Elias Canetti and Social Theory Andrea Mubi Brighenti,2023-01-12 Elias Canetti is a key thinker in the trend towards the renewal of social theory for the 21st century He is increasingly being recognised in the social and political sciences for the seminal text *Crowds and Power* 1960 While this work can sometimes be criticised for its alleged anti historicity anti modernism fixation on death and a dark vision of humankind *Crowds and Power* can in fact be interpreted as a study and a critique of the mono dimensionality and the obsessiveness of power In Canetti s own words it is an attempt to find the weak

spot of power and ultimately an invitation to recognise and explore the endless richness of human transformations Elias Canetti and Social Theory argues that the alleged anti modernism of Canetti actually makes him more contemporary than many contemporary social political thinkers It deals with key concepts within socio political theory including commands increase resistance and commonality Each of these ideas is connected with real lived social realities making this book a compelling argument for Canetti s crucial relevance today
