Rights And Constitutionalism The New South African Legal Order:

Rights and Constitutionalism Dawid Hercules Van Wyk, 1996 This major work written by prominent South African academics is an introduction to the new constitutional order in South Africa It places fundamental rights as affirmed in Chapter 3 of the South African Constitution in a comparative and international context The authors draw heavily on the constitutional experience of countries such as Canada India Germany and the United States which greatly influenced the drafting of Chapter 3 of the Constitution The study is shaped by principles that form the foundation of the new order the supremacy of the Constitution the notion of a democratic constitutional state and the judicial protection of fundamental rights The book is divided into four parts The first deals with constitutionalism democracy and constitutional interpretation The second part provides an examination of the historical background of the 1993 Constitution and a description of the principal features of the Constitution The third part contains an analysis of the key fundamental rights which constitutes the main purpose of the study Detailed treatment is given to civil and political rights social and economic rights the concepts of equality and administrative justice and the circumstances in which limitations may be imposed on rights A separate chapter is devoted to the international protection of human rights as directed by Section 35 1 of the Constitution The final part comprises a bibliography of the works cited in the text following the sequence of the chapters This is a book which will be of interest to all constitutional law specialists and to many political scientists particularly those with an interest in constitutionalism and constitutional litigation

Governance in the New South Africa Guy C. Z. Mhone, Omano Edigheji, 2003 The major challenges confronting South Africa since the advent of non racial multiparty democracy have been the need to promote democratic governance economic growth global competitiveness and to improve the standard of living of its people especially the previously disadvantaged majority Black population These challenges have coincided with the ascendancy of globalisation with its attendant social economic and political imperatives all of which have consequences for governance and development at the national level not least in emerging economies like South Africa This important book assesses the implications of global imperatives for the nature capacity character and scope

of democratic governance and the pursuit of equitable development in the new South Africa A major conclusion is that the implementation of domestic economic reforms predicated on market fundamentalism with its dominant logic and paradigm of globalisation and economic management is incompatible and irreconcilable with the quest for democratic governance and equitable development The contributors contend that such an approach reproduces a substantively undemocratic and inequitable society Governance in the New South Africa concludes by offering some considerations related to how substantive democracy and equitable development may be promoted in South Africa on the basis of democratic governance and developmentalism

Minority Protection in Post-Apartheid South Africa Kristin Henrard, 2002-08-30 Accommodation of population diversity is a vital issue for any multinational society The legacy of Apartheid in South Africa complicates this effort considerably Henrard introduces a theoretical framework regarding how to accommodate minority protection in the most appropriate way and analyzes the respective contributions of individual rights minority rights and the right to self determination Subsequent chapters examine the case study of post apartheid South Africa and attempt to investigate its constitutional development Henrard finds that provisions within the 1996 Constitution do acknowledge an interrelation between these three important factors however implementation of minority protection policy is often quite a different matter In seeking appropriate means of minority protection this study stresses inclusionism integration and the essential right to identity and real equality While Henrard reviews and discusses the entire democratic transformation process in South Africa she cautions that because current developments are characterized by their unsettled nature major transformation and flux analysis of the implementation phase can be only indicative The apartheid history does not in itself inhibit progressive stances on this important issue Still despite the promising nature of the 1996 Constitution the picture that emerges in terms of policy development aimed at minority protection is ambivalent
