People Power Grass Roots Politics And Race Relations:

People Power Judith N. DeSena, 1999 People Power explores the potential of community organizations to develop political consciousness among working class and poor people Judith N DeSena argues that participation in community organizations can empower residents to challenge government and corporations and attempt to influence the outcome of policy decisions regarding municipal services and the future of neighborhoods She contends that the people who participate in these organizations are transformed politically in many ways including their racial attitudes DeSena points out that involvement in community organizations challenges the participants stereotypical perceptions of race and ethnicity and may lead to fewer conflicts between cultures in urban locales Overall community organizations possess the potential to increase participation in the democratic process while easing common stress between members of the community and improving the lives of the people living in complex urban environments

Seeing Cities Change Jerome Krase, 2016-04-01 Cities have always been dynamic social environments for visual and otherwise symbolic competition between the groups who live and work within them In contemporary urban areas all sorts of diversity are simultaneously increased and concentrated chief amongst them in recent years being the ethnic and racial transformation produced by migration and the gentrification of once socially marginal areas of the city Seeing Cities Change demonstrates the utility of a visual approach and the study of ordinary streetscapes to document and analyze how the built environment reflects the changing cultural and class identities of neighborhood residents Discussing the manner in which these changes relate to issues of local and national identities and multiculturalism it presents studies of various cities on both sides of the Atlantic to show how global forces and the competition between urban residents in contested terrains is changing the faces of cities around the globe Blending together a variety of sources from scholarly and mass media this engaging volume focuses on the importance of seeing and in its consideration of questions of migration ethnicity diversity community identity class and culture will appeal to sociologists anthropologists and geographers with interests in visual methods and urban spaces

Coalition Building in the Anti-death Penalty Movement Sandra J. Jones, 2010-01-01 Coalition Building in the Anti Death Penalty Movement uses the concepts of the political process model of social movements to analyze the factors that shape the racial face of the anti death penalty movement Contests are found to emerge over mobilizing and framing strategies as activists react to the political opportunity structure in a manner that privileges moral arguments above the racial ones that would allow them to build a more racially diverse constituency

Race, Class, and Gentrification in Brooklyn Jerome Krase, Judith N. DeSena, 2016-05-12 In this book the authors revisit two iconic Brooklyn neighborhoods Crown Heights Prospect Lefferts Gardens and Greenpoint Williamsburg where they have been active scholars since the 1970s Krase and DeSena s comprehensive view from the street describes and analyses the neighborhoods decline and rise with a focus on race and social class They look closely at the strategies used to resist and promote neighborhood change and conclude with an analysis of the ways in which these

neighborhoods contribute to current images and trends in Brooklyn This book contributes to a better understanding of the elevated status of Brooklyn as a global city and destination place *The Gentrification and Inequality in Brooklyn* Judith DeSena, 2009-06-16 While most studies on gentrification focus almost exclusively on its causes and consequences through an examination of housing class conflict and the displacement of residents this book analyzes the process of gentrification Gentrification and Inequality in Brooklyn examines the ways in which the established working class and lower income residents of Greenpoint Brooklyn remain socially segregated from the incoming gentrifiers with both groups forming parallel cultures within the shared physical spaces of the community Desena broadens the typical analyses of gentrification to include the grass roots dynamics which create social class relations that lead to residential segregation created by social class relations Drawing upon areas traditionally under represented in urban sociology including families women children and local institutions other than housing this study explores the ways in which working class residents in the course of their everyday lives negotiate change in their neighborhood and dissimilarity with their new gentry neighbors Gentrification and Inequality in Brooklyn touches on issues familiar to anyone who has lived in a multi class or multi ethnic community while offering new perspectives on the ways that such communities develop and maintain the boundaries of social segregation **There Was Nothing There** Sara Martucci, 2024-05-21 There Was Nothing There Williamsburg The Gentrification of a Brooklyn Neighborhood explores the daily lived effects of gentrification for neighborhood residents those who are newcomers and those who have remained as Williamsburg transformed around them **The World in Brooklyn** Judith DeSena, Timothy Shortell, 2012-03-22 The World in Brooklyn Gentrification Immigration and Ethnic Politics in a Global City is a collection of scholarly papers which analyze demographic social political and economic trends that are occurring in Brooklyn Brooklyn as the context reflects global forces while also contributing to them The idea for this volume developed as the editors discovered a group of scholars from different disciplines and various universities studying Brooklyn Brooklyn has always been legendary and has more recently regained its stature as a much sought after place to live work and have fun Popular folklore has it that most U S residents trace their family origins to Brooklyn It is presently referred to as one of the hippest places in New York Thus this book is a collection of demographic ethnographic and comparative studies which focus on urban dynamics in Brooklyn The chapters investigate issues of social class urban development immigration race ethnicity and politics within the context of Brooklyn As a whole this book considers both theoretical and practical urban issues In most cases the scholarly perspective is on everyday life With this in mind there are also social justice concerns Issues of social segregation and attendant homogenization are brought to light Moreover social class and race advantages or disadvantages as part of urban processes are underscored through critiques of local policy decisions throughout the chapters A common thread is the assertion by contributors that planning the future of Brooklyn needs to include multi ethnic racial and economic groups those very residents who make up Brooklyn *The Palgrave Handbook of Urban Ethnography* Italo Pardo, Giuliana

