Right Wing Women From Conservatives To Extremists Around World:

Right-wing Women Paola Bacchetta, Margaret Power, 2002 First Published in 2002 Routledge is an imprint of Taylor Francis an informa company **Right-wing Women**, 2002 *Women of the Right* Kathleen M. Blee, Sandra McGee Deutsch, 2015-06-29 In *Women of the Right* Kathleen M Blee and Sandra McGee Deutsch bring together a groundbreaking collection of essays examining women in right wing politics across the world from the early twentieth century white Afrikaner movement in South Africa to the supporters of Sarah Palin today The volume introduces a truly global perspective on how women matter in the national and transnational links and exchanges of rightist politics Suitable for classroom use it sets a new agenda for scholarship on women on the right Aside from the editors the contributors are Nancy Aguirre Karla J Cunningham Kirsten Delegard Kathleen M Fallon Kate Hallgren Randolph Hollingsworth Jill Irvine Vandana Joshi Carol S Lilly Annette Linden Julie Moreau Margaret Power Mariela Rubinzal Daniella Sarnoff Ronnee Schreiber Meera Sehgal Louise Vincent and Veronica A Wilson **Hungarian Women's Activism in the Wake of the First World War** Judith Szapor, 2017-12-14 Using a wide range of previously unpublished archival written and visual sources *Hungarian Women s Activism in the Wake of the First World War* offers the first gendered history of the aftermath of the First World War in Hungary The book examines women s activism during the post war revolutions and counter revolution It describes the dynamic of the period s competing liberal Christian conservative socialist radical socialist and right wing nationalistic women s movements and pays special attention to women activists of the Right In this original study Judith Szapor goes on to convincingly argue that illiberal ideas on family and gender roles tied to the nation s regeneration and tightly woven into the fabric of the interwar period s right wing extreme nationalistic ideology greatly contributed to the success of Mikl s Horthy s regime Furthermore the book looks at the long shadow that anti liberal nationalist notions of gender and family cast on Hungarian society and provides an explanation for their persistent appeal in the post Communist era This is an important text for anyone interested in women s history gender history and Hungary in the 20th century **Researching the Far Right** Stephen D. Ashe, Joel Busher, Graham Macklin, Aaron Winter, 2020-11-09 *Researching the Far Right* brings together researchers from across the humanities and social sciences to provide much needed discussion about the methodological ethical political personal practical and professional issues and challenges that arise when researching far right parties their electoral support and far right protest movements Drawing on original research focussing mainly on Europe and North America over the last 30 years this volume explores in detail the opportunities and challenges associated with using ethnographic interview based quantitative and online research methods to study the far right These reflections are set within a wider discussion of the evolution of far right studies from a variety of disciplinary viewpoints within the humanities or the social sciences tracing the key developments and debates that shape the field today This volume will be essential reading for students and scholars with an interest in understanding the many manifestations of the far right and cognate movements

today It also offers insight and reflection that is likely to be valuable for a wider range of students and scholars across the humanities and social sciences who are carrying out work of an ethically politically personally practically and professionally challenging nature

From Left to Right Brian T. Thorn, 2016-07-22 In From Left to Right Brian Thorn explores what motivated Canadian women to become politically engaged in the 1940s and 50s Although women in these decades are often depicted as being trapped in the suburbs caring for children baking pies and leaving politics to men they joined diverse political parties including the Social Credit Party the Co operative Commonwealth Federation and the Communist Party of Canada Thorn argues controversially that while women on the left and right had different goals their activism continued to be informed by maternalism They used their roles as wives and mothers to influence their parties positions on war and unions to break down barriers between the private and public spheres and to push for a new world order Along the way they laid the foundations for the 1960s feminist movement

From Freedom Fighters to Terrorists Paige Whaley Eager, 2016-04-15 Women have participated in political violence throughout history yet the concept of women as active proponents and perpetrators of political violence and terrorism is not widely accepted Viewed as being forced by partners sexually abused or brainwashed the possibility of political motives is not often considered Paige Whaley Eager addresses this to establish whether the stereotypical view is misplaced She utilizes a framework to analyze women engaged in political violence in different contexts in order to examine structural variables ideological goals of the organization and personal factors which contribute to involvement Case study rich this informative book provides an indispensable guide to examining women s role in left right wing engagement ethno nationalist separatist violence guerrilla movements and suicide bombers

