

Parents Bill of Rights Act

Parents have a God-given right to make decisions for their children. Unfortunately, many school districts have been ignoring the wishes of parents while special interest groups try to criminalize free speech. This list of rights will make clear to parents what their rights are and clear to schools what their duties to parents are.

1) Parents have the right to **know what their children are being taught**:

- School districts must post curriculum information publicly.
- States must provide the public a copy of any revisions to the state's academic standards or learning benchmarks.
- Parents must be given timely notice of any school's plan to eliminate gifted and talented programs.
- Schools must provide parents with a list of books and reading materials available in the school library.

2) Parents have the right to **be heard**:

- Teachers must offer two in-person meetings with parents each year.
- Parents must be allowed to address the school board on issues impacting the education of children in the school district.
- Educators and policymakers must respect the First Amendment right of parents as well as their right to assemble and have a say in their child's education.
- School districts should consider community feedback when making decisions.

3) Parents have the right to **see the school budget and spending**:

- There must be public disclosure of school district budgets and each school's budget, including revenues and expenditures.

4) Parents have the right to **protect their child's privacy**:

- Schools must not share student data with tech companies without parental permission.
- Schools must not sell student data for commercial purposes.
- Parents have a say when schools develop or update their student privacy policies and procedures.
- Parents must consent before any medical exam takes place at school, including mental health or substance use disorder screenings, and before students are surveyed.

5) Parents have the right to **keep their children safe**:

- Schools must notify parents of violent activity occurring on school grounds or at school-sponsored events while still protecting the privacy of the students involved in the incident.

Rights Of Parents:

The Rights of Parents Alan Sussman, Martin Guggenheim, 1980 The Law of Parent and Child, Guardian and Ward, and the Rights, Duties, and Liabilities of Infants Richard Storry Deans, 1895 **Handbook on the Law of Persons and Domestic Relations** Walter Checkley Tiffany, 1909 *Staff, Parents, and Politics in Head Start* Peggy A. Sissel, 2000 First Published in 2000 Routledge is an imprint of Taylor Francis an informa company *Foster Children, Rights and the Law* Matthew Trail, 2025-03-31 This book discusses child wishes rights and participation in the foster care system Making decisions in a foster child s best interest is a widely used but also widely criticized international legal doctrine This work discusses the two major legal frameworks best interest and normalcy for which foster care decisions are made and how those frameworks might shape how child welfare professionals view and interpret children s rights and participation Normalcy the idea that decisions should promote a normal life is a separate legal doctrine which can be in conflict with best interest determinations However the concept of normalcy is also theoretically built into best interest decisions and therefore also plays a role in most child welfare systems Mixing both empirical legal and child welfare research the book demonstrates the ways in which risk aversion and fear drive best interest decision making to the detriment of both practitioners and the children they aim to serve It argues that a children s rights framework starting with normalcy is a better tool for promoting child participation and centering the child within the dependency process The book will be of interest to academics researchers and policymakers working in the areas of children s rights law child welfare and international human rights law

Suffer the Children Richard P. Hiskes, 2021-07-16 In 1973 Hillary Rodham Clinton famously stated that children s rights is a slogan in search of a definition used to bolster various arguments for peace and for specific rights but without any coherent conception of children as political beings In 1989 the United Nations established the basis for this definition in the Convention on the Rights of the Child CRC a document every nation in the world save the United States has ratified Still human rights theorists scholars and jurists continue to disagree as to the theoretical justification for children s human rights In *Suffer the Children* Richard P Hiskes establishes the first substantive theoretical foundation for the human rights of children As Hiskes argues recognizing the rights of children fundamentally alters the meaning and usefulness of human rights in a global context Ironically the case for children s rights as Hiskes argues should be seen as the evolution distillation or maturing of human rights in general Children s human rights will end the debate about whether groups can have rights because globally many rights claims today are precisely group claims including those from children Moreover Hiskes provides a new critical assessment of the United Nations CRC and explores child activism for human rights worldwide in courts on social networks and in public demonstrations to show how children are already claiming their rights in ways that will fundamentally change the meaning both of rights themselves and of democratic processes Giving children rights in a way that avoids privileging any single cultural experience of children would make rights no longer a Western individualistic idea
