The World's Work, 1915 *The Iron Woman* Margaret Deland, 2020-06-27 *The Iron Woman* is a novel of manners set in the 19th-century fictional locale of Mercer, an Ohio River community that represents Pittsburgh, Pennsylvania. The novel tells the story of Mrs. Maitland, a leathery old widow who owns and operates an iron mill. Her devotion to a Puritanical work ethic alienates her son Blair, who though he stands to inherit the business, is headstrong and in love with Elizabeth Ferguson, a match Mrs. Maitland disapproves of.

Germes and governance Anne Marie Rafferty, Marguerite Dupree, Fay Bound Alberti, 2021-04-20 *Germes and governance* brings together leading historians, practitioners, and policy makers to consider the past, present, and future of hospital infection control. Combining historical case studies with practitioner experiences, this volume offers a new understanding of the emergence of theories of germ transmission and containment and how these theories played out in real-world environments, networks, and professional organisations. Exploring the historical context in which technologies like gloves were developed and popularised, as well as how relationships between communities and hospitals, doctors and nurses, and the emerging role of hospital bacteriologists have shaped infection control practices, the collection emphasises the diverse contexts in which ideas about germs, infection, and safety circulated. The volume also addresses the historical neglect of the critical role of nurses in the development and success of infection control measures.

The Sleep Room F.R. Tallis, 2021-11-15 When promising young psychiatrist James Richards is offered the job opportunity of a lifetime by the charismatic Dr. Hugh Maitland, he is thrilled. Setting off to take up his post at Wyldehope Hall in deepest Suffolk, Richardson doesn't look back. One of his tasks is to manage Maitland's most controversial projects: a pioneering therapy in which extremely disturbed patients are kept asleep for months. If this radically and potentially dangerous procedure is successful, it could mean professional glory for both doctors. As Richardson settles into his new life, he begins to sense something uncanny about the sleeping patients: six women forsaken by society. Why is Maitland unwilling to discuss their past lives? Why is the trainee nurse so on edge when she spends nights alone with them? And what can it mean when all the sleepers start dreaming at the same time? In this atmospheric reinvention of the ghost story, Richardson finds himself questioning everything he knows about the human mind as he
