Nuevas Tecnologías De La Informacion Y Documentacion En Psicologia:

Nuevas tecnologías de la información y documentación en psicología Francisco Manuel Tortosa, Cristina Civera, 2002 **Psicología de la educación virtual** César Coll Salvador, Carles Monereo, 2010-05-10

Psicología de la educación virtual versa sobre la educación y el aprendizaje en entornos virtuales al tiempo que se sitúa de forma clara y explícita en el ámbito de la psicología y más concretamente de la psicología de la educación. En el transcurso de las dos o tres últimas décadas ha habido una producción relativamente abundante tanto en castellano como en otras lenguas de libros que tratan temas relacionados con la educación y las tecnologías de la información y la comunicación TIC desde perspectivas epistemológicas teóricas y disciplinares diversas. Cuando se analiza en su conjunto puede constatararse que esta producción responde de forma mayoritaria a preocupaciones y planteamientos de tipo sociológico tecnológico o didáctico y que las aproximaciones y análisis psicológicos son más bien escasos. El objetivo de esta obra es contribuir a compensar esta carencia mediante la adopción de un punto de vista psicológico en el estudio de los procesos educativos que tienen lugar en entornos sustentados total o parcialmente en la utilización de tecnologías digitales de la información y la comunicación. La obra se estructura en cuatro partes. El impacto de las TIC sobre la educación y la psicología de la educación. Se centra en el estudio de los procesos de aprendizaje que tienen lugar como consecuencia de la participación de las personas en situaciones y actividades educativas caracterizadas por el uso de tecnologías digitales de la información y la comunicación. Factores y procesos psicológicos implicados en el aprendizaje virtual. Una mirada constructivista. Se tratan los tres vértices del triángulo interactivo: el aprendiz, el profesor y los contenidos del aprendizaje, así como sus interrelaciones. Entornos virtuales de enseñanza y aprendizaje.

Challenges and New Opportunities for Tourism in Inland Territories: Ecocultural Resources and Sustainable Initiatives Fernandes, Gonçalo Poeta, 2021-09-10. Inland territories are currently of great interest in the tourism industry based on their natural and cultural resources, the surroundings and valuing of natural spaces, local traditions and cultures, ways of life and the experiences of territories with authenticity. In this context, ecocultural resources are determining factors of development for the mobilization of economic and socio-cultural initiatives promoting tourism and generating conditions of sustainability in inland territories. They are spaces of opportunity maintaining resources and heritage with high preservation, enhancing new perceptions and forms of use, generating territorial cohesion, promoting self-esteem for local communities and providing diverse and differentiated tourist experiences. The involvement of the community is decisive in valuing the destination, understanding local ecocultural realities and developing the processes of preservation and service creation. It is considered a necessary approach for inclusion, protection and aggregating the ecological and cultural binomial as a determinant for deeper knowledge of territorial realities and their specificities. Thus, sustainability and participation are crucial for the long-term future of inland tourism activities with local governance assuming an important role in building tourism capacity, mobilizing resources and streamlining entrepreneurial initiatives.
