Cherry, 2009-05-27 Western philosophy has long nurtured the hope to resolve moral controversies through reason thereby to secure moral direction and human meaning without the need for a defining encounter with God or the transcendent The expectation is for a moral rationality that is universal and able adequately to frame and guide the moral life Moral and cultural unity was sought through philosophical reflection on human nature and the basic goods of a properly nurtured and virtuous life that is through appeal to what has come to be called the natural law The natural law addresses permissible moral choice through objective understandings of human nature and human goods Persons are obligated to act

in ways that are compatible with creating and integrating the basic human goods into their lives and the lives of others Such goods provide the basis for practical reasoning about virtuous choices and immediate reasons for action The goal is the making of rational choices in the pursuit of a virtuous flourishing human life Natural law theorists have argued extensively against human cloning abortion and same gender marriage Yet whose assumptions regarding human nature should guide our understanding of the basic goods that mark the full flourishing human life Moreover why should nature even human nature be thought of as a moral boundary beyond which one must not trespass Persons may wish actively to direct human evolution utilizing the tools of both imagination and biotechnology Perhaps nature is simply a challenge to be addressed overcome and set aside This volume is a critical exploration of natural law theory      *Criminal Justice Ethics* Cyndi Banks,2012-03-12 The importance of ethics in criminal justice Ethics and the police Racial discrimination in the criminal justice system Lawyers and ethics The purpose of criminal punishment Ethics in Corrections The ethics of criminal justice policy making Ethics and the war on terrorism Media ethics and criminal justice Duty and principle Considering the consequences The importance of character Egoism pleasure and indifference A sense of justice Caring for others      **The A to Z of Ethics** Harry J. Rachels, 2007 James Rachels's philosophical writings address key questions of contemporary life and the classic dilemmas of moral philosophy. A leading figure in the development of applied ethics, James Rachels became an influential and sometimes controversial thinker on issues concerning animal rights, euthanasia, bioethics, and moral objectivity. This final collection of James Rachels's work brings together fourteen essays that best summarize Rachels's philosophical positions. The essays also shed new light on the depth and breadth of Rachels's work and its importance for contemporary philosophy. Written in Rachels's characteristically lucid literary prose, these essays address the relationship between morality and reason, the duty to relieve both human and animal suffering, the independence of morality from religion, the rejection of relativism and egoism, and the role of ethics in a democratic society. Rachels offers an argument for vegetarianism, examines a controversial case involving a surrogate mother, and speculates on the ethics of political killing. Other essays range from Rachels's interpretation of Nietzsche's philosophy to his appreciation of movies. Rachels was a strong believer in the ability of moral philosophy to improve our lives. This collection, which brings these important works together for the first time, is a testament to both the value of moral philosophy in understanding our world and the richness of Rachels's contributions to this understanding.

**Gramsci, Materialism, and Philosophy** Esteve Morera, 2014-03-21 Western critical theory. Marxism included has largely been based on a view of historical materialism that Gramsci, among others, developed in his prison notebooks. For many, Gramsci's philosophical reflections in prison offered a new foundation for the philosophy of the future. His reflections on the philosophy of praxis and absolute historicism find echoes in much of what today is considered to be a materialist philosophy. That form of materialism was unable to provide a sound foundation for a progressive social project, the possibility of a meaningful and creative ethical life, and the forms of activity or praxis that would be conducive to creating good society. In this book, Esteve Morera connects Marxist philosophy to the broader philosophical discussion of materialism in metaphysics, the philosophy of science, philosophy of mind, and naturalised ethics. Each chapter deals with a particular aspect related to materialism and its consequences, the sorts of things that if materialism is true need to be confronted. Morera critiques and rejects Gramsci's conception of matter and materialism and concludes that philosophical materialism is compatible with freedom and, as a consequence, offers a good foundation for ethical life. **Gramsci, Materialism, and Philosophy** is an original contribution to the philosophically vital debates around the meaning, limitations, implications, and possibilities of philosophical materialism, as it is a contribution to the critical literature on Gramsci. On Animals David L.

Clough, 2012-02-02 This volume is a project in systematic theology, a rigorous engagement with the Christian tradition in relation to animals under the doctrinal headings of creation, reconciliation, and redemption, and in dialogue with the Bible and theological voices central to the tradition. The book shows that such engagement with the tradition, with the question of the animal in mind, produces surprising answers that challenge modern anthropocentric assumptions. For the most part, therefore, the novelty of the project lies in the questions raised rather than the proposal of innovative answers to it. The transformation

in our thinking about animals for which the book argues results in the main from looking squarely for the first time at the sum of what we are already committed to believing about other animals and their place in God's creation

**The Routledge Companion to Libertarianism** Matt Zwolinski, Benjamin Ferguson, 2022-04-28 Have you ever wondered what libertarians think about vaccine mandates About gun control About racial and sexual inequalities While libertarianism is well known as a political theory relating to the scope and justification of state authority the breadth and depth of libertarian work on a wide range of other topics in social and political philosophy is less well known This handbook is the first definitive reference on libertarianism that offers an in depth survey of the central ideas from across philosophy politics and economics including applications to contemporary policy issues The forty chapters in this work provide an encyclopedic overview of libertarian scholarship from foundational debates about natural rights theories vs utilitarian approaches to policy debates over immigration punishment and policing and intellectual property Each chapter presents a comprehensive and up to date overview of historical and contemporary libertarian thought on its subject and thus serves as an essential guide to current scholarship and a starting place for discovering future lines of research The book also contains a section on criticisms of libertarianism written by leading scholars from the feminist republican socialist and conservative perspectives as well as a section on how libertarian political theory relates to various schools of economic thought such as the Chicago Austrian Bloomington and Public Choice schools This book is an essential and comprehensive guide for anyone interested in libertarianism whether sympathizer or critic

