Home Care Nursing: Surviving in an Ever-Changing Care Environment Tina M. Marrelli, 2016-09-16 Tina M Marrelli's new book *Home Care Nursing: Surviving in an Ever Changing Care Environment* is a practical and comprehensive guidebook written concisely and without jargon or insider acronyms making the book accessible to anyone whose work is connected to home care nursing services. Designed to provide chapters as stand alone resources for readers with previous experience seeking updated guidance, *Home Care Nursing* is also an excellent guide for course or orientation material. Each chapter is packed with practical questions, discussion topics, and additional resources such as a complete Medicare Benefit Policy for reference. Additionally, offering more than just an overview of the healthcare and home care markets, this book discusses the unique practice setting and environment of home care nursing, the laws, regulations, and quality, and how to make the leap into the field, document your home visit, and improve your professional growth and development. **The Home Care**

Companion's Quick Tips for Caregivers Marion Karpinski, 2000 An information packed book that will provide you with all of the hands on caregiving advice and instruction you will need every day. **The Human Factor in Nursing Home Care** David Oliver, Sally Tureman, 2013-05-13 In an attempt to challenge the prevailing attitudes and images of nursing homes in America, the authors have written a touching book about the people and the relationships that are a part of nursing home care. Their extensive study of and experience with nursing home residents and caregivers reveal that our negative and often painful thoughts about nursing homes are not always well founded. The authors effectively use monologue and dialogue to take the reader into the world of the nursing home to observe the work of the nursing home staffs from administrators to housekeepers as they become surrogate families and friends of the patients. Most moving are the thoughts and words of the residents themselves, especially as they describe their initial horror and anger at being in the nursing home and their feelings of abandonment and loss of self esteem. Valuable for both undergraduate and graduate courses in nursing, social work, psychology, death and dying, pastoral care, and counseling, this comprehensive volume is useful as a primary or supplementary text. **BACKCOVER COPY** In an attempt to challenge the prevailing attitudes and images of nursing homes in America, David Oliver and Sally Tureman have written a touching book about the people and the relationships that are a part of nursing home care.
