

The background of the book cover is a detailed, warm-toned illustration of a grand opera house interior. The architecture is highly ornate, featuring multiple tiers of balconies filled with an audience dressed in late 19th or early 20th-century formal attire. The central floor is a large, open space where several figures are standing. The ceiling is high and decorated with intricate patterns and chandeliers. The overall atmosphere is one of historical grandeur and elegance.

Composition, Performance, Reception Wyndham Thomas, 2017-07-05 Composers performers listeners critics and theorists all play vital roles in the creation of music culture yet often each group can appear to hold widely divergent views of a musical work s aims and effects As the title indicates this book examines the parts played by these groups and the interaction between them In the first of eleven essays Robert Saxton discusses the difficulty in pin pointing the moment of

inspiration for a new composition while Raymond Warren looks at the problems facing operatic performers including those that arise when interpretations are suggested by the libretto but not in the music The changing perception of the composer's art from the 14th century to the present day is charted by Wyndham Thomas in particular attitudes towards arrangement Two quite different views of the performer's responsibility in communicating the composer's intentions are taken by Charles Rosen and Susan Bradshaw the latter arguing for the need to bridge the gap between theoretical and practical analysis of a work and in two fascinating case studies Eric Clarke and Jennifer Davidson highlight the ways in which attention to movements of the body in performance can reveal aspects of musical structure The reception of music is tackled from a variety of perspectives in the book In his assessment of audience reaction to Jonathan Harvey's *The Riot* Adrian Beaumont concludes that our response is influenced by a complex web of expectations and previous musical experience The influence of record sleeves in also determining a listener's response to music is discussed by Nicholas Cook while Stephen Walsh and Adrian Thomas explore two milieux of critical reception the first to the music of Stravinsky and the second to works composed during the social realist period in Poland On a more personal level Bojan Bujic's essay forms a fitting counterpart to Saxton's in his attempt to locate the ways in which we experience a new musica
