The People and Politics of Latin America Mary Wilhelmine Williams, 1955 **Native Peoples, Politics, and Society in Contemporary Paraguay** Barbara A. Ganson, 2021-06-01

This unique collection of multidisciplinary essays explores recent developments in Paraguay over the course of the last thirty years since General Alfredo Stroessner fell from power in 1989. Stroessner's strong authoritarian legacy continues to exert an impact on Paraguay's political culture today where the conservative Colorado Party continues to dominate much of the political landscape in spite of the country having transitioned into a modern democracy. The essays in *Native Peoples, Politics, and Society in Contemporary Paraguay* provide new understandings of how Paraguay has become more integrated into the regional economy and societies of Latin America and changed in unexpected ways. The scholarship examines how the political change impacted Paraguayans especially its indigenous population and how the country adapted as it emerged from authoritarian traditions. Each contribution is exemplary in the scope and depth of its understanding of Paraguay especially its indigenous peoples, politics, women's rights, economy, and natural environment.

The People and Politics of Latin America ... New Edition Mary Wilhelmine WILLIAMS, 1938 *The Routledge International Handbook of Sociology and Christianity* Dennis Hiebert, 2023-10-18

The Routledge International Handbook of Sociology and Christianity examines the intersection of the sociology of religion, a long standing focus of sociology, as a discipline and Christianity, the world's largest religion. An internationally representative and thematically comprehensive collection, it analyzes both the sociology of Christianity and Christian approaches to sociology with attention to the Roman Catholic, Orthodox, and Protestant branches of Christianity. An authoritative state-of-the-art review of current research, it is organized into five inter-connected thematic sections considering the overlapping emergence of both the Christian religion and the social science, the conceptualization of and engagement with Christianity by sociological theory, the ways in which Christianity shapes and is shaped by various social institutions, the manner in which Christianity resists and promotes various forms of social change, and the identification, diagnosis, and correction of social problems by sociology and Christianity. This volume is an invaluable collection for scholars and advanced students with special appeal for those working in the fields of sociology and social theory as well as religious studies and theology. *The*

Political Economy of Latin America Peter Kingstone, 2018-03-09 This brief text offers an unbiased reflection on debates about neoliberalism and its alternatives in Latin America with an emphasis on the institutional puzzle that underlies the region's difficulties with democratization and development In addition to providing an overview of this key element of the Latin American political economy Peter Kingstone also advances the argument that both state led and market led solutions depend on effective institutions but little is known about how and why they emerge Kingstone offers a unique contribution by mapping out the problem of how to understand institutions why they are created and why Latin American ones limit democratic development This timely and thorough update includes A fresh discussion of the commodity boom in the region and the resulting Golden Era in Latin America The recent explosion of social policy innovation and concerns about the durability of social reform after the boom A discussion of the knowledge economy and the limits to economic growth with case studies of successful examples of fostering innovation