Transforming Gendered Well-Being in Europe Mercè Renom, Mr Jean-Michel Bonvin, Professor Alison E Woodward, 2013-01-28 European social movements improve the well being of men and women but need further analysis through a gender sensitive lens Taking an international and cross disciplinary perspective this book examines the impact of European social movements on gendered political and material well being Insights from history politics sociology and gender studies help identify how social movements have been instrumental in changing individual well being through participation and empowerment These movements have contributed to collective well being thanks to victories in health sexualities political recognition and access to material goods The contributions pay particular attention to the role of women activists in social movements varying from unions and religious movements to the women s movement itself The settings range from 19th century Catalonia to Switzerland and Poland including studies on European transnational movements today and their impact on global gendered well being The authors consider how gender has been important in defining the goals strategies and outcomes of social movements Thanks to the international spread of contributions a comparative record can be examined Together the authors provide unique and concrete illustrations of the role of collective action and the participatory process on transforming women and well being in European societies The book provides essential insights for students and scholars

working on social and women's movements European well being and welfare and transnational action **Transforming Gendered Well-Being in Europe** Jean-Michel Bonvin, 2016-02-24 European social movements improve the well being of men and women but need further analysis through a gender sensitive lens Taking an international and cross disciplinary perspective this book examines the impact of European social movements on gendered political and material well being Insights from history politics sociology and gender studies help identify how social movements have been instrumental in changing individual well being through participation and empowerment These movements have contributed to collective well being thanks to victories in health sexualities political recognition and access to material goods The contributions pay particular attention to the role of women activists in social movements varying from unions and religious movements to the women's movement itself The settings range from 19th century Catalonia to Switzerland and Poland including studies on European transnational movements today and their impact on global gendered well being The authors consider how gender has been important in defining the goals strategies and outcomes of social movements Thanks to the international spread of contributions a comparative record can be examined Together the authors provide unique and concrete illustrations of the role of collective action and the participatory process on transforming women and well being in European societies The book provides essential insights for students and scholars working on social and women's movements European well being and welfare and transnational action Women in the Weimar Republic Helen Boak, 2015-11-01 This book is the first comprehensive survey of women in the Weimar Republic exploring the diversity and multiplicity of women's experiences in the economy politics and society Taking the First World War as a starting point this book explores the great changes in the lives expectations and perceptions of German women with new opportunities in employment education and political life and greater freedoms in their private and social life all played out in the media spotlight Engaging with the most recent research and debates this book portrays the Weimar Republic as a period of progressive change for young urban women to be stalled in 1933 This book will be essential reading for students and researchers of German women in the early twentieth century and will also appeal to anyone interested in the Weimar Republic and women's history Bridging the Gender Gap Lynn Roseberry, Johan Roos, 2014-07-24 Despite decades of efforts to promote gender equality most leadership positions in business politics education and even NGOs are occupied by men and most people still work in occupations dominated by one sex This book argues that gender imbalances in leadership and occupations are not simply a moral issue or an economic issue but a governance issue Gender imbalances persist in large part because the very people with the authority and influence to do something about them know very little about gender and how it works in their organizations and in society at large Gender imbalanced governance is an expression of entrenched ideas about masculinity and femininity that lead to poor decision making Improving the quality of governance requires action to counteract the main justifications for the status quo Based on interviews and conversations with leaders and managers in Europe and the United States the book presents seven

of the most common explanations for persistent gender imbalances and shows how they are based on common stereotypes and myths about men's and women's abilities and preferences This book provides a guided tour of current research about gender from a multi disciplinary perspective It challenges commonly held assumptions and offers alternative explanations and corresponding principles to guide individual decisions action and behaviour toward achieving gender balance *Global Social Work in a Political Context* Ferguson, Iain, Ioakimidis, Vasilios, Michael Lavalette, 2018-01-10 How is social work shaped by global issues and international problems and how should it address them Taking a radical perspective this book reveals what we can learn from different approaches from across the globe **Post-9/11 American Presidential Rhetoric** Colleen Elizabeth Kelley, 2008-01-01 Post 9 11 American Presidential Rhetoric examines the communication offensive orchestrated by George W Bush and the members of his administration between the initial terrorism crisis of September 11 2001 and the March 20 2003 invasion of Iraq Colleen Elizabeth Kelley argues that the president relied on a set of particular strategies that coalesced into protofascist talk in order to discursively manage the post 9 11 situation and justify its 2003 war against Iraq This book suggests a framework for analyzing emergent fascist public discourse and its potential for producing additional substantial antidemocratic speech and action Kelley further reviews the role of the media in conveying President Bush's rhetorical doctrine to the American public The rhetoric of democratic discourse is presented as a firewall to guarantee that such speech based behaviors which are endorsed by willing publics and developed within democracies fail to thrive and do not destroy the very systems that enabled them in the first place Post 9 11 American Presidential Rhetoric is a stimulating text that will strike up discussion among scholars of political communication and those interested in cultural studies **The Routledge Companion to Terrorism Studies** Max Abrahms, 2024-11-05 Although the literature on terrorism is vast there are many holes in it This book helps to fill these lacunae with entries from top terrorism scholars and counterterrorism practitioners in the world Grouped thematically by terrorist actors conflict zones major attacks terrorist behaviors militant group dynamics terrorist consequences and counterterrorism approaches the entries cover a range of topics fundamental to understanding the contemporary terrorism threat and approaches to combating it Truly global in scope the book is an ideal reference for anyone interested in these topics from a variety of disciplinary perspectives Providing incisive analysis on timely topics related to terrorism and counterterrorism this volume will be essential reading for students scholars and practitioners in security studies **The Disentanglement of Populations** J. Reinisch, E. White, 2011-01-26 An examination of population movements both forced and voluntary within the broader context of Europe in the aftermath of the Second World War in both Western and Eastern Europe The authors bring to life problems of war and post war chaos and assess lasting social political and demographic consequences **Messianic Zionism in the Digital Age** Rachel Z. Feldman, 2024-03-15 Judaism in the twenty first century has seen the rise of the messianic Third Temple movement as religious activists based in Israel have worked to realize biblical prophecies including the restoration of a Jewish theocracy

