Retreat To Commitment:

The Retreat to Commitment William Warren Bartley,1984 *The Retreat to Commitment* William Warren Bartley (III),1964 **The Retreat to Commitment** I. I. I. Bartley,1999-10 a staggering paradigm shift which bears far reaching implications for scientific postures Renford Bambrough New Statesman Reason in the Service of Faith Paul Helm,2023-03-01 Paul Helm is a distinguished philosopher with particular interests in the philosophy of religion His work covers some of the most important aspects of the field as it has developed in the last thirty years with particular contributions to metaphysics religious epistemology and philosophical theology In celebration of Helm s life s work Reason in the Service of Faith brings together a range of his essays which reflect these central concerns of his thought Over thirty of Helm s selected essays and four unpublished articles are gathered into five parts Metaphilosophical Issues Action Change and Personal Identity Epistemology God and Creation Providence and Prayer The volume is prefaced with a short editorial introduction and ends with an extensive bibliography of Helm s published works Demonstrating the important connection between Helm s theological and philosophical interests across his body of work this collection is a remarkable resource for scholars of religion philosophy and theology *Flucht ins Engagement (The retreat to commitment, dt.)*. William Warren Bartley,Karl Heinz Laier,1964 The Reasonableness of Reason Bruce W. Hauptli,1995 Another school of rationalists realistic rationalists manages to avoid the paradox which besets justificatory rationalism but Hauptli shows this approach rests on a maxim as arbitrary as that of the kerygmatic rationalists **Unapologetic Apologetics** William A. Dembski,Jay W. Richards,2001-01-05 Edited by William A Dembski and Jay Wesley Richards this group of former Princeton Theological Seminary students brings apologetics back into the seminary debates as they expose the influence of naturalism in theological studies plus other philosophical tenets automatically assumed in much mainline theology *Personality and Close Relationship Processes* Stanley O. Gaines, Jr,2016-08-18 Few observers of relationship dynamics would dispute the claim of interdependence theorists that a defining feature of close relationships is the extent to which partners influence each other s thoughts feelings or behaviors However partners do not behave simply in response to each other s behavior both partners in a given relationship bring themselves indeed their selves into the relationship as well Not only are individuals selves enormously complex and rich in content but so too are the multitude of personality characteristics including traits values attitudes motives and emotions that contribute to selves richness Gaines Jr provides a major integration of research on personality with research on relationship science and demonstrates how personality constructs can be readily incorporated into the two most influential theories of close relationships attachment theory and interdependence theory This study will be of value to scholars in the fields of close relationships personality psychology communication studies and family studies

Theology and the Justification of Faith Jacobus Wentzel Van Huyssteen,Wentzel Van Huyssteen,1989 This is a print on demand book and is therefore non returnable This book deals with the epistemological problems of rationality and of theory

construction in theology Van Huyssteen analyzes the principal models of rationality examines the conceptual models of Wolfhart Pannenberg and Gerhard Sauter and finally discusses the metaphoric nature of religious language and develops criteria for the structuring of a critical realist rationality model **Reconstructing Eliade** Bryan S. Rennie,1996-01-01 Provides a coherent and defensible interpretation of Eliade s thought which allows less familiar readers to approach Eliade with a greater clarity and precision Foreword by Mac Linscott Ricketts a leading translator of Eliade s writings Barth and Rationality D. Paul La Montagne,2012-06-07 This work brings the critically realistic interpretation of Barth s dialectical theology into conversation with the modern dialogue between science and theology Philosophy of science philosophy of mathematics and logic and considerations of the problem of rationality raised in the science and theology dialogue are brought to bear upon Barth s theology in an attempt to explicate the rationality of his dialectical method Its deep and abiding radical nature and character are lifted up emphasized and explored The results of this study are then used to answer some long standing criticisms of Barth What emerges are an understanding of how Barth uses philosophy and why he declines to do philosophy La Montagne opens the way for Barth scholars to enter into the dialogue between theology and science

