Numbers Their Occult Power And Mystic Virtues:

Numbers, Their Occult Power and Mystic Virtue William Wynn Westcott, 2023-01-30 Seven years have passed since this essay was written and the MSS pages have been lent to many friends and students of mystic lore and occult meanings It is only at the earnest request of these kindly critics that I have consented to publish this volume The contents are necessarily of a fragmentary character and have been collected from an immense number of sources the original matter has been intentionally reduced to the least possible quantity so as to obtain space for the inclusion of the utmost amount of ancient quaint and occult learning It is impossible to give even an approximate list of works which have been consulted direct quotations have been acknowledged in numerous instances and perhaps naturally many a statement might have been equally well quoted from the book of a contemporary author a medi val monk a Roman historian a Greek poet or a Hindoo Adept to give the credit to the modern author would not be fair to the ancient sage to refer the reader to a Sanskrit tome would be in most cases only loss of time and waste of paper My great difficulty has been to supply information mystic enough to match the ideal of the work and yet not so esoteric as to convey truths which Adepts have still concealed I must apologise for the barbarous appearance of foreign words but it was not found practicable to supply Sanskrit Coptic Chaldee and Greek type so the words have had to be transliterated Hebrew and Chaldee should of course be read from right to left and it was at first intended so to print them in their converted form but the appearance of Hebrew in English letters reversed was too grotesque ADNI is a representation of the Aleph dalet nun yod of Adonai but INDA would have been sheer barbarity in the case of Hebrew words I have often added the pronunciation The Secret Doctrine of H P Blavatsky a work of erudition containing a vast fund of archaic doctrine has supplied me with valuable quotations If any readers desire a deeper insight into the analogies between numbers and ideas I refer them in addition to the works of Eliphaz L vi Athanasius Kircher Godfrey Higgins Michael Maier and John Heydon I have quoted from each of these authorities and Thomas Taylor s theoretic Arithmetic has supplied me with a great part of the purely arithmetical notions of the Pythagoreans the elucidation of which was mainly due to him In conclusion I request my readers Aut perlege et recte intellige Aut abstine a censura Numbers: Their Occult Power and Mystic Virtues W.
