Braddock Clarke, Ryoko Yamanaka Kondo, 2022-08-11 With over 200 color illustrations Byzantine Silk on the Silk Roads examines in detail the eclectic iconography of the Byzantine period and its impact on design and creativity today Through an examination of the extraordinary variety of designs in these captivating silks an international team of experts reveal that Byzantine culture was ever moving and open to diverse influences across the length of the Silk Road Commentaries from curators at key collections including the Museum of Arts Boston the Smithsonian Cooper Hewitt the V A and the Vatican reveal the spread of silk embroidery and designs from East to West and from West to East from China to Rome and from Constantinople to Korea Drawing on exclusive imagery from worldwide collections within museums churches and archives as case studies their

analysis of these unique woven silks explores the relationship between color and power material culture and status and offers broader insight into Byzantine culture trade society and ceremony Byzantine Silk takes us on a journey from the past to the present too where Byzantine story telling and image making is revisited through color imagery and pattern in contemporary fashion collections Exploring Byzantine culture through a contemporary filter the book shows how the Byzantine era still influences textile and fashion designers today in their choices of materials and colors and their utilization of images and patterns acting as a unique source of inspiration to designers and creators in the 21st century *Clothing the Past:*

Owen-Crocker, 2018-02-12 An astonishing number of medieval garments survive more or less complete Here the authors present 100 items ranging from homely to princely The book's wide ranging introduction discusses the circumstances in which garments have survived to the present sets and collections constructional and decorative techniques iconography inscriptions on garments style and fashion Detailed descriptions and discussions explain technique and ornament investigate alleged associations with famous people many of them spurious and demonstrate even when there are no known associations how a garment may reveal its own biography a story that can include repair remaking recycling burial resurrection and veneration accidental loss or deliberate deposition The authors both have many publications in the field of medieval studies including previous collaborations on medieval textiles such as *Medieval Textiles of the British Isles AD 450-1100* an Annotated Bibliography 2007 the *Encyclopedia of Medieval Dress and Textiles of the British Isles* 2012 and online bibliographies **Studies in Byzantine, Islamic and Near Eastern Silk Weaving** Anna Muthesius, 2006-12-31 This

volume complements Anna Muthesius two earlier ground breaking volumes in the field of silk as material culture *Studies in Byzantine and Islamic Silk Weaving* and *Studies in Silk in Byzantium* The publication highlights the fact that similar patterns of selection were at work in the acquisition of silks by secular and ecclesiastical bodies These patterns of selection were governed not only by fashions of the time but by access to international trade routes leading to the Great Silk Road linking the Near East to the Mediterranean The surviving silks prove that Mediterranean Near Eastern silk trade flourished continuously and for centuries prior to the thirteenth century contrary to what has previously widely been assumed It also highlights the crucial role of the Caucasian silk routes in accessing the Great Silk Road in the early period and the contribution of Georgian and Armenian silk weaving after the thirteenth century Above all the book demonstrates how important it is to assess the impact of Near Eastern silk manufacture and distribution in relation to Byzantine and Islamic Mediterranean silk production and trade **Cultural Heritage Care and Management** Cecilia Lizama

Gifts of Clothing in Late Antique Literature Nikki Rollason, 2016-07-15 Both clothing and gifts in the ancient world have separately been the subject of much scholarly discussion because they were an integral part of Greek and Roman society and identity creating and reinforcing the relationships which kept a community together as well as delineating status and even symbolising society as a whole They have however rarely been studied together despite the prevalence of clothing gifts in many ancient texts This book addresses a gap in scholarship by focusing on gifts of elite male clothing in late antique literature in order to show that when they appeared in texts these items were not only functioning in an historical or real life sphere but also as a literary space within which authors could discuss ideas of social relationships and authority This book suggests that authors used items which usually formed part of the costume of authority of the period the trabea of the consul the chlamys of the imperial court and the emperor and the pallium of the Christian bishops to over write wearers and donors as confident figures of official authority when this may have been open to doubt

Religion in Roman Egypt David Frankfurter, 2020-06-30 This exploration of cultural resilience examines the complex fate of classical Egyptian religion during the centuries from the period when Christianity first made its appearance in Egypt to when it became the region s dominant religion roughly 100 to 600 C E Taking into account the full range of witnesses to continuing native piety from papyri and saints lives to archaeology and terracotta figurines and drawing on anthropological studies of folk religion David Frankfurter argues that the religion of Pharonic Egypt did not die out as early as has been supposed but was instead relegated from political centers to village and home where it continued a vigorous existence for centuries In analyzing the fate of the Egyptian oracle and of the priesthoods the function of magical texts and the dynamics of domestic cults Frankfurter describes how an ancient culture maintained itself while also being transformed through influences such as Hellenism Roman government and Christian dominance Recognizing the special characteristics of Egypt which differentiated it from the other Mediterranean cultures that were undergoing simultaneous social and political changes he departs from the traditional decline of paganism triumph of Christianity model most often used to describe the Roman period By revealing late Egyptian religion in its Egyptian historical context he moves us away from scenarios of Christian triumph and shows us how long and how energetically pagan worship survived Textile Messages Căcilia Fluck, Gisela Helmecke, 2006-05-01 The practice to supply textiles with inscriptions is well known in Egypt from Pharaonic times onwards Nevertheless systematic studies on inscribed fabrics have been neglected until the middle of the 1990s when they almost simultaneously caught the interest of various scholars This richly illustrated volume is a first compilation of what
