The Poetry of Life in Literature Anna-Teresa Tymieniecka,2013-03-09 Poetry of life in literature and through literature and the vast territory in between as vast as human life itself where they interact and influence each other is the nerve of human existence Whether we are aware of it or not we are profoundly dissatisfied with the stark reality of life s swift progress onward and the enigmatic and irretrievable meaning of the past And so we dramatise our existence probing deeply for a lyrical and heartfelt yet universally valid sense of our experience It is in great works of literature that we seek those hidden springs that so move us It is in honour of this search that this collection focuses on the creative imagination at work in literature and aesthetics Encounter with Zen Lucien Stryk,1981 **Triumph of the Sparrow** Shinkichi

The Japanese Effect in Contemporary Irish Poetry Irene De Angelis, 2016-04-30 The Japanese Effect in Contemporary Irish Poetry provides a stimulating original and lively analysis of the Irish Japanese literary connection from the early 1960s to 2007 While for some this may partly remain Oscar Wilde s mode of style this book will show that there is more of Japan in the work of contemporary Irish poets than a tinkling of china and tea into china Drawing on unpublished new sources Irene De Angelis includes poets from a broad range of cultural backgrounds with richly varied styles Seamus Heaney Derek Mahon Ciaran Carson and Paul Muldoon together with younger poets such as Sin ad Morrissey and Joseph Woods Including close readings of selected poems this is an indispensable companion for all those interested in the broader historical and cultural research on the effect of oriental literature in modernist and postmodernist Irish poetry

The Great Mosaic Eye Robin Allott, 2012-03-09 This is a revised and extended version of the Great Mosaic Eye originally published in 2001 There have been major changes in neuroscience and in language research since then Apparently disparate segments of research have started to come together

and it is necessary to recast both the structure and the content of the book The extended title of the book with the addition of the word Society reflects this Another important change is that the book as originally published fell into two halves part 1 being the text of the book and part 2 an inserted CD which included a great deal of additional material that made possible important graphical and video content not easily presented in text form This new edition attempts to integrate all the material contained in the earlier edition but relying on links to the Internet for material in place of that contained in the inserted CD This new book as indeed was the case for the earlier version was intended to bring together a mass of material which had been published separately over more than 40 years under the titles The Physical Foundation of Language first published 1973 and recently reprinted The Motor Theory of Language 1989 The Natural Origin of Language The Structural Inter relation of Language Vision and Action The Child and the World How the child acquires language How language mirrors the world 2005 All these are now in print so that it is not necessary to repeat in this book much of the extensive discussion in the earlier books all supplemented by other recent material readily accessible on the Internet at
