## **Mexifornia A State Of Becoming:**

*Mexifornia* Victor Davis Hanson, 2016-04-19 Victor Davis Hanson locates the cause of our immigration quagmire in the opportunistic coalition that stymies immigration reform and even worse stifles any honest discussion of the present crisis. Conservative corporations, contractors and agribusiness demand cheap wage labor from Mexico whatever the social consequences. Meanwhile progressive academics, journalists, government bureaucrats and La Raza advocates see illegal aliens as a vast new political constituency for those peddling the notion that victimhood not citizenship is the key to advancement. The troubles Hanson identifies may have reached critical mass in California but they also affect Americans who inhabit Mexifornia, Massachusetts and other states of becoming. Hanson follows the fortunes of Hispanic friends he has known all his life, how they have succeeded in America and how they regard the immigration quandary. But if *Mexifornia* is an emotionally generous look at the ambition and vigor of people who have made California strong, it is also an indictment of the policies that got California into its present mess. In the end, Hanson is hopeful that our traditions of assimilation, integration and intermarriage may yet remedy a predicament that the politicians and ideologues have allowed to get out of hand. Mexifornia Victor Davis Hanson, 2011-02-24 Massive illegal immigration from Mexico into California. Victor Davis Hanson writes coupled with a loss of confidence in the old melting pot model of transforming newcomers into Americans is changing the very nature of the state. Yet we Californians have been inadequate in meeting this challenge, both failing to control our borders with Mexico and to integrate the new alien population into our mainstream. Noted for his military histories and especially his social commentary of post 9/11 American life, Hanson is a fifth generation Californian who teaches college classics courses and runs a family farm. *Mexifornia* is part history, part political analysis and part memoir. It is an intensely personal book about what has changed in California over the last quarter century and how the real losers in the chaos caused by hemorrhaging borders are the Mexican immigrants themselves. A large part of the problem, Hanson believes, comes from the opportunistic coalition that stymies immigration reform and even worse stifles an honest discussion of the growing problem. Corporations, contractors and agribusiness demand cheap wage labor from Mexico whatever the social consequences. Meanwhile academics, journalists, government bureaucrats and La Raza advocates envision illegal aliens as a vast new political constituency for those committed to the notion that victimhood not citizenship is the key to advancement. *Mexifornia* is an indictment of the policies that got California into its present mess. But this beautifully written book also reflects Hanson's strong belief that our traditions of assimilation, integration and intermarriage may yet remedy a problem that the politicians and ideologues have allowed to get out of hand. **Barack Obama and the Myth of a Post-Racial America** Mark Ledwith, Kevin Verney, Inderjeet Parmar, 2013-10-08 The 2008 presidential election was celebrated around the world as a seminal moment in U.S. political and racial history. America However by 2011 much of the post election idealism had dissipated in the wake of an on going economic and financial crisis escalating wars in Afghanistan and Libya and the rise of the right wing Tea Party movement By placing Obama in the historical context of U S race relations this volume interrogates the idealized and progressive view of American society advanced by much of the mainstream literature on Obama Barack Obama and the Myth of a Post Racial America takes a careful look at the historical cultural and political dimensions of race in the United States using an interdisciplinary analysis that incorporates approaches from history political science and sociology Each chapter addresses controversial issues such as whether Obama can be considered an African American president whether his presidency actually delivered the kind of deep rooted changes that were initially prophesised and whether Obama has abandoned his core African American constituency in favour of projecting a race neutral approach designed to maintain centrist support Through cutting edge critically informed and cross disciplinary analyses this collection directly addresses the dimensions of race in American society through the lens of Obama s election and presidency

Ferguson,2009

The United States was founded as and has remained a land of immigrants but immigration has always proved a complex issue for the country Today America s immigration policy is surrounded by controversy While some Americans appreciate the cultural and intellectual contributions of new citizens others fear the country does not have the resources to support a continuous influx of immigrants There is concern about the cost and danger of illegal immigration the economic strain of legal immigration and the question of whether to make English the official language of the United States This second edition of Immigration Policy has been updated to cover new controversies and include up to date statistics on this perennially controversial issue

Transculturality and Perceptions of the Immigrant Other Geoffroy de Laforcade,Page R. Laws,Cathy Covell Waegner,2011-01-18 No other issue in our times of globalization has aroused such passionate debate as the increasingly complex transborder movements of people of all ethnicities with the self perceived from heres often struggling to maintain the illusion of separateness from intruding come heres The paradigm of transculturality offers prospects to rethink demystify and represent cultural unity and difference assimilation and alterity in a manner that acknowledges the fissures and the fictions in traditional cultural dichotomies such as the melodramatically instrumentalized national vs foreign The interdisciplinary essays compiled in Transculturality and Perceptions of the Immigrant Other focus on the ways in which new diasporic and migrational patterns arouse ill will and conflict but also negotiation and transcultural impulses resulting in transformed meso structures in media schooling and business Investigating regional immigrant groups in the states of Virginia and North Rhine Westphalia as well as the discourses and images in public media films literature and cultural events the studies both document the contest for geographical work and community space and place it in larger theoretical and specific historical contexts Arising from an international project undertaken by senior and junior scholars from the fields of cultural studies history and sociology at Norfolk State University in Virginia and University of Siegen in Germany these essays suggest that cultural citizenship can embody dynamic expressions of belonging and strategies of empowerment which shape political and economic communities engendering in the process innovative forms of constantly negotiated hybrid identity and transmigratory affiliation
