Motigraphics Richard C. Maddock, 2000-01-30 Motigraphics is the natural complement to demographics and psychographics the completion of a triad For consumers because motives are the most important dimension of human behavior motives lead directly to decisions and decisions lead directly to purchasing behavior Demographics and psychographics tell us the what when where and how of consumer behavior but motigraphics tells us why consumers do what they do Dr Maddock maintains that academic psychology has failed to provide a formal approach to motivation thus marketers have never been able to get a

firm grasp on why consumers prefer what they do why they cancel and don't renew and what factors enter into their decision making at the point of sale With Motigraphics we can now measure and compute motives and the strength of motivation allows us to determine how much equity a brand Motigraphics allows us to describe customer loyalty in terms of a quantitative motivational profile and scale Not only does Dr Maddock show how to measure motives he also helps us assess the amount of emotion involved in a product or service Since most consumer decisions are based on emotion not reason the importance of Dr Maddock's book for psychologists marketers and advertising and sales professionals is self evident and inestimable

Making Sense of the Chaos Bobbie Stevens PhD, 2017-07-20 In Making Sense of the Chaos we discover the evolutionary process that underlies the total chaos we are seeing in the world today and what we can do about it Could it be that there is one misconception that underlies all the chaos Our early history records a time when spiritual leaders informed the people about how the world worked and how to live their lives We find an example of this with the 10 Commandments in the Bible As time passed we moved from being guided by spiritual leaders to trusting in science to show us how the world works and how to live our lives Making Sense of the Chaos brings us up to date on the discoveries of science and the realization that their original theory was incorrect They have now discovered that the world doesn't work the way they believed did In this book we can see how this one incorrect belief has shaped every aspect of our lives and is the root cause of what we are seeing in the world today Dr Stevens shares with us what that incorrect belief is and how it has shaped our lives And most importantly how we can correct that belief and change our lives and the world
