Project Circles The World School For Adventure Learning:

Project Circles Walter Enloe, Renee Louise Wonser, Peggy Knapp, 2002 Essays from classroom teachers K 12 in six countries Using the Internet for creating environmental education projects and sharing data with other students These experiments are an inspiration for K 12 teachers in designing meaningful replicable environmental education experiences

Learning Circles Michelle Collay, 1998-08-18 The Golden Age Of Antibiotics Is Over Deadly new organisms resistant to all known antibiotics are emerging all over the planet and gaining ground FAST It s over The truth is the comfortable world as we have known it for the last 60 years is coming rapidly to an end Bacteria are deadly and the short period of time where we were able to control them is vanishing fast Because of their fantastic power of multiplication doubling every 20 minutes or so that new strain could be all over the Earth within months or even weeks You ve heard of MRSA everyone has heard of MRSA But did you know that in 2009 an even more virulent new strain of MRSA emerged that is FIVE TIMES more deadly and kills 50% of its victims But it s not just MRSA Now we have VRE vancomycin resistant enterococcus which is far more deadly than MRSA 100% fatal septicemia Also we now have PRSP penicillin resistant Streptococcus pneumoniae It is reported that out of 100 000 hospitalizations for pneumonia 40% are now due to this organism And don t forget resistant syphilis is back on the loose Syphilis Lues was one of the most feared of all diseases for centuries and kept young men and women in terror of the act of sexual union Our old enemy TB is on the prowl too with a new strain which is classed MDR multiple drug resistant In Germany in the summer of 2011 A deadly new strain of E Coli emerged that is highly resistant to antibiotics and killed hundreds in Europe on it s unstoppable rampage If you are not worried about this deteriorating position you should be False reliance on drugs and pharma medicine has proven to be a weak strategy the game is LOST The Truth Is You can t hold back bacteria They are too overwhelmingly numerous and powerful But there is GOOD news In the days before antibiotics not everyone died of their infections There were scores of great workable non drug solutions to infections These remedies still work You need to get to know them get re acquainted with our folklore and natural heritage again and fast You never know when the next outbreak will sweep your neighborhood It s important to strengthen your immune defenses of course But you also need to go on a short education course of learning what your antibiotic alternative options are To make it easy for you Dr Keith has compiled a comprehensive report of all the suitable alternatives with scientific studies to support them You ll be amazed just how many humble home remedies and plant based solutions have been studied scientifically and demonstrated to work effectively PLUS he has given you lots of very modern possibilities that were not even dreamed of in the era before antibiotics This is the AUTHORITY report you have been waiting for Dr Keith is well known for demanding minimum scientific standards not just myth wise woman stories and ignorant conjecture

The Palgrave International Handbook of Women and Outdoor Learning Tonia Gray, Denise Mitten, 2018-05-12 This Handbook serves as a starting point for critical analysis and discourse about the status of women in outdoor learning environments OLEs Women choose to

participate actively in outdoors careers many believing the profession is a level playing field and that it offers alternatives to traditional sporting activities They enter outdoor learning primarily on the strength of their enthusiasm for leading and teaching in natural environments and assume the field is inclusive rewarding excellence regardless of age gender socioeconomic status disability or ethnicity However both research and collective experiences in OLEs suggest that many women feel invisible relegated marginalized and undervalued In response to this marginalization this Handbook celebrates the richness of knowledge and practices of women practitioners in OLEs Women scholars and practitioners from numerous fields such as experiential outdoor education adventure education adventure therapy and gender studies explore the implications of their research and practice using poignant examples within their own disciplines These insights emerge from similar life experiences as women and outdoor leaders in the 1970s to the present Social inequalities still abound in OLEs and the Handbook ensures that the contributions of women are highlighted as well as the work that needs to be done to make these spaces inclusive Global in perspective and capacious in content this one stop volume is an indispensable reference resource for a diverse range of academics including students and researchers in the fields of education psychology sociology gender studies geography and environment studies as well as the many outdoors fields

