Elizabeth Brooker,2018-09-21 Transforming Performance Anxiety Treatment Using Cognitive Hypnotherapy and EMDR offers a much needed and different approach to this issue using two psychodynamic therapies which work to bring about rapid and long lasting change Using nine reflexive case studies the author examines two little used interventions cognitive hypnotherapy CH and eye movement desensitisation and reprocessing EMDR The basic theories of cognitive anxiety and the emotions that underpin this condition are explored The principles and protocols of CH and EMDR are explained and how these psychodynamic therapies are adapted to effect permanent change The first book to examine these treatments for this condition Transforming Performance Anxiety Treatment will be of interest for practitioners and therapists in training as well as educators professionals and therapists working within competitive sports **Fine Riding on motivated Horses** Uta

Gräf,Friederike Heidenhof,2015-08-17 Whether it be dressage showjumping eventing or hobby riding our common goal is to enjoy riding treat our horses well and reach personal goals To demonstrate how highly successful competitive sport can indeed go hand in hand with a close to nature horse friendly way of caring for and looking after horses we provide insights into the personal training and stable management concepts of Uta Graef The authors will show everything that goes into this

approach including for example the structure of training supporting horses in a way which respects their age as well as general care and behaviour around horses But you as a rider are also very important How can you change your attitude towards horses in a positive way How can you maintain your pleasure in riding or if lost win it back How can it be possible to ride with less stress in future The stable culture and the way classes and lessons are structured also play an important role in ensuring you enjoy your riding The authors will show what influences each and every rider can optimise in order to reach the goal of fine riding on motivated horses The book will encourage you to follow a horse friendly path towards personal success adhering to the principles of classical training and step by step working up towards your personal goals This does not necessarily have to be competitive success but it could also simply be the desire for fine riding on motivated horses Therefore the authors of this book wish to emphasise what kind of thought processes and which principles are particularly suitable for a positive influence on fine riding rather than just listing training movements and the requirements at different levels It is not a classical textbook but rather a helpful and pleasant read with many behind the scenes insights for riders of all disciplines and of all levels

Successful Riding Lesley Eccles, 1990 *Riding from the Seat of Your Soul* P. Ann Turner, 2018-06-28 Riding from the Seat of Your Soul came about after I had read Wayne Dyers book about the wisdom of the Tao After living with horses for over forty years I experienced the power that they have to change lives on a day to day basis not only my own but also the lives of my students I will never forget the transformation of a little boy who was eight years old and who had never spoken a word He garbled and every therapy that had been tried failed to elicit speech I was teaching Special Olympics equestrian at the time on my farm in Jamaica and one day I thought I heard him say the name of the horse he liked to ride His teacher and I were sure we were mistaken so we asked him again What did you say He repeated the name of the horse It was the first word he had ever spoken Of course we were all in tears of joy and it was an experience I will never forget After reading Dr Dyers Living the Wisdom of the Tao I thought to myself that some of the philosophical ideas could be related to not only the way we live our lives but also the way we treat our horses as well This book has something for everyone and you dont have to be involved with horses to get the idea
