**Workshop on Risks, Benefits, and Controversies in Fertility Control, March 13-16, 1977, Arlington Hyatt House, Arlington, Va ,1977** *Current Catalog* National Library of Medicine (U.S.),1979 First multi year cumulation covers six years 1965-70 **Fertility Control** S.L. Corson,R.J. Derman,1995-12-15 This is the second edition of Corson Derman and Tyrer's complete medical textbook on fertility control It has been revised and fully updated to include details about oral contraceptives and new progestins the female condom hormonal implantation new information about IUDs and the biochemistry biological effects and uses of mifepristone RU 486 Family Planning Deborah Maine,1981 *Second Report on Intrauterine Contraceptive Devices* United States. Food and Drug Administration. Medical Device Advisory Committee on Obstetrics and Gynecology,1978 **Prevention and Treatment of Contraceptive Failure** S. Ratnam,2012-12-06 The International Women's Health Coalition was pleased to be the convenor and host of the first Christopher Tietze International Symposium held in Berlin in September 1985 The papers in this volume represent a wide range of international views and experience with the prevention and treatment of contraceptive failure We believe the issues discussed at the Tietze Symposium to be of interest and concern to women throughout the world and to those who would serve them The Coalition intends to have broad distribution to this volume and encourages those interested in these issues to be in touch with the Coalition in New York City see address below We would like to thank The Ford Foundation Stewart Mott The David and Lucile Packard Foundation the Population Crisis Committee and The Rockefeller Foundation for their support of this Symposium In particular we would like to express our appreciation to Sarah Lewit Tietze and Uta Landy for the devotion and dedication which made this Symposium possible and a worthy memorial to Christopher Tietze *Rising Infant Mortality in the U.S.S.R. in the 1970's* Christopher Davis,Murray Feshbach,1980 **Contraceptive Steroids** A. T. Gregoire,2013-03-13 One of the United States Food and Drug Administration's most difficult tasks is the assessment of risk/benefit ratios for a broad spectrum of therapeutic and prophylactic drugs Furthermore it is now widely recognized that no drug/chemical or even natural substance is completely devoid of risk Nowhere has this issue been the subject of more controversy than with steroidal contraceptive drugs Regulated as a special class of products because of their prophylactic use in healthy individuals for prevention of pregnancy rather than for treatment of disease steroid contraceptive drugs undergo more extensive animal safety tests than any other pharmaceutical agent This view also contemplates the availability of alternative contraceptive measures posing fewer risks but the use of less effective methods must take into consideration the hazards associated with pregnancy itself In April 1983 the Food and Drug Administration and the National Institutes of Health in cooperation with the World Health Organization the Population Council and the Agency for International Development sponsored a three day workshop to evaluate current guidelines for preclinical safety studies of contraceptive drugs in light of our extensive knowledge of the side effects of marketed products The meeting included presentations by experts in the fields of

comparative metabolism pharmacokinetics pharmacology carcinogenicity toxicology coagulation lipid metabolism epidemiology and pathology at a meeting of the Fertility and Maternal Health Drugs Advisory Committee of the National Center for Drugs and Biologics Food and Drug Administration

**Second-Trimester Abortion** G. Berger, W.E. Brenner, L.G. Keith, 2012-12-06 Irvin M Cushner MD MPH It is both remarkable and at the same time a sign of this era of rapid change that one can refer back to the infancy of a field which has existed for barely more than a decade Yet one now reads of the maturing of the family planning and abortion fields both of which were incorporated into our society and integrated into our health care system within the past ten years Indeed in the very year that this book is being prepared we note the tenth anniversaries of several significant events of 1970 1 the enactment of Title X of the Public Health Service Act establishing a

Federal program in family planning 2 the first issuance by a major health related organization the APHA of a policy statement advocating repeal of all abortion laws and 3 the enactment by New York State of an abortion law whose only restriction was that it be performed by a licensed physician and the subsequent action the first by any local health department New York City to assure both its implementation and its quality They were indeed eventful days These three events seemed to presage a then unprecedented acceptance of fertility regulation as a right and as a needed service