and the construction of the third and final Temple on Jerusalem's Temple Mount Through groundbreaking ethnographic research *Messianic Zionism in the Digital Age* details how Third Temple visions have gained considerable momentum and political support in Israel and abroad The role of technology in this movement's globalization has been critical Feldman skillfully highlights the ways in which the internet and social media have contributed to the movement's growth beyond the streets of Jerusalem into communities of former Christians around the world who now identify as the Children of Noah Bnei Noah She charts a path for future research while documenting the intimate effects of political theologies in motion and the birth of a new transnational Judaic faith Anarcho-primitivism , **The Culture and Politics of Populist Masculinities** Outi Hakola, Janne Salminen, Juho Turpeinen, Oscar Winberg, 2021-04-09 The ideologies and practices of various populist movements are centered on issues of gender especially idealized notions of masculinity Offering cultural political and historical approaches from a range of interdisciplinary and international perspectives *The Culture and Politics of Populist Masculinities* analyzes articulations and performances that link populism to masculinity In particular the collection studies political participation in the form of public debates media and popular culture The authors emphasize that in order to understand what can be defined as populism we need to look at the culture that it inhabits and the efforts to claim challenge and reclaim the popular Writing from a wide range of international contexts the contributors to *The Culture and Politics of Populist Masculinities* explore how populist masculinities are articulated and performed whether there is something problematic about a specifically masculine populism and whether there is hope for a pluralist inclusive even progressive form of masculine populism *Culture and Politics of Populist Masculinities* international range of contributors explore how populist masculinities are articulated and performed whether there is something problematic about a specifically masculine populism and whether there is hope for a pluralist inclusive even progressive form of masculine populism *Fundamentalisms and the Media* Stewart M. Hoover, Nadia Kaneva, 2009-06-09 The turn of the twenty first century has seen an ever increasing profile for religion contrary to long standing predictions of its decline Instead the West has experienced what some call a realignment of religion where it persists in conjunction with other institutions and structures Outside the West religion is an ever more prominent force in social and political movements of both reform and retrenchment Across these contexts no issue in religion is of as much concern as fundamentalism or rather the fundamentalisms within various traditions which are seen to be fomenting religious social ethnic and political tension and conflict The contributions to this volume represent the first effort to look at fundamentalisms and the media together and address the resulting relations and interactions from critical perspectives of history technology geography and practice The result lays important groundwork for scholarship on these new and increasingly important phenomena Teaching Criminology at the Intersection Rebecca M. Hayes, Kate Luther, Susan Caringella, 2014-08-21 Teaching about gender race social class and sexuality in criminal justice and criminology classrooms can be challenging Professors may face resistance when they ask students to examine how gender

impacts victimization how race affects interactions with the police how socioeconomic status shapes experiences in court or how sexuality influences treatment in the criminal justice system Teaching Criminology at the Intersection is an instructional guide to support faculty as they navigate teaching these topics Bringing together the experience and knowledge of expert scholars this book provides time strapped academics with an accessible how to guide for the classroom where the dynamics and discrimination of gender race class and sexuality demographics intersect and permeate criminal justice concerns In the book the authors of each chapter discuss how they teach a particular contemporary criminal justice issue and provide their suggestions for best practice while grounding their ideas in pedagogical theory Chapters end with a toolkit of recommended activities assignments films readings or websites As a teaching handbook Teaching Criminology at the Intersection is appropriate reading for graduate level criminology criminal justice and women s and gender studies teaching instruction courses and as background reading and reference for instructors in these disciplines

Decoding **Right Wing Women From Conservatives To Extremists Around World**: Revealing the Captivating Potential of Verbal Expression
