Rinehart Guide To Grammar And Style:

The Rinehart Guide to Grammar and Style Carter, Kathryn, 1995-11 *The Broadview Guide to Writing, fourth edition*
Doug Babington, Don LePan, Maureen Okun, 2009-04-06 The Broadview Guide to Writing is a concise yet uncommonly thorough text with a fresh approach to the craft of essay writing The first part of the book discusses the style and structure of essay writing and includes a useful discussion of the intangibles involved in the writing process such as confidence perseverance and a willingness to deal with criticism constructively The second part of the book provides thorough coverage of grammar and usage in a comprehensive reference guide ranging from the simplest mechanical issues such as subject verb agreement to subtle distinctions between words that have similar meanings A wide range of examples is included throughout the book The fourth edition has been extensively updated and now incorporates the 2008 changes to MLA Style guidelines for documentation Particular attention is paid throughout to the needs of Canadian students **English Usage Guides**
Ingrid Tieken-Boon van Ostade, 2018 This volume explores both historical and current issues in English usage guides or style manuals Chapters look at how and why these guides are compiled and by whom what sort of advice they contain how they differ from grammars and dictionaries and how attitudes to usage have changed **How to Be Good with Words** Don LePan, Laura Buzzard, Maureen Okun, 2017-02-28 In recent decades the contested areas of English usage have grown both larger and more numerous English speakers argue about whether we should say man or humanity fisher or fisherman whether we ought to speak of people as being disabled or challenged or differently abled whether it is acceptable to say that s so gay More generally we ask can we use language in ways that avoid giving expression to prejudices embedded within it Can the words we use help us point a way towards a better world Can we ask such questions with appropriate seriousness while remaining open minded and while retaining our sense of humor To all these questions this concise and user friendly guide answers yes while offering clear headed discussions of many of the key issues Codes and Consequences Carol Myers-Scotton, 1998-08-20 Carol Myers Scotton has edited a collection of essays that covers the choice of one style of English over another in everything from Bible translations to surprise in poetry to supervisor worker interactions on the automobile assembly line An important theme developed to varying degrees in these papers is the notion that speakers and writers as rational actors exploit the unmarked marked opposition regarding audience expectations so as to convey messages of intentionality charged with social or psychological import *Rhinehart Handbook for Writers* Bonnie Carter, 1996

Describing Prescriptivism Ingrid Tieken-Boon van Ostade, 2019-10-08 Describing Prescriptivism provides a topical and thought provoking analysis of linguistic prescriptivism in British and American English from a historical as well as present day perspective Focusing on usage guides and usage problems the book takes a three fold approach to present an in depth analysis of the topic featuring a detailed study of the advice provided in usage guides over the years an authoritative comparison of this advice with actual usage as recorded in British and American corpora including the HUGE Hyper Usage

Language Prescription Don Chapman, Jacob D. Rawlins, 2020-09-21 This book is a detailed examination of social connections to language evaluation with a specific focus on the values associated with both prescriptivism and descriptivism The chapters written by authors from many different linguistic and national backgrounds use a variety of approaches and methods to discuss values in linguistic prescriptivism In particular the chapters break down the traditional binary approaches that characterize prescriptive discourse to create a view of the complex phenomena associated with prescriptivism and the values of those who practice it Most importantly this volume continues serious academic conversations about prescriptivism and lays the foundation for continued exploration
