Block, Howard B. Rosing, 2015-09-03 Chicago began as a frontier town on the edge of white settlement and as the product of removal of culturally rich and diverse indigenous populations The town grew into a place of speculation with the

planned building of the Illinois and Michigan canal a boomtown and finally a mature city of immigrants from both overseas and elsewhere in the US In this environment cultures mixed first at the taverns around Wolf Point where the forks of the Chicago River join and later at the jazz and other clubs along the Stroll in the black belt and in the storefront ethnic restaurants of today Chicago was the place where the transcontinental railroads from the West and the trunk roads from the East met Many downtown restaurants catered specifically to passengers transferring from train to train between one of the five major downtown railroad stations This also led to destination restaurants where Hollywood stars and their onlookers would dine during overnight layovers between trains At the same time Chicago became the candy capital of the US and a leading city for national conventions catering to the many participants looking for a great steak and atmosphere Beyond hosting conventions and commerce Chicagoans also simply needed to eat safely and relatively cheaply Chicago grew amazingly fast becoming the second largest city in the US in 1890 Chicago itself and its immediate surrounding area was also the site of agriculture both producing food for the city and for shipment elsewhere Within the city industrial food manufacturers prospered highlighted by the meat processors at the Chicago stockyards but also including candy makers such as Brach's and Curtiss and companies such as Kraft Foods At the same time large markets for local consumption emerged The food biography of Chicago is a story of not just culture economics and innovation but also a history of regulation and regulators as they protected Chicago's food supply and built Chicago into a city where people not only come to eat but where locals rely on the availability of safe food and water With vivid details and stories of local restaurants and food Block and Rosing reveal Chicago to be one of the foremost eating destinations in the country Monroe Craig E. Hutchison, Kimberly A. Hutchison, 2005-04-27 One of the oldest settlements in Michigan Monroe is a treasure trove of American history The area had been occupied by various cultures of indigenous people for hundreds of years and later claimed by French explorers before becoming part of the Michigan Territory following the Revolutionary War explaining the town's previous name of Frenchtown The Monroe area is national known as the site of the Battles and Massacre of the River Raisin among the largest engagement of the War of 1812 and it was after the war that the town was renamed in honor of Pres James Monroe Perhaps the town is better known as the home of Gen George Armstrong Custer the Civil War hero who valiantly led Union troops to victory only to perish at the Battle of Little Bighorn This collection uses rare images and historical insights to document and celebrate Monroe's early development military legacy architectural splendor and legendary figures **Releasing the Prophetic Destiny of a Nation** Dr. Chuck Pierce, Dutch Sheets, 2005-04-01 Are You Ready to be a Part of the Destiny of Your Country Releasing the Prophetic Destiny of a Nation is the remarkable story of how God called two very different men to come together for a common cause His desire to heal the United States of America Endowed with God given keys for reconciliation of the United States Dutch Sheets and Chuck Pierce traveled the 50 states rallying apostles prophets intercessors and entire churches to break the grip of demonic strongholds Their efforts to purge

Remnants of a Shattered Past Sharon

Brunner, 2012-09-13 *Remnants of a Shattered Past* presents a revolutionary view of the causes behind the challenges many Native Americans face today as a result of historical trauma. The story of the Native American people is told in two ways in this creative non-fiction literary work. Brunner's retelling of the Native American history by her protagonists Eagle and Coyote reads as a well-written oral transcript. They travel through time to bring to life what it was like for the Native American people throughout history. In the non-fiction portion of the book, the author presents an understanding of the traditional period for the Ojibwe people, the ramifications of power and control through patriarchal domination and the Church, the realization of Manifest Destiny, the outcomes of historical trauma, and proactive ways in which Native Americans and others can make positive changes to enhance their overall well-being.

Ritual and Myth in Odawa Revitalization Melissa A.

Pflüg, 1998 This interdisciplinary account of a contemporary Great Lakes Algonkian community explores how the ethical system underlying Odawa Ottawa myth and ritual sustains traditionalists' efforts to confront the legal and social issues threatening tribal identity. Because many Odawa are not members of federally recognized communities, anthropologist Melissa A. Pflug focuses on their struggle to overcome long-term social marginalization and achieve collective sovereignty. In profound ways, contemporary Odawa people are walking the paths of their ancestors. Neolin, Pontiac, The Trout, and Tenskwatawa: Those prophetic leaders, together with mythic Great Persons, established a legacy tied to land, language, and tradition, a sovereign identity that defines Odawa life in terms of pimadaziwin, life sustaining moral and healthy

Native North American Armor, Shields, and Fortifications David E. Jones, 2010-01-01 The first systematic comparative study of the defensive armor and fortifications of aboriginal Native Americans. From the Chickasaw fighting the Choctaw in the Southeast to the Sioux battling the Cheyenne on the Great Plains, warfare was endemic among the North American Indians when Europeans first arrived on this continent. An impressive array of offensive weaponry and battle tactics gave rise to an equally impressive range of defensive technology. Native Americans constructed very effective armor and shields using wood, bone, and leather. Their fortifications ranged from simple refuges to walled and moated stockades to multiple stockades linked in strategic defensive networks. In this book, David E. Jones offers the first systematic comparative study of the defensive armor and fortifications of aboriginal Native Americans. Drawing data from ethnohistorical accounts and archaeological evidence, he surveys the use of armor, shields, and fortifications both before European contact and during the historic period by American Indians from the Southeast to the Northwest Coast, from the Northeast Woodlands to the desert Southwest, and from the Sub Arctic to the Great Plains. Jones also demonstrates the sociocultural factors that affected warfare and shaped the development of different types of armor and fortifications. Extensive eyewitness descriptions of warfare, armor, and fortifications, as well as photos and sketches of Indian armor from museum collections, add a visual dimension to the text. This succinct book is well-written and systematically organized, and it

will serve as the starting point for any future studies on the subject Military History of the West This book provides the first and only comprehensive survey of armor shields and fortifications of American Indians It has left me with a new appreciation for the sheer diversity of warfare armor and fortifications used by Native Americans and it shatters stereotypes about the nature of aboriginal warfare Wayne Van Horne associate professor of Anthropology Kennesaw State University The Encyclopedia of the Wars of the Early American Republic, 1783-1812 Spencer C.
