Value-Focused Thinking Ralph L. KEENEY,Ralph L Keeney,2009-06-30 This text argues that in decision making a focus should be placed on the bottom line objectives that give it its meaning It states that through recognizing and articulating fundamental values better decision opportunities can be identified thereby creating better alternatives

Design of Enterprise Systems Ronald E. Giachetti,2011-05-19 In practice many different people with backgrounds in many different disciplines contribute to the design of an enterprise Anyone who makes decisions to change the current enterprise to achieve some preferred structure is considered a designer What is problematic is how to use the knowledge of separate aspects of the enterprise to achieve a globally optimized enterprise The synthesis of knowledge from many disciplines to design an enterprise defines the field of enterprise engineering Because enterprise systems are exceedingly complex encompassing many independent domains of study students must first be taught how to think about enterprise systems Specifically written for advanced and intermediate courses and modules Design of Enterprise Systems Theory Architecture and Methods takes a system theoretical perspective of the enterprise It describes a systematic approach called the enterprise design method to design the enterprise The design method demonstrates the principles models methods and tools needed to design enterprise systems The author uses the enterprise system design methodology to organize the chapters to mimic the completion of an actual project Thus the book

details the enterprise engineering process from initial conceptualization of an enterprise to its final design Pedagogical tools available include For instructors PowerPoint slides for each chapter Project case studies that can be assigned as long term projects to accompany the text Quiz questions for each chapter Business Process Analyzer software available for download For students Templates checklists forms and models to support enterprise engineering activities The book fills a need for greater design content in engineering curricula by describing how to design enterprise systems Inclusion of design is also critical for business students since they must realize the import their decisions may have on the long term design of the enterprises they work with The book s practical focus and project based approach coupled with the pedagogical tools gives students the knowledge and skills they need to lead enterprise engineering projects *Soul Mission, Life Vision* Alan Seale,2003-01-01 In the Introduction of his groundbreaking new work Alan Seale writes This book is the owner s manual you never received when you entered this world offering both the theory and the practice that can lead you to getting the most out of your life physically emotionally mentally and spiritually What follows is an intensely detailed program of exercises meditations and activities that ultimately allows you to achieve what you were put on this earth to accomplish your soul mission Settle in your favorite chair with Alan s book a pen and plenty of paper and begin this four fold process discovery declaration of mission and vision utilizing the mind and thought for creation and living your mission by manifesting your vision Discover a big picture view of life beyond the constraints of any situation Develop the power to make choices out of desire and clarity rather than circumstantial necessity Examine your previous life choices and plan your next great steps this time informed by what your soul deeply longs for Alan creates the term full spectrum living embracing all that life has to offer as well as all that you have to offer life to define the ultimate goal of this book His sage advice and proven program ensures that you get there Book jacket **Favor with Kings** Caleb Anderson,2016-09-01 Favor with Kings is a remarkably unique and inspiring look at the ancient Hebrew story of Nehemiah Author Caleb Anderson takes the story to places it has never been before so that you can go to places you have never gone to before The world needs you to be you and to do what only you can do Don t miss this rare combination of biblical insight and catalytic personal development On this journey of finding your distinct part in a bigger story you ll be guided to identify your purpose or dream develop your passion or conviction create your plan of action empower people to play their role persevere through inevitable adversity If you ve ever had a dream if you ve ever felt stuck or restless if you ve ever experienced the discouragement of feeling like you re behind not good enough or disqualified if you ve started but lack the courage or conviction to stay the course then this book is for you Includes a reader s guide for group discussion or personal study **The Hubris Hazard, and How to Avoid It** Eugene Sadler-Smith,2024-03-15 Hubris is something we ve all seen in action and experienced all too often It s a significant occupational hazard and a serious potential derailment factor for leaders organisations and civil society Hubristic leaders intoxicated as they are with power praise and success behave in ways that if left unchecked invite unintended and unforeseen

negative consequences which impact destructively on individuals industries economies and nations Despite numerous examples throughout history of hubris destructive consequences it nonetheless appears to be an ever present and growing danger Many leaders seem to be blind to the hazards of hubris and oblivious to the lessons of history Prevention is better than cure and understanding the nature of the hubris hazard and the associated risk factors will help leaders and managers improve their personal performance and avoid derailment and even more importantly protect the well being of employees and the resilience of their organisations over the long term This book explains the characteristics causes and consequences of hubris and shows how to combat the significant hazard it poses to managers leaders organisations and society With contemporary examples each chapter explores a particular hubris risk factor and shows how the risk can be managed and mitigated and exposure to the hubris hazard minimised The Hubris Hazard and How to Avoid It offers practical guidance and action points for managers and leaders on how to recognise hubris in themselves and others and what to do to combat it when it arises It will also be useful for business and executive coaches and leadership trainers and developers

The Essence of Photography, 2nd Edition Bruce Barnbaum,2020-12-11 In this fully revised and greatly expanded second edition of The Essence of Photography world renowned photographer and teacher Bruce Barnbaum draws upon 50 years of experience and observation to teach the art of photographic seeing and creativity There is a lot more to photography than simply picking up a camera pointing it toward something and tripping the shutter Achieving a great photograph requires thought and preparation an understanding of the photographic process and a firm grasp of how light

and composition affect a photo There must be personal involvement and personal expression There must be experimentation with the recognition that only a small percentage of experiments end successfully In this revised and expanded second edition of *The Essence of Photography* best selling author and world renowned photographer and teacher Bruce Barnbaum explores these seldom discussed issues by drawing upon his personal experiences and observations from 50 years of photographing and teaching In addition to photographs Bruce also uses painting music and writing as well as the sciences and even business to provide pertinent examples of creative thinking These examples serve as stepping stones that will lead you to your own heightened ability to see and be creative Creativity is a topic that is almost wholly ignored in formal education because most instructors think that it cannot be taught or learned To the contrary Bruce has proven that photographic seeing and creativity can be taught learned and improved This book expands on the ideas that are central to Bruce's method of teaching photography which he has used in workshops for the past 50 years Included in the book are in depth discussions on the following topics Defining your own unique rhythm and approach as a photographer How to translate the scene in front of you to the final photograph The differences and similarities between how an amateur and a professional approach photography The differences between realism and abstraction and the possibilities and limitations of each Learning to expand your own seeing and creativity through classes workshops and associating with other photographers Why the rules of composition should be ignored How to follow your passion When to listen to the critics and when to ignore them The book is richly illustrated with well over 100 photographs taken by Bruce as well as other photographers Seeing and creativity are difficult to teach but not impossible This very different perhaps groundbreaking book is sure to inspire photographers of all skill levels from beginners to seasoned professionals to think deeply about the issues involved in creating successful photographs
