From My Window Melissa Hendrickx,2003-10 The poems in this book were written by Melissa between the ages of 13 and 16 and convey nearly every teenage emotion Although there is often a feeling of hopelessness there is an even stronger sense of determination and the willpower to overcome all that life presents Some of these poems will cause the reader to reflect on past decisions some will lead the reader to a greater understanding of adolescence and others will leave the reader with a sense of promise for a better tomorrow

The Greatest Risk of All Stanley Cohen,2012-09-21 You will be exposed to an aging Jewish man raised in New York who now finds himself living in Russellville Arkansas and coping with gut wrenching decisions he feels compelled to make concerning his faith He is not alone in this spiritual quest as he is now in the company of a Christian Arkansas coalminers daughter who is also open minded to learn about Messianic Judaism and Yeshua Jesus the Messiah The decision of converting from mainstream Judaism to Messianic Judaism was causing Scott a great amount of anguish He felt that if he was wrong it would be blasphemy In the past he was quiet a risktaker but in this case he wouldnt be risking money he would be risking his soul Scott saw a vision of Jesus wearing a white robe with jet black hair falling over his shoulders The light that surrounded Jesus was indescribably bright and its intensity was not earth like When he tried to remember it he could recall everything except the intensity of the brightness of the light He could not duplicate the light not even in his own imagination

The Romance Of Risk Lynn E Ponton,2008-08-06 Dr Lynn Ponton has devoted her clinical practice to a particular community teenagers in trouble Whether these kids are struggling with peers experimenting with drugs stealing cars or having unprotected sex they have something in common they are all involved in unhealthy risk taking And their parents are scared How did my child get involved in this dangerous situation they ask And what can I do Their fears are justified today s teens have more opportunities for taking dangerous risks than ever before But in *The Romance of Risk* Dr Ponton refutes the traditional idea that risk taking is primarily an angry power struggle with parents so called teenage rebellion and re defines it as a potentially positive testing process whereby challenge and risk are the primary tools adolescents use to find out who they are and determine who they will become This new perspective is revealed in a series of mesmerizing tales about individual adolescents and their families Among others we meet Jill a 13 year old thrill seeking runaway Hannah a privileged daughter of suburbia who suffers from anorexia and Joe a high school senior

with a serious drinking problem Through these stories we come to understand Dr Ponton s startling observation that teenagers must confront and experience challenge and risk along the path to self discovery For adolescents the powerful allure of the adult world is equaled only by the fear of failing to find a place in it Parents can ease that transition into adulthood however by promoting healthy risk taking so that dangerous options will be avoided In *The Romance of Risk* parents will learn how they can begin to understand rather than fear adolescent risk taking and how to communicate with their children about it After all teenagers will always romanticize risk But with the support and guidance of parents and other adults odds are the risks they take will be the right ones *A Certain Risk* Paul Richardson,2010 In his memoir *A Certain Risk* author Paul Richardson will inspire you to engage the complexities of your world with creative solutions with creativity that comes straight from the heart of the Creator Drawing on stories from his life as a change specialist in the world s largest Muslim country Richardson explores what causes you to be pinned down under personal apathy and disappointment and he helps you seek the Spirit fueled life that can set you free ***Latinos and Latinas at Risk*** Gabriel Gutiérrez,2015-01-26 This two volume collection of essays addresses the Latino a experience in present day America covering six major areas of importance education health family children teens and violence The Latino a presence in this country predates the United States itself yet this group is often marginalized in the American culture Many noted experts explore the ideology behind this prejudicial attitude examining how America views Latinos as how Latinos as view themselves and what the future of America will look like as this group progresses toward equitable treatment Through the exploration process the book reveals the complexity and diversity of this community tracing the historical trajectories of those whose diverse points of origin could be from almost anywhere including the Americas Europe or other places Written with contemporary issues at the forefront this timely collection looks at the resolve of the Latino people and considers their histories contributions concerns and accomplishments Pointed essays address disparate quality of life issues in education health and economic stability while depicting individual and group efforts in overcoming barriers to mainstream American society Each chapter discusses key challenge areas for the Latino American population in everyday life An engaging Further Investigations feature poses questions about most of the essays leading to critical thinking about the most important topics affecting Latino as today *At Risk Students* Jonas Cox,2013-09-13 This book is organized around CBUPO the basic psychological needs of all students competence belonging usefulness potency and optimism When teachers and schools focus on meeting these needs the rate of at riskness is drastically reduced This book presents practical strategies and tips to help teachers and administrators help all students become successful learners The revised edition offers new material on using classroom assessment complying with standards and high stakes testing an updated approach to evaluating At Risk Prevention programs and alternative strategies for meeting the motivational needs of at risk youth from developmental constructivism to mastery learning *The Risk of Reading* Robert P.
