**Nepal** Leo E Rose, John T Scholz, 1980-04-28      **The Republic Of Korea** David I Steinberg, 2019-07-09 This book concentrates on the process of economic growth for which Korea today is renowned It examines some of the salient forces that helped to produce Korea's remarkable change and explores the evolution of the class structure in Korea and the changes it is now experiencing      **Thailand** Charles F Keyes, 2019-07-09 Thailand is exceptional among modern states in Asia in that it has built and retained a national culture around a traditional monarchical institution Moreover this culture has also been based on a dominant religious tradition that of Theravada Buddhism The process of creating the modern nation state of Thailand out of the traditional Buddhist kingdom of Siam began in the nineteenth century when the rulers of Siam confronted with increasing pressure from the colonial powers of Britain and France were able to preserve their country's independence by instituting revolutionary changes that established the authority of a centralized bureaucracy throughout the country The new state asserted its authority not only over Siamese who lived in the core area of the old kingdom but also over large numbers of Lao Yuan or Northern Thai Khmer Malays tribal peoples and other groups all of which had previously enjoyed relative autonomy and over the sizable immigrant Chinese population which was assuming an increasingly significant role in the economy Because the rulers of the Siamese state strove to incorporate these diverse peoples into a Thai national community how this community should be defined and what type of state structure should be linked with it have been dominant questions in modern Thai history Significant tensions have arisen from the efforts by members of the Thai elite to make the monarchical traditions of the Bangkok dynasty Buddhism and the central Thai language basic to Thai national culture Other tensions have arisen as monarchy military bureaucracy the Buddhist sangha business interests and elected political representatives assert or maintain an authoritative position in the state structure This book examines these tensions with reference to the major changes that have taken place in Thai society economy polity and culture in the twentieth century especially since World War II      *Recent Research on Nepal* Klaus Seeland, 1986      **An Introduction to South Asia** B.H. Farmer, 2025-03-03 Originally published in 1983 and here reissuing the second edition of 1993 An Introduction to South Asia presents the geographical and historical background to the diversities of the region From the legacy of the colonial period and the controversies that surrounded partition and independence the book traces the consequences of social divisions particularly of religion caste and language into contemporary politics Interwoven issues on environments sociology politics and economies combine to explain development patterns and problems the processes behind them and the reciprocal impact of South Asia and the wider world This fully updated second edition provides new material on environmental issues the causes and consequences of natural disasters and the role of women in the region It provides a comprehensive interdisciplinary guide to the varying environments natural social political and economic that characterize South Asia      □□□□ □□□□, 1984      **Laos** Arthur J Dommen, 2019-09-17 Theravada Buddhists in the lowlands and animists in the mountains

the people of Laos have wanted nothing more than to live at peace Unfortunately their country's location between two more powerful neighbors Vietnam and Thailand has made it the victim of invasion and domination since the fifteenth century In this analytic introduction to Laos     **The Journal of Asian Studies** ,1982 An essential resource for those interested in Asia Recognized as the leading publication in its field It features articles on the history arts social sciences and contemporary issues of East South and Southeast Asia as well as a large book review section     *Malaysia* R. S. Milne,2019-03-04 Malaysia has many problems in common with other developing countries including the difficult task of achieving economic progress and modernization while retaining useful traditional values reducing poverty and minimizing dependence on the export of a few primary products It also has a remarkable if not unique diversity of cultures Its ethnic divisions approximately 47 percent Malay 34 percent Chinese 9 percent Indian and 10 percent other are deep reflecting differences in race language culture and religion At present the main danger of serious ethnic tension arises from the impact of the Islamic resurgence The Malays who are dominant politically are Muslims but very few Chinese the second largest ethnic group are Muslims It is especially remarkable given this ethnic mix that Malaya which became Malaysia in 1963 achieved independence peacefully in 1957 has experienced no military coups or takeovers and has regularly held elections This book examines Malaysia's history population social structure politics and economics as well as its climate agriculture and wildlife and seeks to explain why despite its inherent ethnic tensions Malaysia has survived and even prospered     *Social Inclusion of Ethnic Communities in Contemporary Nepal* ,2013-08-15 Social Inclusion of Ethnic Communities in Contemporary Nepal focuses on the dynamics of ethnic identities and movement in South Asian states in a comparative framework As we witness a series of explosive ethnic revivals across the globe this study investigates the issues around ethnicity that have come to occupy centre stage in Nepal's contemporary political and development discourse Nepal is at the crossroads of state building The Constituent Assembly is now looking into the modalities of establishing a multi cultural multi social multi linguistic multi religious and multi ethnic federal state In the aftermath of the April 2006 Jana Andolan II and the commitment of the ruling political alliance to restructuring Nepal along federal republican lines the assessment of Nepal's ethnic question from multiple perspectives political sociological economic and spatial has acquired a new urgency Ethnic identity is only one part of the problem of ethnicity in Nepal Federalism therefore has to be conceived of as an exercise in addressing the multiplicity of issues that form the agenda of Nepal's development so that a politically socially and economically integrated dynamic and progressive Nepal emerges from the shadows of the past This work includes an intensive analysis of facts figures and particulars collected from available records and surveys One of the aims of the study is to assess the defining ethnic identity among the Limbus centred on a case in an urban area in the Kathmandu Valley This work is mainly based on qualitative data but quantitative data has also been used to measure various aspects of the community like the level of educational economy etc This volume will be an invaluable guide for the scholars of federalism in Nepal while also educating the lay reader in general     **Nepal**