Unschooling Gina Riley, 2020-07-20 This book explores the history of the unschooling movement and the forces shaping the trajectory of the movement in current times As an increasing number of families choose to unschool it becomes important to further study this philosophical and educational movement It is also essential to ascribe theory to the movement to gain greater understanding of its workings as well as to increase the legitimacy of unschooling itself In this book Riley provides a useful overview of the unschooling movement grounding her study in the choices and challenges facing families as they consider different paths towards educating their children outside of traditional school systems

Instructor, 1995

Whole School Projects Kieran Egan, Bob Dunton, Gillian Judson, 2014 In this new and practical contribution to the importance of imagination in learning Kieran Egan and his colleagues demonstrate how individual contributions to a coherent large scale project can produce enormous results of great educational value Helping all participants to feel pride for more than just their own individual work such Whole School Projects WSPs encourage appreciation for the abilities of others and enable everyone involved to recognize that all kinds of learning styles intelligences and ability levels play an important part in constructing the whole Most important WSPs invigorate student engagement and build community within a school The authors describes a program for engaging a whole school in a particular project over a three year period and outline the educational principles and benefits Providing examples of schools successfully using WSPs they examine the detailed practices needed to get such a project up and running in a typical school While the Whole School Project is distinct from the regular curriculum it can help achieve many of the year s curriculum objectives in mathematics literacy science and technology social studies art and history Finally teachers can choose to incorporate their curriculum aims into the project study even when those aims include

meeting externally mandated achievement standards In this highly original book iconic curriculum theorist and change agent Kieran Egan sets out a challenging but coherent alternative to the ways schools usually function For just a few hours every week all students undertake a Whole School Project together Egan s inspiring yet practical strategy will enable you to engage your students ignite your colleagues and deepen learning throughout the school It s a game changer for progressives and traditionalists alike Andy Hargreaves Thomas More Brennan Chair in Education Lynch School of Education Boston College I have used Egan s imaginative tools extensively in the classroom and facilitated learners from kindergarten to grade 8 with their Learning in Depth projects experiencing how engaged and deep the learning becomes Whole School Projects will continue to expand these proven exemplary practices or if this is all new to you it will be a wonderful place to begin Shannon Shields vice principal SBTC Salt Spring Island Middle School Kieran Egan is one of the thinkers on 21st century learning who is not content to simply wave his hands in the air and invoke the magic of technology He offers concrete proposals for student centered learning that are workable in our current school environment Mark Classen principal Harrison Hot Springs Elementary School

Electronic Collaborators Curtis Jay Bonk, Kira S. King, 2012-12-06 Two developments in recent years have converged to dramatically alter most conceptions of the teaching and learning process First technology has become increasingly interactive and distributed such that individual learners have available the means to participate in incredibly complex networks of information resources and instruction As these technological advancements facilitate interaction across classroom university and worldwide learning communities in both real time and delayed formats various instructional design and implementation problems spring forth Second the conventional teacher centered model wherein knowledge is transmitted from the teacher to the learner is being replaced by social constructivist and learner centered models of instruction These new learner centered models place emphasis on guiding and supporting students as they meaningfully construct their understanding of various cultures and communities As a consequence of these developments teachers need guidelines from educational researchers about integrating collaboration and communication tools into their classrooms This volume presents research on such collaborative technology as it facilitates augments and redefines academic learning environments The studies illustrate how schools teachers and students are discovering employing and modifying the numerous new computer conferencing and collaborating writing tasks and tools and their effects on social interaction and resulting student learning Documentation is given that will help teachers to make decisions that productively transform learning environments Three key objectives underlie this volume to discover some of the electronic collaboration tools and formats currently employed by teachers in schools and universities and to situate these within a five level taxonomy of computer conferencing and collaborative writing tools and approaches to examine some of the sociocultural learning variables embedded in the use of electronic collaborative tools and approaches and to participate in a dialogue about the importance of student electronic social interaction and dialogue from a sociocultural perspective This is a must read volume

for all researchers scholars graduate students and practitioners interested in such fields as sociocultural theory process writing cooperative learning learner centeredness distance education peer conferencing and tutoring mentoring electronic collaboration problem and project based learning collaborative writing and educational reform
