NNC Governing Board Resolution No. 1, Series of 2022

Adopting the National Policy on Nutrition in Emergencies, Tasking NNC Governing Board Member Agencies to Ensure the Efficient and Effective Implementation of the Policy, and Tasking the Nutrition Cluster to Formulate the Appropriate Advisories, Guidelines, and Other Materials to Disseminate and Implement the Policy

WHEREAS, emergencies and disasters disrupt the lives of populations affected, putting them at risk of developing various undesirable health and related conditions, including those that threaten the nutritional status of individuals especially the most vulnerable groups: infants, children, adolescents, pregnant women and breastfeeding mothers, older persons, persons with disabilities, people living with debilitating conditions, and indigenous peoples;

WHEREAS, the risk of deterioration in the nutritional status of the population likewise limits the achievement of the Philippine Plan of Action for Nutrition (PPAN) targets, Sustainable Development Goal (SDG) No. 2 (Zero Hunger) and other related SDGs;

WHEREAS, such a threat could be mitigated through the delivery of various nutrition-specific and nutrition-sensitive interventions, as well as related interventions, which are best identified and implemented through processes that allow the maximum participation of those affected;

WHEREAS, the delivery of quality nutrition-specific and related interventions could be facilitated through clear and practical quality standards;

WHEREAS, on 03 December 2009, the NNC Governing Board approved the Resolution No. 1 adopting the National Policy on Nutrition Management in Emergencies and Disasters;

WHEREAS, since the policy was adopted, the country has been adversely affected by emergencies, disasters, and worsening impacts of climate change, specifically, Typhoons Ondoy (2009), Sendong (2010), Pablo (2011), Yolanda (2013) and Odette (2021); Zamboanga Siege (2013); Bohol Earthquake (2013); Marawi City Siege (2017); Taal Volcano Eruption (2020); and the COVID-19 Pandemic (2020), through which more lessons have been learned along nutrition management in emergencies;

WHEREAS, the disaster risk reduction and management system in the Philippines has evolved significantly, which included the adoption of the National Disaster Response Plan that lays out the response protocols of all response clusters and the designation of National Nutrition Council as the Chair of the National Nutrition Cluster, a sub-cluster under the Health Quad Cluster, chaired by the Department of Health;

WHEREAS, in April 2018, the NNC Governing Board approved the Resolution No. 2 adopting the Strategic Plan on Nutrition in Emergencies (NIE) for 2017-2022;

WHEREAS, the Strategic Plan aims for a purposive action to address the gaps and enhance the benefit from positive lessons learned to contribute to the achievement of nutrition targets during emergencies and disasters;

Klein,2012-12-06 As is noted in the opening chapter of this volume nutrition and public health programs have been important throughout Latin America and the Caribbean for many years This is due to the spe cial concerns of those responsible for setting national policies the program experience and leadership in public health developed by the national governments and the stimulus and cooperation of the Pan American Health Organization PARO including its twelve associated centers which focus on research training and program development The need for a

coordinated hemisphere wide attack on malnutrition and other health problems was expressed clearly in the Ten Year Health Plan for the Americas ¹ This plan established specific targets for reducing the prevalence of the major nutritional diseases and other health problems for the decade 1971-1980 It was noted at that time that very few countries had formulated adequate comprehensive national food and nutrition policies and plans nor had they developed strategies for combating the nutritional deficiencies known to affect large numbers of people throughout the Region Following a review of the available data on a country by country basis in 1975 the PAHO Directing Council endorsed recommendations for formulating the necessary national policies and strategies for the intersectorial execution of food nutrition and health programs ² This report also summarized the available national data related to nutritional status existing programs such as food fortification and the human resources available for services as well as for research and education
