Riera i Aragó: Iconography Valentín Roma, Josep M. Riera i Aragó, 2005 Iconography considers a major period in Riera I Arag s long career and considers the principal motifs planes submarines stelae the Aral Sea islands that form the alphabet of his artistic idiom In an oeuvre where reality and fiction blur together astronomy botany mathematics and mysticism all come into play **Artbibliographies Modern** ,2004 **Royal Divine Coronation Iconography in the Medieval**

Euro-Mediterranean Area Mirko Vagnoni, 2020-12-15 In the last decades historians and art historians have created an active historiographical debate about one of the most fascinating and studied iconographic themes of the Middle Ages the royal divine coronation Indeed in the specific case of some Ottonian and Salian illuminations it has been proposed that their function was not only political or to legitimize power as traditionally suggested Herrscherbilder but also liturgical and religious Memorialbilder This has led to a complete rethinking of the meaning of this iconographic theme the divine coronation of the king would not symbolically allude to his earthly power but to the wholly devotional hope of receiving the crown of eternal life in the afterlife If this academic debate has been concentrated above all on Ottonian and Salian royal images this Special Issue of Arts would like to deal with this topic by stimulating the analysis of royal divine coronation and blessing scenes in religious and liturgical context mosaics frescos or paintings placed in cathedrals or monastic churches and illuminations of liturgical texts with a wider geographical and temporal setting that is the European and Mediterranean kingdoms in the period from the 12th to the 15th centuries **Books In Print 2004-2005** Ed Bowker Staff, Staff Bowker, Ed, 2004 **Printmaking Today** ,1994 *Bibliografía española* ,2004 *Bibliographie D'histoire de L'art* ,1996

Power, Piety, and Patronage in Late Medieval Queenship N. Silleras-Fernandez, 2016-05-24 Based on an exhaustive and varied study of predominantly unpublished archival material as well as a variety of literary and non literary sources this book investigates the relation between patronage piety and politics in the life and career of one Late Medieval Spain s most intriguing female personalities Maria De Luna **Saints as Intercessors between the Wealthy and the Divine** Emily Kelley, Cynthia Turner Camp, 2019-04-25 Offering snapshots of mercantile devotion to saints in different regions this volume is the first to ask explicitly how merchants invoked saints and why Despite medieval and modern stereotypes of merchants as godless and avaricious medieval traders were highly devout and rightly so Overseas trade was dangerous and merchants commercial activities were seen as jeopardizing their souls Merchants turned to saints for protection and succor identifying those most likely to preserve their goods families reputations and souls The essays in this collection written from diverse angles range across later medieval western Europe from Spain to Italy to England and the Hanseatic League They offer a multi disciplinary examination of the ways that medieval merchants from petty traders to influential overseas wholesalers deployed the cults of saints Three primary themes are addressed danger community and the unity of spiritual and cultural capital Each of these themes allows the international panel of contributors to demonstrate the significant role of saints in

mercantile life This book is unique in its exploration of saints and commerce shedding light on the everyday role religion played in medieval life As such it will be of keen interest to scholars of religious history medieval history art history and literature

Women and Wealth in Late Medieval Europe T. Earenfight, 2010-03-15 The twelve essays in *Women and Wealth in Late Medieval Europe* re-examine the vexing issue of women money wealth and power from distinctive perspectives literature history architectural history using new archival sources The contributors examine how money and changing attitudes toward wealth affected power relations between women and men of all ranks especially the patriarchal social forces that constrained the range of women's economic choices Employing theories on gender culture and power this volume reveals wealth as both the motive force in gender relations and a precise indicator of other more subtle forms of power and influence mediated by gender

Contested Treasure Thomas W. Barton, 2014-12-19 In *Contested Treasure* Thomas Barton examines how the Jews in the Crown of Aragon in the twelfth through fourteenth centuries negotiated the overlapping jurisdictions and power relations of local lords and the crown The thirteenth century was a formative period for the growth of royal bureaucracy and the development of the crown's legal claims regarding the Jews While many Jews were under direct royal authority significant numbers of Jews also lived under nonroyal and seigniorial jurisdiction Barton argues that royal authority over the Jews as well as Muslims was far more modest and contingent on local factors than is usually recognized Diverse case studies reveal that the monarchy's Jewish policy emerged slowly faced considerable resistance and witnessed limited application within numerous localities under nonroyal control thus allowing for more highly differentiated local modes of Jewish administration and coexistence *Contested Treasure* refines and complicates our portrait of interfaith relations and the limits of royal authority in medieval Spain and it presents a new approach to the study of ethnoreligious relations and administrative history in medieval European society
