F. Van Niekerk, S Mogotlane, 2003 The basics of fundamental and general nursing science are presented in this health resource for auxiliary enrolled and registered general nurses A strong community nursing focus infuses the outcome based teachings and questions to stimulate further discussion Practical information on nursing in South Africa is provided including working in the legal framework managing the challenges of nursing in a culturally diverse society and dealing with patients suffering from HIV and AIDS Medical teachings on the use of oxygen temperature regulation mobility and skin integrity complement the ethical discussions *Ordered to Care* Susan M. Reverby, Susan Reverby, 1987-08-28 An engaging study of the dilemmas faced by American nursing which examines the ideology practice and efforts at reform of both trained and untrained nurses in the years between 1850 and 1945 *Ordered to Care* provides an overall history of nursing s development and places that growth within the context of topical questions raised by women s history and the social history of health care Building upon extensive use of primary and quantitative data the author creates a collective portrait of nursing from the work of the individual nurse to the political efforts of its organizations Dr Reverby contends that nursing s contemporary difficulties are caused by its historical obligation to care in a society that refuses to value caring She examines the historical consequences of this critical dilemma and concludes with a discussion of why nursing will have to move beyond its obligation to care and what the implications of this change would be for all of us *Fundamental Nursing Skills and Concepts* Barbara Kuhn Timby, 2009 Now in its Ninth Edition this full color text combines theoretical nursing concepts step by step skills and procedures and clinical applications to form the foundation of the LPN LVN course of study This edition features over 100 new photographs exciting full color ancillaries end of unit exercises and extensively updated chapters on nursing foundations laws and ethics recording and reporting nutrition fluid and chemical balance safety asepsis infection control and medication administration Coverage includes new information on cost related issues emerging healthcare settings concept mapping malpractice documentation and reporting HIPAA and more All Gerontologic Considerations sections have been thoroughly updated by renowned experts *The Caregiving Dilemma* Nancy Foner, 1994-06-02 Along with increasing life expectancy comes the knowledge that many Americans will one day enter nursing homes Who are the people who will care for us or for our relatives Nancy Foner provides a major study of institutional care that focuses on nursing aides who are the backbone of American nursing homes She examines the strains and paradoxes facing nursing aides asked on the one hand to provide compassionate care and on the other to cope with the pressures of the workplace and the institution Aides are expected to look after patients who are predominantly older women with kindness and consideration but nursing home regulations and bureaucratic forces often hinder even the best efforts to

offer consistently supportive care Positioned at the bottom of the nursing hierarchy aides must cope with the needs of frail dependent residents pressures from patients relatives and from their own families and demands of supervisors and coworkers Foner s detailed description and analysis of caregiving dilemmas based on intensive field research in a New York facility brings the perspective of the nursing aides to the fore This is a timely contribution to the study of work bureaucracy and the future of an aging American population Role Development in Professional Nursing Practice Kathleen Masters, 2014 Covers the role development of the professional nurse as it occurs in four developmental stages The Nurse as Individual Nurse Client Relationships The Nurse as a Member of the Health Care Team and the Nurse as a Professional Member of Society Foundations of Clinical Nurse Specialist Practice, Second Edition Janet S. Frankel, Amnon Goldworth, Mary V. Rorty, William A. Silverman, 2009-08-20 Children in precarious health present particular problems for healthcare professionals because of their intimate relation to their family and because of the family s need to provide major long term source of support and to be actively involved in the decisions about their children s

care This collection of cases and commentaries in pediatrics highlights the difficult ethical dilemmas that can arise during high tech hospital care of children in precarious circumstances It serves as a teaching tool for clinical ethics and as an introduction for medical students and residents Clinical cases are described in detail by the physicians involved who focus on the ethical issues arising during treatment Each case is then commented on in detail by a philosopher or other bioethicist It thus serves well as an introduction to contemporary clinical bioethics but with a firm grounding in the practicalities of real life pediatric care in the hospital setting
