The Vulnerable Country Tom Conley, 2009 Australia was born vulnerable From its beginnings as a precarious convict settlement on the other side of the world through the development of self governing colonies to Federation and beyond recognising and dealing with vulnerability led Australians to embrace an insular attitude to the outside world

Social Development in Asia Kwong-leung Tang, 2000-05-31 Most Asian countries have shown a strong commitment to rapid economic development Economists have argued that the fruits from economic development will be spread equitably throughout the population In the absence of a strong tradition of social rights social development in Asia has long been taken for granted This collection documents social development in the Asian countries of China Hong Kong Taiwan South Korea Thailand and India and concludes that social development has lagged behind economic development This has given rise to distorted development in many countries Serious development problems of poverty and inequalities have lingered even in these economically advanced countries of Hong Kong Taiwan and Singapore

These problems have been exacerbated in the wake of the Asian economic crisis. In order to harmonize social development with economic growth, Asian states ought to be more proactive in their development agendas. As a text on social development in Asia, this book is primarily intended for practitioners and students of social work, social administration and social policy. It is also relevant for students and practitioners of sociology, economics and public policy.

Language, Nation and Development in Southeast Asia Lee Hock Guan, 2003-08-01. Language policies in Southeast Asia have been shaped by the process of nation building on the one hand and by political and economic considerations on the other. The early years of nation building in Southeast Asia generated intensive language conflicts precisely because state policies privileged the idea of a monolingual nation and thus endeavoured to co-opt or even do away with troublesome ethnic identities. In recent years, language policies are increasingly influenced by pragmatic considerations, especially globalization and the awareness of a linkage between language and economic development, such that Southeast Asian states in varying degrees have become less insistent on promoting monolingual nationalism. This book evaluates the successes and drawbacks of language policies in Indonesia, Malaysia, Singapore, the Philippines, Thailand, Vietnam and Myanmar, especially the ways in which these policies have often been resisted or contested. It is an invaluable primer on this linguistically complex region and a resource for scholars, policy makers, civil society activists and NGOs in various parts of the world facing equally challenging ethnic language issues.

Globalisation, Human Rights and Labour Law in Pacific Asia Anthony Woodiwiss, 1998-04-30. Anthony Woodiwiss's pathbreaking book was the first substantive contribution to a sociology of human rights. In it, he takes up the question of whether so-called Asian values are compatible with human rights discourse and argues against human rights issues being the major obstacle to East-West co-operation. Dr Woodiwiss's sociological and post-structuralist approach to the concept of rights and his incorporation of the transnational dimension into sociological theory enable him to demonstrate how the global human rights regime can accommodate Asian patriarchalism while Pacific Asia is itself adapting by means of what he calls enforceable benevolence. His studies of Hong Kong, the Philippines, Malaysia and Singapore highlight similarities between Pacific Asian and Western societies and offer a positive view of the social forces obtaining in these territories.

After the Empires P. Preston, 2014-08-26. The shift to the modern world in East Asia was accomplished in part via the experience of colonial rule in the late nineteenth century.
