreshadowed current demographic and social trends she provides us with lessons for current debates surrounding immigration interethnic relations and national belonging Gosin also shows us that despite these new demographic realities white racial power continues to reproduce itself by requiring complicity of racialized groups in exchange for a tenuous claim on US citizenship
