Nursing Care of the Childbearing Family Laurie Nehls Sherwen, Mary Ann Scoloveno, Carol Toussie-Weingarten, 1995 This contemporary text presents a treatment of childbearing content and an elaboration of the care delivery system including cultural aspects current research abstracts and delivery of maternity care in the community Organised according to phases of the childbearing cycle the second edition emphasises critical thinking and three kinds of decision making ethical diagnostic and therapeutic as well as the psychological social cultural and economic aspects of the childbearing family It retains the Case Study Care Plan format and includes an increased number of tables boxed highlighted information and illustrations Home Visiting Barbara Hanna Wasik, Donna M. Bryant, 2001 This Second Edition is a good source for those training to be home visitors in service home visitors supervisors and directors of home visiting programs serving a wide range of families Recent evaluations of home visiting are summarized and practical suggestions for evaluating local programs are also included This is an easy to read and essential resource for both beginning and experienced home visitors trainers supervisors of home visitors and directors of home visiting programs International Practice in Cardiothoracic Surgery Wu Ying-kai, Richard M. Peters, 2012-12-06 urgery has been impressive during the past two decades Surgeons from many countries have accumulated outstanding experiences which are both unique and varied With the aim of promoting international exchange of scientific and technical accomplishments in cardiothoracic surgery we began in 1982 to consult with a number of leading cardiothoracic surgeons about compiling a book that would permit them to present their expertise Through the untiring efforts of all the authors and sectional editors during the past three years International Practice in Cardiothoracic Surgery is now published both in an English language edition and in a Chinese language edition There are one hundred and eleven chapters in eight sections contributed by over a hundred authors from Brazil Canada China England France Germany Finland Japan New Zealand Sweden Switzerland and the United States of America This book is not intended to be a textbook but a compilation of current views and tech nics from cardiothoracic surgeons with unique experiences who have made significant con tributions in certain subjects No uniformity in format was requested A certain amount f overlapping and even conflicting ideas are purposely collected to express the interna tional character of the book We appreciate the warm support cooperation and hard work of all the authors trans lators sectional editors and secretarial workers in completing the book **Therapeutic Exercise for Children with Developmental Disabilities** Barbara H. Connolly, Patricia Montgomery, 2024-06-01 Therapeutic Exercise for Children With Developmental Disabilities has been expanded and updated to include everything a student or professional needs to know when working with children with

developmental disabilities Continuing the emphasis on evidence based practice from the previous editions this comprehensive Fourth Edition enhances critical thinking and evaluation skills Throughout the course of the text Drs Barbara H Connolly and Patricia C Montgomery present case studies of 5 children with various developmental disabilities to bring a problem solving approach to each individual chapter topic The case studies include 2 two children with cerebral palsy GMFCS Levels I and V a child with myelomeningocele a child with Down syndrome and a child with developmental coordination disorder and attention deficit hyperactivity disorder Each chapter s examination evaluation and intervention recommendations are accompanied by specific treatment objectives and therapeutic activities plus a companion website with 17 videos which contains 90 minutes of content to illustrate concepts Recent research and clinical recommendations as well as related references are also provided in each chapter This Fourth Edition utilizes the American Physical Therapy Association s Guide to Physical Therapist Practice 3 0 and the World Health Organization s International Classification of Functioning Disability and Health Children and Youth as its framework The focus of the chapters is on children s participation and empowerment rather than body function and structure Examples of new and updated topics in the Fourth Edition Practice in the NICU Early mobility strategies Communication strategies with children and families Aquatic therapy Upper extremity constraint induced therapy Mirror therapy Lower extremity treadmill training With helpful videos informative figures and compelling case studies Therapeutic Exercise for Children With Developmental Disabilities Fourth Edition is the perfect resource for both students and practicing clinicians

Therapeutic Exercise in Developmental Disabilities Barbara H. Connolly, Patricia Montgomery, Patricia C. Montgomery, 2005 Therapeutic Exercise in Developmental Disabilities Second Edition is a unique book for pediatric physical therapy the purpose of this groundbreaking book is to integrate theory assessment and treatment using functional outcomes and a problem solving approach This innovative book is written using a problem solving approach as opposed to specific intervention approaches the chapters integrate case studies of four children and the application of principles discussed throughout the book as they apply to the children the book opens with an overview of neural organization and movement which