B. Prato, 2017-11-14 These ethnographically based studies of diverse urban experiences across the world present cutting edge research and stimulate an empirically grounded theoretical reconceptualization The essays identify ethnography as a powerful tool for making sense of life in our rapidly changing complex cities They stress the point that while there is no need to fetishize fieldwork or to view it as an end in itself its unique value cannot be overstated These active engaged researchers have produced essays that avoid abstractions and generalities while engaging with the analytical complexities of ethnographic evidence Together they prove the great value of knowledge produced by long term fieldwork to mainstream academic debates and more broadly to society

Protecting One's Turf Judith DeSena, 2005-02-22 *Protecting One's Turf* is a qualitative study that both analyzes informal residential segregation and investigates the effects of racial segregation The focus of the study is Greenpoint a working class neighborhood in Brooklyn New York The book's first edition chronicled the community wide strategies employed to maintain a predominantly white community in Greenpoint The revised edition examines the community's continuing gentrification

A Fortress in Brooklyn Nathaniel Deutsch, Michael Casper, 2021-01-01 The epic story of Satmar Hasidic Williamsburg from the decline of New York to the gentrification of Brooklyn Groundbreaking To fully understand Satmar of course one has to be born into it But to understand how political prowess and real estate know how shaped the group's current iteration in Brooklyn it would be wise to start with this outstanding book Laura E Adkins LA Review of Books The Hasidic community in the Williamsburg section of Brooklyn is famously one of the most separatist intensely religious and politically savvy groups of people in the entire United States Less known is how the community survived in one of the toughest parts of New York City during an era of steep decline only to later resist and also participate in the unprecedented gentrification of the neighborhood Nathaniel Deutsch and Michael Casper unravel the fascinating history of how a group of determined Holocaust survivors encountered shaped and sometimes fiercely opposed the urban processes that transformed their gritty neighborhood from white flight and the construction of public housing to rising crime divestment of city services and ultimately extreme gentrification By showing how Williamsburg's Hasidim rejected assimilation while still undergoing distinctive forms of Americanization and racialization Deutsch and Casper present both a provocative counter history of American Jewry and a novel look at how race real estate and religion intersected in the creation of a quintessential and yet deeply misunderstood New York neighborhood

Walking in Cities Evrick Brown, Timothy Shortell, 2016 *Walking* connects the rhythms of urban life to the configuration of urban spaces As the contributors and editors show in *Walking in Cities* walking also reflects the systematic inequalities that order contemporary urban life *Walking* has different meanings because it can be a way of temporarily taking possession of urban space or it can make the relatively powerless more vulnerable to crime The essays in *Walking in Cities* explore how walking intersects with sociological dimensions such as gender race and ethnicity social class and power Various chapters explore the flâneuse or female urban drifter in Tehran's shopping malls Hispanic neighborhoods in New York San Diego and El Paso and the intra

neighborhood and inter class dynamics of gentrification in Greenpoint Brooklyn The essays in *Walking in Cities* provide important lessons about urban life