Evolutionary Epistemology, Rationality, and the Sociology of Knowledge Karl Raimund Popper,1987 Bartley and Radnitzky have done the philosophy of knowledge a tremendous service Scholars now have a superb and up to date presentation of the fundamental ideas of evolutionary epistemology Philosophical Books **Scientific Models for Religious Knowledge** Andrew Ralls Woodward,2018-08-14 Most comparisons of science and religion are really comparisons of science and Christianity or science and Islam and so forth In Scientific Models for Religious Knowledge the author aims to get outside typical polarized debates between traditional a priori theism and radical scientistic naturalism Instead a new science and religion compatibility system between a scientific study of religion and a religious epistemology is our new elusive problem Moreover we shall look at a comparison and contrast of modern science with the simple deference of the human mind to the actions of culturally postulated superhuman agents This book pays critical attention to the contributions of scholars in the philosophy of religion the philosophy of science and the scientific study of religion Scientific Models for Religious Knowledge is useful for readers looking to expand their learning in the philosophies of science and religion as these subjects are taught and analyzed in modern research universities **Joseph Ratzinger in Dialogue with Philosophical Traditions** Tracey Rowland,Alejandro Sada,Rudy Albino de Assunção,2024-01-25 This book extensively explores the various influences and connections between Joseph Ratzinger and a number of leading philosophers engaging with his work by means of Spanish Portuguese German and English schools of thought through the contributions of a global body of scholars Each chapter in this volume examines precisely how Ratzinger has dealt with the ideas of a particular philosopher and how he has appropriated their ideas and thoughts Moving from philosophers he has modified or critiqued such as Kant Comte or Wittgenstein to those who have contributed to his philosophical theology such as Guardini and Pieper this truly international

endeavour is an extraordinary journey into Ratzinger's engagement with his competing and congenial schools of thought

Passionate Reason C. Stephen Evans, 1992-11-22 Johannes Climacus Søren Kierkegaard's pseudonymous author of *Philosophical Fragments* invents a religion suspiciously resembling Christianity as an alternative to the assumption that humans possess the Truth within themselves Through this literary device Climacus raises in a fresh and audacious way age old questions about the relation of Christian faith to human reason Is the idea of a human incarnation of God logically coherent Is religious faith the product of a voluntary choice In a comprehensive discussion of one of Kierkegaard's most important books C. Stephen Evans elucidates Kierkegaard's novel explanation that the tension between faith and reason must be understood as a consequence of the passionate character of reason itself *Passionate Reason* situates Kierkegaard's philosophy in the context of postmodern religious thought providing a contemporary reading of *Fragments* as a challenge to both the modern Enlightenment critique of reason and the postmodern abandonment of truth

Exodus Church and Civil Society Scott R. Paeth, 2016-04-15 This book investigates the intersection of theology and social theory in the work of Jürgen Moltmann In particular it examines the way in which his concept of the Exodus Church can illuminate the importance of the idea of civil society for a Christian public theology The concept of civil society can aid in moving from the narrower category of political theology a term used frequently by Moltmann to emphasize the church's public commitment to a broader understanding of theology's public task which takes into account the plurality of ends and institutions within society The idea of the Exodus Church enables deeper understanding of Christian ethical participation within a complex modern society

more time with less people to further an all important message he soon realized this is the discipleship model Jesus set out during his ministry today two billion people worldwide embrace the wisdom He entrusted to a small band of disciples two thousand years ago Mentor Like Jesus is Campbell s revelation of what he now calls next generation mentoring an exponentially rewarding process that is resulting in lives changed marriages saved children dealt with in a more loving way Readers of any age and in any situation will clearly understand how the return on a meaningful investment in another person is truly immeasurable

Human Dignity Peter Bieri, 2017-01-12 Dignity is humanitys most prized possession We experience the loss of dignity as a terrible humiliation when we lose our dignity we feel deprived of something without which life no longer seems worth living But what exactly is this trait that we value so highly In this important new book distinguished philosopher Peter Bieri looks afresh at the notion of human dignity In contrast to most traditional views he argues that dignity is not an innate quality of human beings or a right that we possess by virtue of being human Rather dignity is a certain way to lead ones life It is a pattern of thought experience and action in other words a way of living In Bieris account there are three key dimensions to dignity as a way of living The first is the way I am treated by others they can treat me in a way that leaves my dignity intact or they can destroy my dignity The second dimension concerns the way that I treat other people do I treat them in a way that allows me to live a dignified life The third dimension concerns the view that I have of myself which ways of seeing and treating myself allow me to maintain a sense of dignity In the actual flow of day to day life these three dimensions of dignity are often interwoven and this accounts in part for the complexity of the situations and experiences in which our dignity is at stake So why did we invent dignity and what role does it play in our lives As thinking and acting beings our lives are fragile and constantly under threat A dignified way of living argues Bieri is humanitys way of coping with this threat In our constantly endangered lives it is important to stand our ground with confidence Thus a dignified way of living is not any way of living it is a particular way of responding to the existential experience of being under threat It is also a particular way of answering the question What kind of life do we wish to live This beautifully written reflection on our most cherished human value will be of interest to a wide readership
