scholarship on the thought of Michael Oakeshott includes essays by both distinguished and established authors as well as a fresh crop of younger talent Together they address the meanings of Oakeshott's conservatism through the lenses of his ideas on religion history and tradition and explore his relationships to philosophers ranging from Hume to Ryle Cavell and others The collection assigns no single or final meaning to Oakeshott's conservatism but finds in him a number of possibilities for thinking fruitfully about what conservatism might mean when it is no longer considered as a doctrine but as a habit or a turn of mind

Michael Haneke Christopher Rowe,2017-03-15 The two primary goals of this ambitious study are to provide a new framework in which to interpret the films of Michael Haneke including *Funny Games* *Caché* and others and to show how the concept of intermediality can be used to expand the possibilities of film and media studies tying the two more closely together Christopher Rowe argues that Haneke's practice of introducing nonfilmic media into his films is not simply an aspect of his interest in society's oversaturation in various forms of media Instead the use of video television photography literary voice and other media must be understood as modes of expression that fundamentally oppose the film medium itself The intermedial void is a product of the absolute incommensurability of these media forms as perceptual and affective phenomena Close analysis of specific films shows how their relationship to noncinematic media transforms the nature of the film image and of film spectatorship