Community-based Organizations Robert Mark Silverman, 2004 A critical examination of the social capital debate which establishes a foundation for progressive reform in community development practice and local government In response to the ongoing debate over the role social capital plays in the creation and continuation of a healthy civic culture *Community Based Organizations in Contemporary Urban Society* studies the close relationship that social capital shares with local context social organization and institutional structure The book's timely analysis illuminates the institutional barriers currently affecting the mobilization of social capital and establishes a foundation for social and political reform in the future All components of capital formation including human financial and cultural capital are identified and considered as they relate to the community development process as well as how social capital relates to race class gender and religion in urban society *Community Based Organizations in Contemporary Urban Society* offers vital extensions to existing literature on social capital and allows the reader to consider this topic from multiple perspectives through its broad spectrum of interdisciplinary essays by sociologists political scientists and urban planners The essays discuss important steps in the mobilization of social capital as well as its role in microfinance programs community development corporations homeowners associations religious institutions and neighborhood associations Individual chapters present an array of theoretical arguments empirical analysis and applied case studies that are of interest to academics practitioners and activists in the community development field

COVID-19 in Brooklyn Jerome Krase, Judith DeSena, 2023-03-07 *COVID 19 in Brooklyn Everyday Life During a Pandemic* looks closely at the ways that the COVID 19 pandemic impacted the lives of ordinary people living in the super gentrified Brooklyn neighborhoods of Park Slope and Greenpoint Williamsburg where the authors hunkered down during the 2020 lockdown Putting their private lives into broader scientific and public contexts Krase and DeSena discuss a wide range of research methods and theories as well as print and internet media sources about the pandemic With words and images the scholar activist authors place their own personal experiences and those of their family and neighbors inside the broader context of global and national medical emergencies as well as related economic social and political unrest such as widespread unemployment the Black Lives Matter Movement and the contentious 2020 presidential election Using a distributive social justice perspective and examining their own privileges they discover and discuss the racial and economic inequities that affected the lives of other Brooklynites These disparities included public health measures and lack of access to basic necessities of urban living The book also addresses the cultural and economic shifts that took place at the start of the pandemic and contemplates how those forces will impact on future urban life asking what the new normal of business entertainment education housing and work will look like locally and globally This richly illustrated book offers an invaluable local study of the impact of the pandemic on ordinary people in Brooklyn As such it will be of great interest to students and researchers in the humanities and social

sciences The Changing Pattern of Black Politics in Britain Kalbir Shukra,1998 A look at the politics of race in Britain over the last 50 years **Democracy Is Awkward** Michael Rosino,2025-02-17 In uncertain times confronting pressing problems such as racial oppression and the environmental crisis requires everyday people to come together and wield political power for the greater good Yet as Michael Rosino shows progressive political organizations in the United States have frequently failed to achieve social change Why Rosino posits that it is because of the unwillingness of white progressives at the grassroots level to share power with progressives of color Using rich ethnographic data Rosino focuses on participants in a real grassroots progressive political party in the northeastern United States While the organization s goals included racial equity and the inclusion of people of color its membership and leadership remained disproportionately white and the group had mixed success in prioritizing and carrying out its racial justice agenda By highlighting the connections between racial inequality grassroots democracy and political participation Rosino weaves in the voices and experiences of party members and offers insights for building more robust and empowering spaces of grassroots democratic engagement **Grassroots and Coalitions** Michael Mitchell,David Covin,2013-09-06 The main focus of this volume is an exploration of the patterns of competition for political power at the state and local levels in American politics This volume looks at institutionalized patterns of black political power as they have evolved in the aftermath of the civil rights movement in the 1960s The editors argue that enough time has elapsed to warrant a new look at the circumstances in which black politics in America has played out Chapters include an examination of the ability of black candidates to win statewide elections with crucial white support an analysis of the impact of local political organizations in enhancing the chances of black candidates in winning local races a look at the messages of black pastors regarding solidarity with the Latino community and an investigation of the extent of the differences in the political participatory styles of poor blacks and poor whites The editors note that changes have taken place as black American politics has confronted new complexities A works in progress section explains how theories of racial violence can be used to analyze racial incidents in the United States Other essays include reflections on blacks in Brazil and in urban American politics *Sociological Abstracts* Leo P. Chall,2002 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers **Grassroots Warriors** Nancy A. Naples,2014-01-14 Who are the grassroots warriors on the front lines of the war on poverty Through in depth interviews Nancy Naples presents the voices of over sixty women African American Puerto Rican and white European American who have fought for social and economic justice in the low income neighborhoods of New York City and Philadelphia These women as community workers and activist mothers contribute vital and often unpaid services to their communities offering complex political perspectives and empowering others Naples reconceptualizes labor mothering and politics from the standpoint of women committed to

work and politically organize on behalf of low income urban communities Her analysis reveals significant legacies from past social movements and examines how gender ethnicity and class influence political consciousness and practice **Subject**
