Those Good Gertrudes Geraldine J. Clifford, 2016-03 This book explores the professional civic and personal roles of women teachers throughout American history Its themes and findings build from the mostly unpublished writings of many women Clifford studied personal history manuscripts in archives and consulted printed autobiographies diaries correspondence oral histories interviews to probe the multifaceted imagery that has surrounded teaching This work surveys a long past where schoolteaching was essentially men s work with women relegated to restricted niches such as teaching rudiments of the vernacular language to young children and socializing girls for traditional gender roles

Southwestern Historical Quarterly, 1989

Harder Than Hardscrabble Thad Sitton, 2003 Until the U S Army claimed 300 plus square miles of hardscrabble land to build Fort Hood in 1942 small communities like Antelope Pidcoke Stampede and Okay scratched out a living by growing cotton and ranching goats on the less fertile edges of the Texas Hill Country While a few farmers took jobs with construction crews at Fort Hood to remain in the area almost the entire population and with it an entire segment of rural culture disappeared into the rest of the state In Harder than Hardscrabble oral historian Thad Sitton collects the colorful and frequently touching stories of the pre Fort Hood residents to give a firsthand view of Texas farming life before World War II Accessible to the general reader and historian alike the stories recount in vivid detail the hardships and satisfactions of daily life in the Texas countryside They describe agricultural practices and livestock handling as well as life beyond work traveling peddlers visits to towns country schools medical practices and fox hunting The anecdotes capture a fast disappearing rural society a world very different from today s urban Texas

Community Education for Social Justice Cameron White, 2014-02-05 What is community How important is community in the 21st century Where might the idea of community fit in education and schooling teaching and learning These are the questions and themes embedded in this book The general critique is that community is an add on in our schools and often is dismissed as a result of the individualistic and competitive nature of schooling today Our focus is to provide critical investigations as to the possibility of community and that we need community now more than ever The concept of community education brings many ideas and issues to mind Related themes include place based field based environmental service learning and outdoor education Each has its own more narrow focus with community education perhaps an umbrella term than encompasses them all Nevertheless the suggestion here is that instead of community education serving as an extension or add on to traditional approaches it should be the focus of all education What is often missing in teaching and learning are contexts and

connections than make education meaningful Community education engages participants in problem and issues based approaches to the local community thereby facilitating that local to global link Instead of compartmentalized subjects integrated approaches use what students and the community know or understand to develop further questions solutions or even problems Community education offers efficacy in that it provides opportunities for collaboration in addressing local issues and problems It enables the community to become the classroom thus ensuring a more long term connection to active rather than passive endeavors as citizens

Exposing a Culture of Neglect Matthew D. Davis, 2006-04-01 In this book Professor Davis illustrates the often unexpected reach of historical research intended originally to fill a knowledge gap He found a forgotten figure from the past who as a scholar and teacher had contributed significantly to education Manuel s story warranted attention but in reconstructing it Professor Davis discovered leads to a more complex account in which the key actor his ideas and certain precise albeit dynamic social conditions intersected and influenced each other In the end the book not only fills a gap making the history of education in Texas and the United States more complete it also underscores the thrust of other recent contributions to Latin American studies in casting doubt on the reliability of previously accepted standard histories These accounts now seem dated and suspiciously wrong headed New research like that of Professor Davis pointedly suggests the old histories need to be reconceptualized reorganized and rewritten Methodologically and substantively his book advances work on this agenda Specifically it provokes fresh thinking about the now indisputably linked histories of education research Mexican Americans and racism in the United States

