Michel Foucault Subversions Of The Subject:

Michel Foucault Philip Barker,1993 Account of Foucault s work aiming to show how his concepts of genealogy and archeology can be used to reconceptualise the history of ideas Also provides an account of the history of ideas including the work of Lovejoy Collingwood and Freud and an evaluation of genealogy and its place in the history of ideas Includes references a bibliography and a name index The author lectures and writes on contemporary philosophy and is an associate of the department of English at the University of Tasmania First published in the UK by Harvester Wheatsheaf in 1993

Michel Foucault and the Subversion of Intellect Karlis Racevskis,1983 The Cambridge Companion to Foucault Gary Gutting,2005-07-18 For Michel Foucault philosophy was a way of questioning the allegedly necessary truths that underpin the practices and institutions of modern society He carried this out in a series of deeply original and strikingly controversial studies on the origins of modern medical and social scientific disciplines These studies have raised fundamental questions about the nature of human knowledge and its relation to power structures and have become major topics of discussion throughout the humanities and social sciences The essays in this volume provide a comprehensive overview of Foucault s major themes and texts from his early work on madness through his history of sexuality Special attention is also paid to thinkers and movements from Kant through current feminist theory that are particularly important for understanding his work and its impact This revised edition contains five new essays and revisions of many others and the extensive bibliography has been updated *Subjectivity* Steven F. McGuire,R. J. Snell,2016-03-04 In *Subjectivity* sixteen leading scholars examine the turn to the subject in modern philosophy and consider its historical antecedents in ancient and medieval thought Some critics of modernity reject the turn to the subject as a specifically modern error arguing that it logically leads to nihilism and moral relativism by divorcing the human mind from objective reality Yet some important thinkers of the last half century including Leo Strauss Eric Voegelin John Finnis and Bernard Lonergan consider a subjective starting point and claim to find a similar position in ancient and medieval thought If correct their positions suggest that one can adopt the subjective turn and remain true to the tradition This is a timely question The common good of our polity encounters a situation in which many believe that there is no objective reality to which human minds and wills ought to conform a conclusion that suggests we can define and construct reality In light of this the notion of a natural or objective reality to which human beings ought to conform becomes particularly vital Should we then adopt the modern turn to subjectivity and argue for objective truth and moral order on its basis or reject the subjective turn as part of the problem and return to an earlier approach that grounds these things in nature or some other external reality Critics of modern subjectivity argue that the modern turn to subjectivity must be abandoned because it is the very source of the nominalism that threatens to undermine liberal democracy Others argue however that subjectivity itself logically leads to the recognition of an objective reality beyond the mind of the individual Edited by R J Snell and Steven F McGuire this collection will be of particular

Foucault and Social Dialogue Chris Falzon, 2006-06-19 Foucault and Social Dialogue Beyond Fragmentation is a compelling yet extremely clear investigation of these options and offers a new way forward Christopher Falzon argues that the proper alternative to foundationalism is not fragmentation but dialogue and that such a dialogical picture can be found in the work of Michel Foucault Such a reading of Foucault allows us to see for the first time the ethical and political position implicit in Foucault's work and how his work contributes to the larger debate concerning the death of man **Mapping the Present** Stuart Elden, 2002-01-01 In a late interview Foucault suggested that Heidegger was for him the essential philosopher Taking this claim seriously Mapping the Present assesses the relationship between these two thinkers particularly on the issue of space and history It suggests that space and history need to be rethought and combined as a spatial history rather than as a history of space In other words space should become not merely an object of analysis but a tool of analysis The first half of the book concentrates on Heidegger from the early occlusion of space through the politically charged readings of Nietzsche and Holderlin to the later work on art technology and the polis which accord equal status to issues of spatiality Foucault's work is then rethought in the light of the analysis of Heidegger and the project of a spatial history established through re readings of his works on madness and discipline Foucault, Christianity and Interfaith Dialogue Henrique Pinto, 2020-11-25 Foucault Christianity and Interfaith Dialogue develops a new model for interfaith dialogue using the work of the French historian of ideas Michel Foucault The author argues that it is the injustice done to the Other by Roman Catholic Protestant and other centred and unitary models of religious pluralism that allows the introduction of Foucault's de centring of transcendence and human reason as an alternative model for understanding religious diversity and the role it ought to play in the constitution of the self and the making of society This Foucaultian approach provides a new direction for interfaith dialogue in the modern world and leads to an ethical rather than a nihilistic position while fostering a non unitary theology of religious pluralism and an open textured process of self transformation The author's original and imaginative application and expansion of Foucault's concept of the More from The Archaeology of Knowledge 1969 makes important and original contributions to academic work on Foucault and contemporary theology The Routledge Handbook of Critical Pedagogies for Social Work Christine Morley, Phillip Ablett, Carolyn Noble, Stephen Cowden, 2020-01-20 The Routledge Handbook of Critical Pedagogies for Social Work traverses new territory by providing a cutting edge overview of the work of classic and contemporary theorists in a way that expands their application and utility in

