Michael Foucault Critical Assessments V4:

Michel Foucault Barry Smart, 2002 This classic series provides students with concise and readable introductions to the work life and influence of the great sociological thinkers **Michel Foucault** Sara Mills, 2012-11 It is impossible to imagine contemporary critical theory without the work of Michel Foucault His radical reworkings of the concepts of power knowledge discourse and identity have influenced the widest possible range of theories and impacted upon disciplinary fields from literary studies to anthropology Aimed at students approaching Foucault's texts for the first time this volume offers an examination of Foucault's contexts a guide to his key ideas an overview of responses to his work practical hints on using Foucault an annotated guide to his most influential works suggestions for further reading Challenging not just what we think but how we think Foucault's work remains the subject of heated debate Sara Mills Michel Foucault offers an introduction to both the ideas and the debate fully equipping student readers for an encounter with this most influential of thinkers

Michel Foucault Barry Smart, 2002 This classic series provides students with concise and readable introductions to the work life and influence of the great sociological thinkers Michel Foucault Barry Smart, 1994 **Beyond Foucault** Anne Brunon-Ernst, 2016-04-15 In his hugely influential book Discipline and Punish Foucault used the example of Jeremy Bentham's Panopticon prison as a means of representing the transition from the early modern monarchy to the late modern capitalist state In the former power is visibly exerted for instance by the destruction of the body of the criminal while in the latter power becomes invisible and focuses on the mind of the subject in order to identify marginalize and treat those who are regarded as incapable of participating in or unwilling to submit to the disciplines of production The Panopticon links the worlds of Bentham and Foucault scholars yet they are often at cross purposes with Bentham scholars lamenting the ways in which Foucault is perceived to have misunderstood panopticon and Foucauldians apparently unaware of the complexities of Bentham's thought This book combines an appreciation of Bentham's broader project with an engagement of Foucault's insights on economic government to go beyond the received reading of panopticism as a dark disciplinary technology of power Scholars here offer new ways of understanding the Panopticon projects through a wide variety of topics including Bentham's plural Panopticons and their elaboration of schemes of panoptic Utopia the inverted Panopticon panoptic governance political panopticism and legal panopticism French studies on the Panopticon are groundbreaking and this book brings this research to an English speaking audience for the first time It is essential reading not only for those studying Bentham and Foucault but also those with an interest in intellectual history of the eighteenth and nineteenth centuries and those studying contemporary surveillance and society **A Companion to Foucault** Christopher Falzon, Timothy O'Leary, Jana Sawicki, 2013-04-01 A Companion to Foucault comprises a collection of essays from established and emerging scholars that represent the most extensive treatment of French philosopher Michel Foucault's works currently available Comprises a comprehensive collection of authors and topics with both established and emerging scholars represented

Includes chapters that survey Foucault's major works and others that approach his work from a range of thematic angles
Engages extensively with Foucault's recently published lecture courses from the Collège de France
Contains the first translation of the extensive Chronology of Foucault's life and works written by Foucault's life partner Daniel Defert
Includes a bibliography of Foucault's shorter works in English cross-referenced to the standard French edition *Dits et Ecrits*

Foucault, Freedom and Sovereignty Sergei Prozorov, 2016-04-15
Against the prevailing interpretations which disqualify a Foucauldian approach from the discourse of freedom this study offers a novel concept of political freedom and posits freedom as the primary axiological motif of Foucault's writing
Based on a new interpretation of the relation of Foucault's approach to the problematic of sovereignty Sergei Prozorov both reconstructs ontology of freedom in Foucault's textual corpus and outlines the modalities of its practice in the contemporary terrain of global governance
The book critically engages with the acclaimed post-Foucauldian theories of Giorgio Agamben and Antonio Negri thereby restoring the controversial notion of the sovereign subject to the critical discourse on global politics
As a study in political thought this book will be suitable for students and scholars interested in the problematic of political freedom philosophy and global governance

A Genealogical Analysis of Nietzschean Drive Theory Brian Lightbody, 2023-04-21
Nietzsche's drive theory as it is referred to in the secondary literature is a rich unique and fascinating articulation of the human condition
In broad brushstrokes Nietzsche appears to contend that all human psychology is either directly reducible to animal drives e.g. sex aggression or indirectly explicable to the historical transformations thereof e.g. resentment
Moreover Nietzsche's initial elucidation of drive theory in *On the Genealogy of Morals* and elsewhere is well complemented with a fecund profound and clear elucidation of the concept in the secondary literature
Yet there remains a glaring lacuna for all the discussion of drive theory in the scholarship
The secondary literature is delinquent in explaining how animal drives became incorporated to form the human psyche
Nietzsche's account to elucidate how drives became digested or in his words inpsychated is called the Internalization Hypothesis
However as it appears in GM II 16 the hypothesis is grossly inchoate
The result of this undertheorization is manifold its deleterious effects resonate along many axes of Nietzsche's philosophy
The present book *Internalized Valuation: A Genealogical Analysis of Nietzschean Drive Theory* offers an original and fruitful interpretation of Nietzsche's philosophical psychology
First it clarifies what drives are
Second it provides a new way of thinking about Nietzsche's genealogical methods and then applies these insights to *The Genealogy* itself
What follows is a work that not only sheds much needed light on Nietzsche's philosophy of mind in general and his theory of emotions in particular but also informs and illuminates problematic passages of Nietzsche's *Genealogy*

Self-Construction and the Formation of Human Values
Teodros Kiros, 2001-01-30
This volume presents a theoretical defense of the potential of ordinary individuals to construct values and through them to become self-empowering responsible participants in a democratic community
Rather than conceiving of power as domination the author identifies true power as self-empowerment a notion based on self-construction

