Volume I of *The Official History of Criminal Justice in England and Wales* frames what was known about crime and criminal

justice in the 1960s before describing the liberalising legislation of the decade Commissioned by the Cabinet Office and using interviews British Government records and papers housed in private and institutional collections this is the first of a collaboratively written series of official histories that analyse the evolution of criminal justice between 1959 and 1997 It opens with an account of the inception of the series before describing what was known about crime and criminal justice at the time It then outlines the genesis of three key criminal justice Acts that not only redefined the relations between the State and citizen but also shaped what some believed to be the spirit of the age the abolition of capital punishment and the reform of the laws on abortion and homosexuality The Acts were taken to be so contentious morally and politically that Governments of different stripes were hesitant about promoting them formally The onus was instead passed to backbenchers who were supported by interlocking groups of reformers with a pooled knowledge about how to effectively organise a rhetoric that drew on the language of utilitarianism and the clarity and authority of a Church of England This came to play an increasingly consequential and largely unacknowledged part in resolving what were often confusing moral questions This book will be of much interest to students of criminology and British history politics and law *Godly Ambition* Alister Chapman, 2012

Alister Chapman chronicles Stott's rise to global Christian stardom The story begins in England with an exploration of Stott's conversion and education then his ministry to students his work at All Souls Langham Place London and his attempts to increase evangelical influence in the Church of England By the mid 1970s Stott had an international presence leading the evangelical Lausanne movement that attracted evangelicals from almost every country in the world Chapman recounts how Stott challenged evangelicals habitual conservatism and anti intellectualism showing his role in a movement that was as dysfunctional as it was dynamic from publisher description **Prayer of the Heart** Alexander Ryrie, 2020-03-14 Fairacres Publications 124 Using the words of the Russian Orthodox spiritual teacher St Theophan that in prayer we should stand with the mind in the heart Sandy Ryrie explains how to use short phrases to still the mind and enable us to rest with our attention set on God In standing before God we open ourselves to God's work in us The author then explores the particular situation of night prayer In hours of darkness and sleeplessness we are vulnerable to the anxieties and fears which daytime activity sometimes holds at bay but at night the spirit may also become more aware of the reality of God and more ready to pray
