Power, Protest and Participation Subrata K. Mitra,2021-09-05 This book first published in 1992 examines the attitudes of local elites the hinge between Indian state and rural society towards protest and participation in development illuminating arguments about the nature of the state as well as the development process It looks at the role of local elites in India both as the representatives of the state and of the rest of rural society and explains their importance in the country s development The book deals with the elites contribution to the credibility of the state and examines the strategies through which they manipulate the allocation of resources and influence the pace and direction of social change It contrasts the rural elites in two areas one more economically advanced than the other The elites in the first area were shown to be capable of combining institutional participation with radical protest whilst in the other they tended to rely on state channels to achieve reform The author concludes that despite the different settings both groups were informed active and responsive to political conditions This contrasts with the conventional view that local elites of the dominant castes oppress the lower ones by obstructing reforms for reasons of self interest **The Making Of Social Movements In Latin America** Arturo Escobar,2018-02-19 This book paying attention to the axes of identity strategy and democracy grew out of the authors shared and growing interest in contemporary social movements and the vast theoretical literature on these movements produced during the 1980s particularly in Latin America and Western Europe *People's War* Anthea Jeffery,2014-06-09 Twenty

years have passed since South Africans were being shot or hacked or burned to death in political conflict and the memory of the trauma has faded. Some 20 500 people were nevertheless killed between 1984 and 1994. The conventional wisdom is that they died at the hands of a state backed Third Force but the more accurate explanation is that they died as a result of the people's war the ANC unleashed. As the people's war accelerated from September 1984 intimidation and political killings rapidly accelerated. At the same time a remarkably effective propaganda campaign put the blame for violence on the National Party government and its alleged Inkatha surrogate. Sympathy for the ANC soared while its rivals suffered crippling losses in credibility and support. By 1993 the ANC was able to dominate the negotiating process as well as to control the undefeated South African police and army and bend them to its will. By mid 1994 it had trounced its rivals and taken over government. People's War shows the extraordinary success of this war in giving the ANC a virtual monopoly on power. It also shows in part at least the great cost at which this was achieved. Apart from the killings the terror and the destruction that marked the period from 1984 to 1994 the people's war set in motion forces that cannot easily be reversed. For violence cannot be turned off like a tap as the ANC suggested and neither can anarchy easily be converted into order.

Anthea Jeffery holds law degrees from the University of the Witwatersrand and from Cambridge and a doctorate in human rights law from the University of London. Her previous books include *The Natal Story* Sixteen years of conflict and *The Truth about the Truth Commission*. Both books have been acclaimed for their meticulous and objective approach and for breaking new ground on important and contentious issues.

Each essay in this now classic collection examines one key development concept from the environment to needs and progress to production. Each concept is reviewed from a historical and anthropological point of view with particular bias and intellectual flaws being highlighted. Overall the authors argue that we must bid farewell to the whole idea of Eurocentric development in order to liberate people's minds in both North and South and to mobilize for bold responses to the environmental and ethical challenges now confronting humanity. The result is an indispensable resource for scholars practitioners movements and students of development which invites us to recognize the tinted glasses we put on whenever we participate in the development discourse.

Fractured Militancy Marcel Paret, 2022-02-15 Drawing on extensive ethnographic fieldwork and interviews with activists Fractured Militancy tells the story of postapartheid South Africa from the perspective of Johannesburg's impoverished urban Black neighborhoods Nearly three decades after South Africa's transition from apartheid to democracy widespread protests and xenophobic attacks suggest that not all is well in the once celebrated rainbow nation Marcel Paret traces rising protests back to the process of democratization and racial inclusion This process dangled the possibility of change but preserved racial inequality and economic insecurity prompting residents to use militant protests to express their deep sense of betrayal and to demand recognition and community development Underscoring remarkable parallels to movements such as Black Lives Matter in the United States this account attests to an ongoing struggle for Black liberation in the wake of formal racial inclusion Rather

than unified resistance however class struggles within the process of racial inclusion produced a fractured militancy
