## **Rights Of Citizenship:**

**Human Rights and Citizenship Education** Dina Kiwan, 2016-01-13 This book considers the philosophical sociological and legal implications of the distinction between universal human rights accorded to all because of their membership of the human species and the more particularistic citizenship rights accorded to those who are members of a political community Contributions come from a wide range of disciplinary and interdisciplinary fields including education law and political philosophy as well as from practitioner perspectives Contributions address the three themes of firstly whether human rights and citizenship are complementary or competing conceptions secondly the justifications for human rights and thirdly human rights and citizenship in different cultural contexts This book was originally published as a special issue of the Cambridge Journal of Education

*The Human Right to Citizenship* Rhoda E. Howard-Hassmann, Margaret Walton-Roberts, 2015-07-16 The Human Right to Citizenship provides an accessible overview of citizenship around the globe focusing on empirical cases of denied or weakened legal rights This wide ranging volume provides a theoretical framework to understand the particular ambiguities paradoxes and evolutions of citizenship regimes in the twenty first century

**Human Rights, or Citizenship?** Paulina Tambakaki, 2010-04-05 While human rights have been enjoying unprecedented salience the concept of the citizen has been significantly challenged Rising ethical concerns the calling into question of state sovereignty and the consolidation of the human rights regime have all contributed to a shift in focus from an exclusionary problematic citizenship to human rights Human Rights or Citizenship examines this shift and explores its implications for democracy In an accessible way the book explores the arguments within contemporary democratic theory that privilege law and legally codified human rights over citizenship questioning whether legalism alone could lead us to a better more equitable politics Does the prioritisation of law and legally codified human rights risk depoliticisation Do human rights always contest relations of power and subordination Addressing these questions Human Rights or Citizenship opens a debate about the role of citizenship and human rights in democracy It will be invaluable reading for anyone interested in democratic politics today

*The Human Right to Citizenship* Barbara von Rütte, 2022-12-28 The open access publication of this book has been published with the support of the Swiss National Science Foundation This book offers a comprehensive analysis of the right to citizenship in international and regional human rights law It critically reflects on the limitations of state sovereignty in nationality matters and situates the right to citizenship within the existing human rights framework It identifies the scope and content of the right to citizenship by looking not only at statelessness deprivation of citizenship or dual citizenship but more broadly at acquisition loss and enjoyment of citizenship in a migration context Exploring the intersection of international migration human rights law and belonging the book provides a timely argument for recognizing a right to the citizenship of a specific state on the basis of one's effective connections to that state according to the principle of *jus nexi*

**Rights of Citizens and Persons Under the Fourteenth Amendment** Chin-Yung Yen, 1905

**Citizenship and Social Rights** Fred Twine, 1994-09-06 This

broad ranging text offers an analysis of the idea of citizenship and its relevance to social problems and social policies in advanced industrial societies Twine demonstrates that two concepts are essential to an understanding of the issue of citizenship the socially embedded nature of human agents and their interdependence both with each other and with the natural and social worlds they inhabit Twine emphasizes the social nature of individual needs and individual rights He shows that interdependence is not limited to the mutual linkages within advanced industrial societies but extends both to the relations between advanced and developing nations and to the environmental contexts of human existence

*Citizens' Rights and the Right to Be a Citizen* Ernst Hirsch Ballin, 2014-01-23 Ernst Hirsch Ballin discusses the significance of citizens rights against the backdrop of ongoing migration and urbanization in the beginning of the 21st century The traditional view that each state has the sovereign power to give or withhold citizenship puts the full enjoyment of human rights at risk whenever exclusion is based on differences in nationality Citizens rights are the essential connecting link between human rights and life in a democratic society Citizens have an individual right as a citizen to take part in the democratic process and in the structures of solidarity of the state where they are effectively at home By recognizing everyone s right to the citizenship of the state in which they can make these rights a reality citizens rights can bridge the gap between the universality of human rights and the changing political and social settings of people s lives Limits on dual citizenship are counterproductive European citizenship paves the way for transnational citizenship Hirsch Ballin s book is very important for academics and practitioners in the field of citizenship It embraces the complexity of citizenship with all its academic practical and emotional meanings Hopefully Hirsch Ballin s work can serve as a compass for new directions in immigration and naturalisation debates Katja Swider in *Journal of European Integration* Vol 38 nr 4 2016

**Citizenship education** Great Britain: Parliament: House of Commons: Education and Skills Committee, 2007-03-08 In light of the recommendations of the Crick report on citizenship education Education for citizenship and the teaching of democracy which can be downloaded at [http://www.qca.org.uk/downloads/6123\\_crick\\_report\\_1998.pdf](http://www.qca.org.uk/downloads/6123_crick_report_1998.pdf) published in September 1998 the subject was introduced into the school curriculum in 2002 on a compulsory basis for secondary schools and as part of the non

statutory framework for primary schools The Committee's report assesses the progress made during the last four years to deliver quality citizenship programmes and examines the barriers that exist to its successful implementation It finds that when well done citizenship education motivates and inspires young people but the quality and extent of these programmes are still inconsistent across the country This patchiness needs to be tackled head on and progress accelerated requiring strong support from the DfES and Ministers as well as action from those on the ground The Committee welcomes the Government's decision to accept the recommendations of the report by Sir Keith Ajegbo which highlighted the need for citizenship curriculum to have a closer focus on issues of identity diversity and belonging More can be done to disseminate between settings good practice information about approaches that are working in other institutions particularly in relation to whole school or college approaches that develop opportunities for active citizenship although it is essential that programmes are locally owned and relevant to the particular context The development of the workforce is also important to the success of citizenship education and although the expansion of the Continuing Professional Development CPD citizenship certificate programme is welcome more resources are needed to develop capacity in initial teacher training places for citizenship education

**International Perspectives on Citizenship, Education and Religious Diversity** Robert Jackson, 2003-09-02 Citizenship is high on the agenda of education systems in many of the world's democracies As yet however discussions of citizenship education have neglected issues of religious diversity and how the study of religions can contribute to our understanding of citizenship International Perspectives on Citizenship Education and Religious Diversity brings together an international range of contributions from religious studies scholars and educators specialising in the study of religions Together these illustrate and

explore the key questions for educational theory and pedagogy raised by drawing issues of religious diversity into citizenship education The chapters address and extend debates over the nature of citizenship in late modernity highlighting local and global dimensions of citizenship in relation to issues of national religious ethnic and cultural identity As well as emphasising the role religious education has to play in citizenship education this book also covers wider issues such as state supported faith schools and cultural diversity in relation to common citizenship The authors argue that critical yet reflective approaches to religious education have a distinctive and valuable contribution to make to citizenship education Issues addressed within the study of religions are related to new forms of global and cultural citizenship as well as citizenship within the nation state Ultimately this stimulating and original collection highlights the challenges and possibilities for teaching and learning about religion religions and religious diversity within an inclusive educational practice      **The Iowa Official Register** ,1909