social work education and practice thus providing a bridge between critical theory philosophy and social work Each chapter showcases the work of a specific critical educational philosophical and or social theorist including Henry Giroux Michel Foucault Cornelius Castoriadis Herbert Marcuse Paulo Freire bell hooks Joan Tronto Iris Marion Young Karl Marx Antonio Gramsci and many others to elucidate the ways in which their key pedagogic concepts can be applied to specific aspects of social work education and practice The text exhibits a range of research based approaches to educating social work practitioners as agents of social change It provides a robust and much needed alternative paradigm to the technique driven conservative revolution currently being fostered by neoliberalism in both social work education and practice The volume will be instructive for social work educators who aim to teach for social change by assisting students to develop counter hegemonic practices of resistance and agency and reflecting on the pedagogic role of social work practice more widely The volume holds relevance for both postgraduate and undergraduate qualifying social work and human services courses around the world

Foucault and Heidegger Alan Milchman, Alan Rosenberg, 2003 Michel Foucault and Martin Heidegger are two of the most important intellectual figures of the twentieth century and yet there are significant largely unexplored questions about the relationship between their projects Foucault and Heidegger stages a crucial critical encounter between these two thinkers in doing so it clarifies not only the complexities of the Heidegger Foucault relationship but also their relevance to questions about truth and nihilism acquiescence and resistance and technology and agency that are central to debates in contemporary thought These essays examine topics ranging from Heidegger's and Foucault's intellectual forebears to their respective understanding of the Enlightenment modernity and technology to their conceptions of power and the political

Dead Subjects Antonio Viegas, 2007-11-01 Examines how Lacanian theory lends itself to a new way of thinking about ethnic racialized subjectivity applying it to notions of Latino a subjectivity and experience in particular

Versions of Virginity in Late Medieval England Sarah Salih, 2001 This study looks at the question of what it meant to be a virgin in the Middle Ages and the forms which female virginity took It begins with the assumptions that there is more to virginity than sexual inexperience and that virginity may be considered as a gendered identity

Homosexuality, Law and Resistance Derek McGhee, 2013-01-11 This book explores contemporary social theory and developments in the study of sexuality through the analysis of law and its practices Each chapter explores the power of discourse in law in relation to homosexualities while simultaneously examining how homosexuals resist and disrupt these legal discourses It is a valuable addition to the literature of the fields of Sociology Cultural Studies Law Politics Gender Studies and Sexuality

Sexual Subversions Elizabeth Grosz, 2020-09-02 *Sexual Subversions* introduces the works of three well known if not well read French feminists Julia Kristeva Luce Irigaray and Mieke Le Doeuff It provides a map of an area where there are few detailed discussion of the achievements of these difficult yet immensely rewarding writers In doing so this overview raises issues of general relevance to feminist research it participates in debates around the nature of feminist theory the relations feminist

intellectuals have to male dominated knowledges and the strategies appropriate for developing non patriarchal autonomous or woman centred knowledges No book in French feminists would be complete without including the contributions of Kristeva and Irigaray The inclusion of Le Deouff s work which brings a different perspective to bear on the question of sexual difference provides a counterbalance to literary appropriations of French feminism by Anglo American readerships Kristeva Irigaray and Le Deouff are the focal points of this study precisely because each highlights the differences of the others revealing the frameworks to which the others are committed Nevertheless while these writers do not present a common political or theoretical position or form a school each addresses the question of women s autonomy from male definition affirms the sexual specificity of women seeks out a femininity women can use to question the patriarchal norms and ideals of femininity and rejects the preordained positions patriarchy allots to women

