**China's Relations with Japan in an Era of Economic Liberalisation** Dong Dong Zhang,1998 The main purpose of this book is to explore the influences of reform on changes in China s economic relations with Japan after the late 1970s There are three reasons for investigating the links between Chinese reform and bilateral economic relations at this particular juncture in history First in the past two decades reform has meant that China has enjoyed faster economic growth than Japan This has transformed the pattern of bilateral economic relations hitherto characterised by an industrial Japanese economy and a resource based Chinese economy a result of Japan s successful industrialisation and China s failure to industrialise in the previous hundred years Second reform has brought about the deepening of the interdependence between the Chinese economy and the world economy Through links with the world economy the Chinese economy has not only come to rely on foreign countries for technology capital markets and management skills but has itself become a growth pole exerting a strong impact on world economic growth In the reform era economic relations between China and Japan have been woven into regional and global economic networks of trade an investment Third reform has transformed the management of China s domestic and external economic activities

**The Rise of Asia** Frank B. Tipton,1998-05-01 For many years Japan was seen as the peculiar exception in Asia a highly dynamic economy isolated in an otherwise moribund continent With the rise of the Southeast Asian and Chinese economies however it has now become clear that Asia as a whole is experiencing an extraordinary revolution which will result within a very few years in living standards for some countries being on a par with those in the West The results of this transformation can only be guessed at but The Rise of Asia adds a far greater sophistication to our understanding of how this process came about treating the key areas of Asian life economics society and politics as an integrated whole and avoiding the trap of most commentators who see the phenomenon as an exclusively postwar economic issue Balancing the uniquely Asian aspects with global developmental factors Dr Tipton creates a convincing picture of how this amazing change has occurred

The Four Little Dragons Ezra F. Vogel,1991 Vogel brings masterly insight to the underlying question of why Japan and the little dragons Taiwan South Korea Hong Kong and Singapore have been so extraordinarily successful in industrializing while other developing countries have not
