Michael Schmidt Berlin Nach 1945:

Berlin Divided City, 1945-1989 Philip Broadbent, Sabine Hake, 2010 A great deal of attention continues to focus on Berlin's cultural and political landscape after the fall of the Berlin Wall but as yet no single volume looks at the divided city through an interdisciplinary analysis This volume examines how the city was conceived perceived and represented during the four decades preceding reunification and thereby offers a unique perspective on divided Berlin's identities German historians art historians architectural historians and literary and cultural studies scholars explore the divisions and antagonisms that defined East and West Berlin and by tracing the little studied similarities and extensive exchanges that occurred despite the presence of the Berlin Wall they present an indispensable study on the politics and culture of the Cold War *Berlin nach 45* Michael Schmidt, Janos Frey, 2005 Schmidt's work has always focused on his hometown of Berlin and the book format has always been a fundamental element of his work One of his most important bodies of work Berlin Nach 1945 has never been published as a whole He has elaborated a powerful visual record of a city in a state of flux Photography and Place Donna West Brett, 2015-12-07 As a recording device photography plays a unique role in how we remember places and events that happened there This includes recording events as they happen or recording places where something occurred before the photograph was taken commonly referred to as aftermath photography This book presents a theoretical and historical analysis of German photography of place after 1945 It analyses how major historical ruptures in twentieth century Germany and associated places of trauma memory and history affected the visual field and the circumstances of looking These ruptures are used to generate a new reading of postwar German photography of place The analysis includes original research on world renowned German photographers such as Thomas Struth Thomas Demand Michael Schmidt Boris Becker and Thomas Ruff as well as photographers largely unknown in the Anglophone world **Artyear 2002** Hopefulmonster, 2002 Artyear is the complete guide to exhibitions of art and architecture in museums throughout the world Offering comprehensive advance information on all major events in Europe the Americas and the Far East country by country details and up to date information on permanent collections curators opening times book shops restaurants and entrance fees This year's edition covers more institutions in more detail than ever before *Art & the City* John Stathatos, 1996 With the link between the city and civilization in mind this text describes the varied views of the metropolis from the classical Greek city state to London under Margaret Thatcher and outlines the virtues and vices of the city compared with those of the surrounding countryside It presents a contrasting array of contemporary views of the city by artists architects and writers who through image and text offer their own dreams of urbanity in an attempt to define the magnetic attraction that is the city **Photographic Art Market**, 2004 Werner Heldt (1904-1954) Verena Hein, 2016-02-12 Ich bin in einer gro ßen grauen Stadt geboren Wo ewig Regen in ein Meer von D chern f llt Und ihre Grenzen sind am Horizont verloren Die graue Stadt ist meine Heimat meine Welt Werner Heldts Gedicht Heimat aus dem Jahr 1932 steht als Leitsatz f r sein gesamtes Oeuvre Es

behandelt sein Lebensthema die Stadt Berlin und ruft Stimmungsbilder vor Angst und Einsamkeit und das Gefühl von tiefer Melancholie vorliegender Band stellt das Leben und die künstlerische Entwicklung des Berliner Malers 1904-1954 vor Während des Nationalsozialismus gelang es Heldt sich der Inbesitznahme der Kunst durch die Nationalsozialisten subtil zu verwehren Im Nachkriegsdeutschland war er nicht nur mit Niederlage kollektiver Schuld und der Unfähigkeit zu trauern konfrontiert sondern auch mit der Zerstörung der Stadt die als Mahnmal für persönliches Leid und Verlust allgegenwärtig waren Werner Heldt entwickelte das stehende Sinnbild Berlin am Meer eine Bildfindung die aus der zeitgenössischen Bildproduktion herausragt Seine künstlerische Leistung erscheint noch 60 Jahre nach seinem Tod zeitlos gültig und belegt seine exponierte Stellung in der deutschen Nachkriegskunst

