People Of Migrants:

We Are All Migrants Gregory Feldman, 2015-05-27 Now more than ever questions of citizenship migration and political action dominate public debate In this powerful and polemical book Gregory Feldman argues that We Are All Migrants By challenging the division between those considered citizens and migrants Feldman shows that both subjects confront disempowerment uncertainty and atomization inseparable from the rise of mass society the isolation of the laboring individual and the global proliferation of rationalized practices of security and production Yet this very atomization the ubiquitous condition of migrant hood pushes the individual to ask an existential and profoundly political question do I matter in this world Feldman argues that for particular individuals to answer this question affirmatively they must be empowered to jointly constitute the places they inhabit with others Feldman ultimately argues that to overcome the condition of migrant hood people must be empowered to constitute their own sovereign spaces from their particular standpoints Rather than base these spaces on categorical types of people these spaces emerge only as particular people present themselves to each other while questioning how they should inhabit it *Promoting the health of refugees and migrants: experiences from around the world* World Health Organization, 2023-02-01 [Migrant Imaginaries](#) Alicia Schmidt Camacho, 2008-07-24 This book explores the transnational movements of Mexican migrants in pursuit of labor and civil rights in the United States from the 1920s onward Working through key historical moments such as the 1930s the Chicano Movement and contemporary globalization and neoliberalism the author examines the relationship between ethnic Mexican expressive culture and the practices sustaining migrant social movements She addresses how struggles for racial and gender equity cross border unity and economic justice have defined the Mexican presence in the United States since 1910 *A Pilgrim People* Gerald W Schlabach, 2019-10-28 Recent decades have seen a steady trend in Roman Catholic teaching toward a commitment to active nonviolence that could qualify the church as a peace church As a moral theologian specializing in social ethics Schlabach explores how this trend in Catholic social teaching will need to take shape if Catholics are to follow through Globalization he argues is an invitation to recognize what was always supposed to be true in Catholic ecclesiology Christ gives Christians an identity that crosses borders To become a truly catholic global peace church in which peacemaking is church wide and parish deep Catholics should recognize that they have always properly been a diaspora people with an identity that transcends tribe and nation state **Migrants and Refugees at UK Borders** Yasmin Ibrahim, 2022-02-27 This book investigates the hostile environment and politics of visceral and racial denigration which have characterised responses to refugees and migrants within the UK and Europe in recent years The European migrant crisis from 2015 onwards has been characterised by an extremely intimidating atmosphere which denies the basic humanity of refugees and migrants Deep rooted in Western Enlightenment trajectory this racially driven politics is linked to the Western theories of scientific superiority which went on to become the basis of eugenics and coloniality as part of modernity Focusing on the migrant crisis Brexit and the impacts of