*Confronting Injustice without Compromising Truth* Thaddeus J. Williams, 2020-12-22 God does not suggest he commands that we do justice Social justice is not optional for the Christian All injustice affects others so talking about justice that isn't social is like talking about water that isn't wet or a square with no right angles But the Bible's call to seek justice is not a call to superficial kneejerk activism We are not merely commanded to execute justice but to truly execute justice The God who commands us to seek justice is the same God who commands us to test everything and hold fast to what is good Drawing from a diverse range of theologians sociologists artists and activists *Confronting Injustice without Compromising Truth* by Thaddeus Williams makes the case that we must be discerning if we are to truly execute justice as Scripture commands Not everything called social justice today is compatible with a biblical vision of a better world The Bible offers hopeful and distinctive answers to deep questions of worship community salvation and knowledge that ought to mark a uniquely Christian pursuit of justice Topics addressed include Racism Sexuality Socialism Culture War Abortion Tribalism Critical Theory Identity Politics *Confronting Injustice without Compromising Truth* also brings in unique voices to talk about their experiences with these various social justice issues including Michelle Lee Barnwall Suresh Budhaprithi Eddie Byun Freddie Cardoza Becket Cook Bella Danusiar Monique Duseon Ojo Okeye Edwin Ramirez Samuel Sey Neil Shenvi Walt Sobchak In *Confronting Injustice without Compromising Truth* Thaddeus Williams transcends our religious and political tribalism and challenges readers to discover what the Bible and the example of Jesus

have to teach us about justice He presents a compelling vision of justice for all God's image bearers that offers hopeful answers to life's biggest questions      *Critical Issues in Crime and Justice* Dan Okada, Mary Maguire, Alexa Sardina, 2018-09-10 *Critical Issues in Crime and Justice* Thought Policy and Practice provides an incisive overview of issues and perspectives in criminal justice and criminology designed to expand upon key areas of study With contributed essays from leading scholars in the field the Third Edition illustrates the breadth of research policy and practice implications in areas such as crime theory law enforcement jurisprudence corrections and criminal justice organization and management New to this edition are chapters on wrongful convictions human trafficking and mental illness and criminal justice three critical issues facing contemporary policing courts and corrections The coverage of concepts insights voices and perspectives will challenge criminal justice and criminology students to synthesize what they have learned question standard interpretations and begin to create new directions and visions for their future careers as professionals in the field      **The Ethics of Language Assessment** Alan Davies, 2018-12-20 First Published in 2004 Volume 1 Numbers 2 and 3 in the *Language Assessment Quarterly* international journal This special issue explores the question of why ethics needs to be looked at in social terms which explains why ethics and professionalism are so closely connected The authors of each article give examples of the kinds of dilemmas that a code of ethics can help to clarify with their own thematic focus      *Indigenous Knowledge* Kai Horsthemke, 2021-01-11 Although the manifestation of what is taken to be indigenous knowledge could presumably be traced back roughly to the origins of humankind the idea of indigenous knowledge is a fairly recent phenomenon It has arguably gained conceptual and discursive currency only over the past half century with a veritable slew of conferences workshops special journal editions and anthologies devoted to the topic Yet there has been no treatise that offers a comprehensive critical examination of this notion Accounts of indigenous knowledge usually focus on explanations of indigenous local traditional African and the like but to date not a single defense of indigenous knowledge has bothered to explain the particular understanding of knowledge the authors are working with *Indigenous Knowledge Philosophical and Educational Considerations*'s critique of the idea of indigenous knowledge should in no way be understood as an endorsement of the evils of colonial conquest and ongoing exploitation oppression and subjugation Nor should it be taken as an indication of a failure on the part of the Kai Horsthemke to sympathize with the struggle of indigenous peoples the world over for a dignified and sustainable way of life for personal and communal space and for self determination The aim of the book is to provide especially indigenous educators with theoretical tools for critical reflection and interrogation of their own and others' preconceptions assumptions and epistemic practices and customs      **Polar Tourism** Alain A. Grenier, Dieter K. Müller, 2012-10-01 T00:00:00-04:00 The creation of the Nunavut is a major step forward both for the Province of Quebec and its Inuit population Not only does it underline the recognition of the Inuit people and their identity but it also stresses the importance of discussing some fundamental issues regarding the emancipation of the Inuit their empowerment the

development and management of the northern resources of Quebec and the protection and conservation of the fragile Nordic ecosystems Rich in culture and scenery Nunavik has identified tourism as one of the main and best suited avenue for economic development But before Nunavik can truly enjoy the benefits of a well established tourism industry many challenges need to be met The development of tourism in a new destination is not only challenging but it requires human efforts political and economic will over a large amount of time without much guaranties as to what will work or not It is in this context that in August 2008 the members of the newly created International Polar Tourism Research Network IPTRN came to Kangiqsujjuak Nunavik to discuss how tourism can play a role in regional development The collection of articles presented here is the result of the coming together of a group of polar tourism researchers from around the world who met in Nunavik the northernmost part of Quebec to discuss polar tourism as a tool for regional development Such a book does not claim to address all issues facing the polar destinations It is nevertheless a base for reflection Many of the new emerging regions of the circumpolar world like the Nunavik are experimenting with new powers and responsibilities For scientists this is an excellent time to assist with the experiences that have been well documented from other Northern Arctic and polar regions For tourism this book is meant to offer a range of perspectives on how challenges can be met and how solutions can be implemented for the benefit of all local interests