He proposes the vision of an authentically free self filled with a compassion that is a composite of reason and feeling Such a composite self does not consciously manipulate language truth and desire to dominate and subordinate other individuals but uses them to construct values and norms that can enrich others To support his argument the author draws on both classical and contemporary philosophers as well as on literary sources

Feminist Critical Policy Analysis: A perspective from primary and secondary schooling Catherine Marshall,1997 Challenging the traditional power basis of the policy decision makers in education this text illustrates the use of a critical and feminist lens in the creation of policies to meet the needs aspirations and values of women and girls Focus is on the primary and secondary sectors of education WorldCat

Modernity and Crisis in the Thought of Michel Foucault Matan Oram,2016-07-01 Few studies of Foucault have examined his thought from a sustained interdisciplinary perspective Through the interpretative prism of the concept of the Totality of Reason this book suggests an original analytical reading of Foucault s thought This book addresses Foucault s characterizations of the Enlightenment asking whether the developmental history of the modern conception of knowledge from the Renaissance to the Enlightenment warrants the conclusion he draws From the perspective of a critical evaluation of Foucault s thesis on the crisis of modernity the book examines whether Foucault the philosophical and social critic truly belongs to those intellectual trends known as a deconstruction and post modernism that advocate a wholesale rejection of the project of modernity demonstrating how a classification of this kind contributes to an impoverishment of our understanding of Foucault s thought This book will attract the attention of readers interested in Foucault and what is broadly perceived to be the crisis of modernity It will appeal to scholars and advanced students of sociology political philosophy and political science psychology philosophy interdisciplinary studies and cultural studies

The Critical Analysis of Religious Diversity Lene Kühle,Jørn Borup,William Hoverd,2018-06-19 Drawing on international and thematic case studies The Critical Analysis of Religious Diversity asks its readers to pay attention to the assumptions and processes by which scholars religious practitioners and states construct religious diversity The study has three foci theoretical and methodological issues religious diversity in non Western contexts and religious diversity in social contexts Together these trans contextual studies are utilised to develop a critical analysis exploring how agency power and language construct understandings of religious diversity As a result the book argues that reflexive scholarship needs to consider that the dynamics of diversification and homogenisation are fundamental to understanding social and religious life

that religious diversity is a Western concept and that definitions of religious diversity are often entangled by and within dynamic empirical realities Contributors are Martin Baumann Peter Beyer J rn Borup Paul Bramadat Marian Burchardt Henrik Reintoft Christensen Andrew Dawson Mar Griera Anna Halafoff William Hoverd Lene K hle Mar Marcos Stefania Travagnin and Andreas Tunger Zanetti **Journal of Early Modern Studies: Volume 4, Issue 2 (Fall 2015)** Sorana Corneanu,2015-11-16 Special Issue The Care of the Self in Early Modern Philosophy and Science Utilitarian Biopolitics Anne Brunon-Ernst,2015-10-06 The works of Foucault and Bentham have been regularly examined in isolation yet rarely has the relationship between them been discussed This study traces the full breadth of that relationship within the fields of sexuality criminology ethics economics and governance Bodies of Difference Matthew Kohrman,2005-05-23 Bodies of Difference chronicles the compelling story of disability s emergence as an area of significant sociopolitical activity in contemporary China Keenly attentive to how bodies are embedded in discourse history and personal exigency Matthew Kohrman details ways that disability became a fount for the production of institutions and identities across the Chinese landscape during the final decades of the twentieth century He looks closely at the creation of the China Disabled Persons Federation and the lives of numerous individuals among them Deng Pufang son of China s Communist leader Deng Xiaoping The SAGE Handbook of Qualitative Data Analysis Uwe Flick,2013-12-18 The wide range of approaches to data analysis in qualitative research can seem daunting even for experienced researchers This handbook is the first to provide a state of the art overview of the whole field of QDA from general analytic strategies used in qualitative research to approaches specific to particular types of qualitative data including talk text sounds images and virtual data The handbook includes chapters on traditional analytic strategies such as grounded theory content analysis hermeneutics phenomenology and narrative analysis as well as coverage of newer trends like mixed methods reanalysis and meta analysis Practical aspects such as sampling transcription working collaboratively writing and implementation are given close attention as are theory and theorization reflexivity and ethics Written by a team of experts in qualitative research from around the world this handbook is an essential compendium for all qualitative researchers and students across the social sciences *Traces 4* Naoki Sakai,Jon Solomon,2006-01-01 Translation Biopolitics Colonial Difference the fourth book in the Traces series focuses on the problems of translation and the political dynamics surrounding multiplicity linguistic regional transnational and civilizational today Judith Butler, Michel Foucault, and the Theology of Freedom Gunda Werner,2023-12-22 This book explores how Judith Butler s work on gender and the shaping of the human subject and Michel Foucault s notion of parrhesia speaking the truth can be made fruitful for a theology of freedom The volume illustrates the importance of three concepts freedom gender body and power critique and how this triad provides the foundational categories and structural elements of a theology of freedom By starting from an analysis of power and the performative potential of gendered embodiment freedom can be thought of as the basis of creative and critical human action and thereby implemented in theology The chapters feature several theological

historical case studies that are representative of topics that continue to shape contemporary Catholic norms and thought In particular the author reflects on the 13th century with the idea of personal sin and confession and the 19th century with a gender ideology that has led to the marginalization of difference and dissent The book shows how Butler and Foucault can provide essential insights for Catholic theology and is valuable reading for scholars of religion philosophy and gender and sexuality studies
