Bartholdy and Carl Mendelssohn Bartholdy Felix Mendelssohn-Bartholdy, 1864 Switzerland Without a Car Anthony Lambert, 2013 Switzerland is home to the world's finest public transport system. You can't reach much of the country by car, but travellers can hop from steamer to cycle to scenic rail route with ease, allowing them to explore this alpine landscape and picturesque towns at a more relaxed pace. It is home to some of the most beautiful mountain landscapes in the world, with peaks such as the Matterhorn, Eiger and Jungfrau. As a result, much of its cultural attractions are largely overlooked. Switzerland has thousands of fine museums, castles, mansions and outstanding churches, together with vernacular buildings. The collections of its major art galleries would hold their own with most capital cities. This guide, fully updated with the latest route information, explores the length and breadth of the country by public transport. There is a detailed section on understanding the Swiss Travel System to help travellers get the most from their visit. Author Anthony Lambert outlines special train routes such as the Glacier Express and the Pre-Alpine Express and describes every railway line and what there is to see from each station, as well as connecting journeys by steamer, postbus, funicular, cableway, bicycle and foot. *Switzerland without a car* showcases the unique features of each station, such as luggage forwarding, cycle hire, walking routes and even the station café, which is used by locals because of its quality. He helps travellers rediscover the environmentally friendly way to travel.

60 Years of the New York Convention Katia Fach Gomez, 2019-03-22 Worldwide interest in the recognition and enforcement of arbitral awards has never been higher and the New York Convention of 1958, currently adhered to by 159 States, including the major trading nations, remains the most successful treaty in this area of commercial law. This incomparable book, marking the Convention's 60th anniversary, provides a fully updated analysis of the Convention's application from international, comparative and national perspectives. Drawing on a global conference held in Seville in April 2018 that was actively supported by UNCITRAL, the book's 27 chapters, by highly qualified international practitioners and academics from different jurisdictions, address the subject with critical eyes, well aware of current developments and future challenges in the field of arbitration. Among the issues and topics covered are the following: Multi-tiered dispute resolution clauses; Applicability of the UN Convention on the Use of Electronic Communications in International Contracts; Complexities of enforcing orders determined by software; Enforcement of annulled awards; European Union law and the New York Convention; Enforcing awards against States and State entities; Sovereign immunity as a ground to refuse compliance with investor-State awards; Enforcement against non-signatories; Public policy exception; Arbitrating and enforcing foreign awards in specific countries and regions, including China, sub-Saharan Africa and the ASEAN countries. Ample reference is made throughout to leading cases and practice. Familiarity with the intricacies of the New York Convention as the most universally acknowledged framework in which cross-border economic exchanges can flourish is essential for judges, practitioners, legal staff, business people and scholars working with or applying international commercial arbitration anywhere in the world. This book's combination of highly thought-provoking topics and the depth with which they are addressed will prove invaluable to
