Metropolis and Province Ian Inkster, Jack Morrell, 2012-11-12 This collection of case studies focusing on British scientific culture during the first industrial revolution explores the social basis of science in the period and asks why such an extraordinarily rich variety of cultural scientific experience should have flourished at the time The book analyses science and scientific culture in their local contexts both metropolitan and provincial examining where possible the relations between the two and emphasizing the range of scientific associations in London to individual savants in the provinces This book was first published in 1983 *Readings in Sexualities from Africa* Rachel Spronk, Thomas Hendriks, 2020-02-04 Images and stories

about African sexuality abound in today's globalized media Frequently old stereotypes and popular opinion inform these stories and sex in the media is predominately approached as a problem in need of solutions and intervention The authors gathered here refuse an easy characterization of African sexuality and instead seek to understand the various erotic realities sexual practices and gendered changes taking place across the continent They present a nuanced and comprehensive overview of the field of sex and sexuality in Africa to serve as a guide through the quickly expanding literature This collection offers a set of texts that use sexuality as a prism for studying how communities coalesce against the canvas of larger political and economic contexts and how personal lives evolve therein Scholars working in Africa the U S and Europe reflect on issues of representation health and bio politics same sex relationships and identity transactional economies of sex religion and tradition and the importance of pleasure and agency This multidimensional reader provides a comprehensive view of sexuality from an African perspective **The Making of the Geological Society of London** Cherry Lewis, Simon J.