Food, Morals and Meaning

John Coveney,2006-09-27 Why does our appetite for food pleasures make us feel anxious This fresh and updated edition traces our complex relationship with food and eating along with our preoccupation with diet self discipline and food guilt

Madness in Experience and History Hannah Lyn Venable,2021-11-01 Madness in Experience and History brings together experience and history to show their impact on madness or mental illness Drawing on the writings of two twentieth century French philosophers Maurice Merleau Ponty and Michel Foucault the author pairs a phenomenological approach with an archaeological approach to present a new perspective on mental illness as an experience that arises out of common behavioral patterns and shared historical structures Many today feel frustrated with the medical model because of its deficiencies in explaining mental illness In response the author argues that we must integrate human experiences of mental disorders with the history of mental disorders to have a full account of mental health and to make possible a more holistic care Scholars in the humanities and mental health practitioners will appreciate how such an analysis not only offers a greater understanding of mental health but also a fresh take on discovering value in diverse human experiences

The Descent of

Ideas DonaldR. Kelley,2017-09-29 The history of ideas better known these days as intellectual history is a flourishing field of study which has been the object of much controversy but hardly any historical exploration This major new work from Donald R Kelley is the first comprehensive history of intellectual history tracing the study of the history of thought from ancient medieval and early modern times its emergence as the history of ideas in the 18th century and its subsequent expansion The point of departure for this study is the perspective opened up by Victor Cousin in the early 19th century on Eclecticism and its association with the history of philosophy established by Renaissance scholars Kelley considers a broad range of topics including the rivalry between ideas and language the rise of cultural history the contributions of certain 19th and 20th

century practitioners of the history of ideas in interdisciplinary areas of philosophy literature and the sciences and finally the current state of intellectual history The central theme of the book is the interplay between the canon of philosophical thought and the tradition of language and textual study the divergence of the latter marking the descent of ideas into the realm of cultural history

Feminist Interpretations of Michel Foucault Susan J. Hekman, 1996 The exciting possibilities of a Foucauldian approach to issues of the subject and identity especially as they relate to sex and the body are detailed in several of the essays collected here Despite the possibilities however Foucault's approach has raised serious questions about an equally crucial area of feminist thought politics Some feminist critics of Foucault have argued that his deconstruction of the concept woman also deconstructs the possibility of a feminist politics Several essays explore the implications of this deconstruction for feminist politics and suggest that a Foucauldian feminist politics is not viable Overall this collection illustrates the range of interest Foucault's thought has generated among feminist thinkers and both the advantages and liabilities of his approach for the development of feminist theory and politics

The Circular Structure of Power Torben Bech Dyrberg, 1997 Few concepts in social theory have been used so extravagantly in recent years as the notion of power Yet despite its inflated presence the term is still unclear and undertheorized In *The Circular Structure of Power* Torben Dyrberg rises to the challenge of conceptualizing power through a philosophical examination of its uses in contemporary social theory Drawing on the insights of Michel Foucault Ernesto Laclau and Chantal Mouffe Dyrberg brings this continental tradition into a creative dialogue with the Anglo American tradition represented by figures such as Steven Lukes William Connolly Peter Bachrach and Morton Baratz Moreover Dyrberg moves from such abstract considerations to their implications for political and democratic theory through an examination of the work of thinkers as diverse as Robert Dahl John Rawls Jürgen Habermas and Nicos Poulantzas Simultaneously engaging with and defying many of the dominant definitions of power Torben Dyrberg destabilizes and undermines the conventional distinctions and polarities through which power is usually understood The new perspective offered to us by this investigation is one which goes beyond the assumption that power can be based on and derived from either agency or structure as if these categories themselves were not somehow constituted by power