Documentary Julian Stallabrass, 2013 Part of the acclaimed Documents of Contemporary Art series of anthologies Documentary has undergone a marked revival in recent art following a long period in which it was a denigrated and unfashionable practice This has in part been led by the exhibition of photographic and video work on political issues at Documenta and numerous biennials and since the turn of the century issues of injustice violence and trauma in increasing zones of conflict Aesthetically documentary is now one of the most prominent modes of art making in part assisted by the linked transformation and recuperation of photography and video by the gallery and museum world Unsurprisingly this development along with the close attention paid to photojournalism and mainstream documentary making in a time of crisis has been accompanied by a rich strain of theoretical and historical writing on documentary This anthology provides a definitive historical context for documentary exploring its roots in modernism and its critique under postmodernism it surveys current theoretical thinking about documentary and it examines a wide range of work by artists within around or against documentary through their own writings and interviews Artists surveyed include Kutlug Ataman Ursula Biemann Hasan Elahi Harun Farocki Omer Fast Joan Fontcuberta Regina Jos Galindo David Goldblatt Alfredo Jaar Emily Jacir Lisa F Jackson Philip Jones Griffiths An My Le Renzo Martens Boris Mikhailov Daido Moriyama Walid Raad Michael Schmidt and Sean Snyder Writers include James Agee Ariella Azoulay Walter Benjamin Adam Broomberg Judith Butler Oliver Chanarin Georges Didi Huberman John Grierson David Levi Strauss Elizabeth McCausland Carl Plantinga Jacques Rancière Martha Rosler Jean Paul Sartre Allan Sekula Susan Sontag Hito Steyerl and Trinh T Minh ha

In the Face of History Barbican Art Gallery, 2006 In the Face of History brings together 22 photographers whose work is rooted in a sense of time and place and who collectively map out a century of European experience Some are caught up in moments of epic conflict while others reflect subtler currents of social change Intensely personal chronicles of community family and love sit alongside and at times overlap with documents of historical record The images range from the trenches of the First World War to the Jewish ghetto of Lodz from the Paris of Atget Brassa and Doisneau to the Berlin of Michael Schmidt and Wolfgang Tillmans and from cities and suburbs to tiny villages They document a vast range of experience but all are distinguished by the photographers compulsion to record the world as they find it a world refracted through the prism of

their own experience Page 4 of cover The Law of Blood Johann Chapoutot, 2018-04-02 The scale and depth of Nazi brutality seem to defy understanding What could drive people to fight kill and destroy with such ruthless ambition Johann Chapoutot says we need to understand better how the Nazis explained it themselves and in particular how steeped they were in the idea that history gave them no choice it was either kill or die Art & Design , 1996 **Kafka** Reiner Stach, 2016-10-25 The eagerly anticipated final volume of the award winning definitive biography of Franz Kafka How did Kafka become Kafka This eagerly anticipated third and final volume of Reiner Stach's definitive biography of the writer answers that question with more facts and insight than ever before describing the complex personal political and cultural circumstances that shaped the young Franz Kafka 1883 1924 It tells the story of the years from his birth in Prague to the beginning of his professional and literary career in 1910 taking the reader up to just before the breakthrough that resulted in his first masterpieces including *The Metamorphosis* Brimming with vivid and often startling details Stach's narrative invites readers deep inside this neglected period of Kafka's life The book's richly atmospheric portrait of his German Jewish merchant family and his education psychological development and sexual maturation draws on numerous sources some still unpublished including family letters schoolmates memoirs and early diaries of his close friend Max Brod The biography also provides a colorful panorama of Kafka's wider world especially the convoluted politics and culture of Prague Before World War I Kafka lived in a society at the threshold of modernity but torn by conflict and Stach provides poignant details of how the adolescent Kafka witnessed violent outbreaks of anti-Semitism and nationalism The reader also learns how he developed a passionate interest in new technologies particularly movies and airplanes and why another interest his predilection for the back to nature movement stemmed from his nervous surroundings rather than personal eccentricity The crowning volume to a masterly biography this is an unmatched account of how a boy who grew up in an old Central European monarchy became a writer who helped create modern literature *Werkstatt Für Photographie, 1976-1986* Florian Ebner, Felix Hoffmann, Inka Schube, Thomas Weski, 2016 This is the first book on the history influences and impact of the Werkstatt für Photographie Photography Workshop founded by the Berlin photographer Michael Schmidt at the Volkshochschule Kreuzberg in 1976 In the midst of the Cold War the Werkstatt initiated a democratic field of experimentation beyond the pale of traditional vocational and political institutional standards Those same years witnessed the establishment of infrastructures in West Germany that paved the way for the emancipation of photography as an art form Documenta 6 1977 the first photo galleries and photography journals and a number of pathbreaking exhibitions Berlin Hanover and Essen played important roles in that process This book presents the story of German photography in the 1970s and 80s its international ties its protagonists and its networks *German Division as Shared Experience* Erica Carter, Jan Palmowski, Katrin Schreiter, 2019-06-06 Despite the nearly three decades since German reunification there remains little understanding of the ways in which experiences overlapped across East West divides *German Division as Shared Experience* considers everyday life across the two

