Terry, 2017-06-19 *Clinical Research for the Doctor of Nursing Practice* Third Edition is a must have text focused on teaching students how to conduct research needed for their capstone project The Doctor of Nursing Practice Essentials: A New Model for Advanced Practice Nursing Mary Zaccagnini, Judith M. Pechacek, 2019-10-01 The Doctor of Nursing Practice Essentials A New Model for Advanced Practice Nursing continues to be the only complete textbook for all eight American Association of Colleges of Nursing AACN Essentials of Doctoral Education for Advanced Practice Nursing With DNP programs now found in every state climbing from 25 to over 300 in the past 13 years having a textbook dedicated to the DNP Essentials is imperative as faculty and students will use it as a template for future and existing programs The newly revised Fourth Edition features updates and revisions to all chapters and expands on information relating to the current and future changes in today's complex healthcare environment The text features the addition of new DNP project resources with supplemental case studies highlighting DNP projects and the impact of this work Every print copy of the text will include Navigate 2 Premier Access This Access includes interactive lectures competency mapping for DNP Essentials case studies assessment quizzes a syllabus discussion questions assignments and PowerPoint presentations Nursing in General Practice Barbara Stilwell, Richard Hobbs, 2021-10-11 Complexity theory is a collection of concepts ideas and perspectives developed largely in fields outside medicine It allows us to study health care delivery using the metaphor of an ecosystem rather than a machine This timely book explores the ways complexity theory may assist in the provision of clinical healthcare It explains the foundations of the theory behind complexity its place in clinical medicine and in the wider scientific context using examples of its application in current and potential future medical scenarios

Drawing on insights from diverse areas including ecology evolutionary theory and computer science it demonstrates the relevance of complexity to cardiology diabetes and mental health to consultation dynamics and decision support and to the delivery of other aspects of care through more informed use of health informatics The increasingly complex arena of clinical medicine requires new models on which to manage uncertainty recognise and value diversity and process information All clinicians and managers in primary and secondary care will find this book useful and engaging reading The fashionable drive for a narrowly defined evidence based practice is likely to accelerate trends which many of us fear a retreat from clinical intuition to defensive documentation from acumen to investigation from values based policy to techno managerialism The ideas addressed in this book written by those who are pioneering the application of complexity theory to clinical practice appear to provide a science based and rigorous defence against the simplistic thinking which has impelled such dangerous trends This is an important book it is timely and it is to be welcomed Marshall Marinker in the Foreword

LEARNING WITH ADULTS Leona M. English, Peter Mayo, 2012-12-25 This book is written at a time when our own field of adult education is under assault from a variety of capitalist and neoconservative forces pressuring us to turn away from the causes of criticality lifelong learning and education for freedom Rather than succumb to these pressures we have hope that our long term goals of education for life and living can and will be accomplished alongside professional and vocational education This book offers new insight into what is a very dark moment of our human civilization From the preface by Dr Carlos Alberto Torres Professor GSEIS Director Paulo Freire Institute University of California at Los Angeles The book offers decidedly critical and international perspectives on various aspects of adult education especially on state citizenship and neoliberal policies Critical in both content and method it is at the same time the part of the collective work needed to advance the Bel m call to action by furthering awareness and capacity in the field of adult education Dr Katarina Popovic Professor Universit t Duisburg Essen University of Belgrade DBB International In the midst of diminishing resources and growing inequalities English and Mayo provide an incisive and much needed critique of adult education in ways that highlight not only its historical and philosophical roots but also its major significance to the practice of democracy In a direct challenge to the neoliberal accountability craze Learning with Adults offers a rigorous political reading of the field one that systematically challenges oppressive educational policies

and practices while affirming an emancipatory vision of civic engagement Truly an informative treatise that sheds new light on the education of adults Dr Antonia Darder Professor Leavey Presidential Endowed Chair in Education Loyola Marymount University Los Angeles Leona English and Peter Mayo challenge hegemonic assumptions and ideas while offering a constructive alternative based on the principle of working with learners and not just for them Their analysis is accessible enough for newcomers to the field while the authors wide ranging coverage and radical approach provide refreshing and challenging messages for the most experienced adult educator Up to date genuinely international and passionately committed Learning with Adults is a great book Dr John Field Professor University of Stirling Cover design by Annemarie Mayo