Nameless Towns Thad Sitton, James H. Conrad, 2010-01-01 A comprehensive history of the sawmill towns of East Texas in the nineteenth and twentieth centuries Sawmill communities were once the thriving centers of East Texas life Many sprang up almost overnight in a pine forest clearing and many disappeared just as quickly after the company cut out its last trees But during their heyday these company towns made Texas the nation s third largest lumber producer and created a colorful way of life that lingers in the memories of the remaining former residents and their children and grandchildren Drawing on oral history company records and other archival sources Sitton and Conrad recreate the lifeways of the sawmill communities They describe the companies that ran the mills and the different kinds of jobs involved in logging and milling They depict the usually rough hewn towns with their central mill unpainted houses company store and schools churches and community centers And they characterize the lives of the people from the hard awesomely dangerous mill work to the dances picnics and other recreations that offered welcome diversions Winner T H Fehrenbach Award Texas Historical Commission After completing the book I truly understood life in the sawmill communities intellectually and emotionally It was very satisfying Conrad and Sitton write in such a manner to make one feel the hard life smell the sawdust and share the danger of the mills The book is compelling and stimulating Robert L Schaadt Director Archivist Sam Houston Regional Library and Research Center

The Child, 1952 **The Strange Career of Bilingual Education in Texas, 1836-1981** Carlos Kevin Blanton, 2004 Annotation A look at bilingual

education for all children in Texas and how the state educational policymakers have embraced ignored rejected outlawed and once again embraced this tradition *Sallie Stockard and the Adversities of an Educated Woman of the New South* Carole W. Troxler, 2021-12-15 Sallie Stockard 1869 1963 the first female graduate of the University of North Carolina published three county histories between 1900 and 1904 Thereafter she lived an obscure and difficult life that reveals much about the many challenges women of that time faced Encouraged by New South educational mentors she countered restrictions on women with diligence and self promotion Carole Troxler discloses Stockard s professional and personal hindrances resourcefulness failures and triumph following her to New England the Southwest and New York Like her subject Troxler lives in Alamance County and her publications include its history Hill Country Teacher Diane Manning, 1990 Histories of eight teachers and their careers in one room schools under severe social restrictions in rural Texas **Annals of Iowa**, 2000 Literacy in America Edward E. Gordon, Elaine H. Gordon, 2003 This book is the first comprehensive history of how the American people achieved varying degrees of literacy from early colonial times to the modern era The authors demonstrate that literacy education is not synonymous with schooling By focusing on people rather than statistics including literacy among women and minority groups they explore the literacy agents methods and materials used at different times and places throughout the history of the country The authors define literacy as the degree of interaction with written text that enables individuals to be productive members of their societies Family literacy is essential to awakening the personal responsibility and motivation necessary for children to develop a love of reading This effort requires more intensive collaboration procedures between the home and the school some of which are detailed here Based largely on primary materials this historical survey reveals important lessons from the past that can be applied to achieve higher levels of 21st century literacy **Yellowed Pages**, 1987 **Pioneer Woman Educator** Debbie Mauldin Cottrell, 1993 In 1918 Annie Webb Blanton broke the gender barrier in Texas politics when she was elected to head the state s public school system This victory came despite the fact that women in Texas could not vote in the general election that elevated her to office Debbie Mauldin Cottrell thus begins the story of a pioneering woman educator a story of accomplishments on behalf of education and of women that includes years of teaching in public school and university classrooms the first female presidency of the Texas State Teachers Association and the founding of an international sorority for teachers Delta Kappa Gamma In this biography of Texas educator Annie Webb Blanton 1870 1945 author Cottrell traces Blanton s rise from teaching in a rural schoolroom in Pine Springs Texas to her service as the state s top administrator of public schools and subsequently her tenure as a professor of education at the University of Texas Drawing on archives and interviews with Blanton s surviving relatives and associates Cottrell depicts Blanton s devotion to Texas schools and to the professionalism of women and analyzes her success in professional and state politics She places Blanton s accomplishments within the context of Progressive era reform and of gender issues as they defined and contributed to her work In the several phases of her public

career Cottrell demonstrates Annie Webb Blanton combined traditional and Progressive values in her own distinctive feminist call to her colleagues By forging one of the first professional networks and articulating a model for reform that was acceptable within the prescribed limits of her day Blanton opened the higher ranks of the education profession to women across the nation and made a lasting mark on the quality of education in the state of Texas