Germanies using perspectives from history literary and cultural studies anthropology and art history to explore how interconnections as well as fractures between East and West Germany after 1945 were experienced lived and felt Through its novel approach to historical method the volume points to new understandings of the place of narrative form and lived sensibility in shaping Germans simultaneously shared and separate experiences of belonging during forty years of division from 1945 to 1990

Reconsidering Europeanization Florian Greiner, Peter Pichler, Jan Vermeiren, 2022-08-01 This pertinent and highly original volume explores how ideas of Europe and processes of continental political socio economic and cultural integration have been intertwined since the nineteenth century Applying a wider definition of Europeanization in the sense of becoming European it will pay equal attention to counter processes of disentanglement and disintegration that have accompanied slowed down or displaced such trends and developments By focusing on the practices agents and experience of Europeanization the volume strives to bring together the history of ideas and the history of human actions and conduct two approaches that are usually treated separately in the field of European studies

Portfolio, 1995 **Between Dignity and Despair** Marion A. Kaplan, 1999-06-10 Between Dignity and Despair draws on the extraordinary memoirs diaries interviews and letters of Jewish women and men to give us the first intimate portrait of Jewish life in Nazi Germany Kaplan tells the story of Jews in Germany not from the hindsight of the Holocaust nor by focusing on the persecutors but from the bewildered and ambiguous perspective of Jews trying to navigate their daily lives in a world that was becoming more and more insane Answering the charge that Jews should have left earlier Kaplan shows that far from seeming inevitable the Holocaust was impossible to foresee precisely because Nazi repression occurred in irregular and unpredictable steps until the massive violence of November 1938 Then the flow of emigration turned into a torrent only to be stopped by the war By that time Jews had been evicted from their homes robbed of their possessions and their livelihoods shunned by their former friends persecuted by their neighbors and driven into forced labor For those trapped in Germany mere survival became a nightmare of increasingly desperate options Many took their own lives to retain at least some dignity in death others went underground and endured the fears of nightly bombings and the even greater terror of being discovered by the Nazis Most were murdered All were pressed to the limit of human endurance and human loneliness Focusing on the fate of families and particularly women's experience Between Dignity and Despair takes us into the neighborhoods into the kitchens shops and schools to give us the shape and texture the very feel of what it was like to be a Jew in Nazi Germany

Reverberations of Nazi Violence in Germany and Beyond Stephanie Bird, Mary Fulbrook, Julia Wagner, Christiane Wienand, 2016-02-25 Reverberations of Nazi Violence in Germany and Beyond explores the complex and diverse reverberations of the Second World War after 1945 It focuses on the legacies that National Socialist violence and genocide perpetrated in Europe continue to have in German speaking countries and communities as well as among those directly affected by occupation terror and mass murder Furthermore it explores how those legacies are in turn shaped by the present The volume also considers

conflicting unexpected and often dissonant interpretations and representations of these events made by those who were the witnesses victims and perpetrators at the time and also by different communities in the generations that followed The contributions from a range of disciplinary perspectives enrich our understanding of the complexity of the ways in which a disturbing past continues to disrupt the present and how the past is in turn disturbed and instrumentalized by a later present

The British National Bibliography Arthur James Wells,2006 **Antifascism After Hitler** Catherine Plum,2015-02-20

Antifascism After Hitler investigates the antifascist stories memory sites and youth reception that were critical to the success of political education in East German schools and extracurricular activities As the German Democratic Republic GDR promoted national identity and socialist consciousness two of the most potent historical narratives to permeate youth education became tales of communist resisters who fought against fascism and the heroic deeds of the Red Army in World War II These stories and iconic images illustrate the message that was presented to school age children and adolescents in stages as they advanced through school and participated in the official communist youth organizations and other activities This text delivers the first comprehensive study of youth antifascism in the GDR extending scholarship beyond the level of the state to consider the everyday contributions of local institutions and youth mentors responsible for conveying stories and commemorative practices to generations born during WWII and after the defeat of fascism While the government sought to use educators and former resistance fighters as ideological shock troops it could not completely dictate how these stories would be told with memory intermediaries altering at times the narrative and message Using a variety of primary sources including oral history interviews the author also assesses how students viewed antifascism with reactions ranging from strong identification to indifference and dissent Antifascist education and commemoration were never simply state prescribed and were not as participation less as some scholars and contemporary observers claim even as educators fought a losing battle to maintain enthusiasm
