People's Economy Masaaki Satake,2003 **Reimagining Development in Southeast Asia** Jose Monfred C.

Sy,Ananeza P. Aban,2025-03-15 This volume consolidates chapters from across Southeast Asia as a means of discussing alternative development pathways It presents radical re imaginings of how development might look considered alongside the growing disillusionment over mainstream development models In suggesting alternative models of development it reframes participatory processes from the developing world discussing practices of decolonization anti capitalism plurality anti racism effacing patriarchy and ecological sustainability designed and executed by grassroot communities and civil society organisations CSOs The grassroots and social movement paradigms highlighted in this collection seek to challenge and change the dominant model of development instituted in ASEAN which have largely failed in meaningfully addressing the issues faced by different sectors That the book project springs from an engagement between scholars and on the ground practitioners means that several chapters combine reflective case based viewpoints To this end the book is relevant to scholars students and practitioners working in areas related to Southeast Asian politics economy and culture *Philippine Politics* Lynn White III,2014-12-17 Philippine political history especially in the twentieth century challenges the image of democratic evolution as serving the people and does so in ways that reveal inadequately explored aspects of many democracies In the first decades of the twenty first century the Philippines has nonetheless shown gradual socioeconomic progress This book provides an interpretive overview of Philippine politics and takes full account of the importance of patriotic Philippine factors in making decisions about future political policies It analyses whether regional and local politics have more importance than national politics in the Philippines Discussing cultural traditions of patronism it also examines how clan feuds localize the state and create strong local policies These conflicts in turn make regional and family run polities collectively stronger than the central state institution The book goes on to explore elections in the Philippines and in particular the ways in which politicians win democratic elections the institutionalized role of public money in this process and the role that media plays Offering a new interpretive overview of Philippine progress over many decades the author notes recent economic and political changes during the current century while also trying to advance ideas that might prove useful to Filipinos Presenting an in depth analysis of the problems and possibilities of politics and society in the Philippines the book will be of interest to those researching Southeast Asian Politics Political History and Asian Society and Culture *Political Booms* Lynn T. White,2009 Why have Taiwan rich parts of China and Thailand boomed famously while the Philippines has long remained stagnant both economically and politically Do booms abet democracy Does the rise of middle classes promise future liberalization Why has Philippine democracy brought no boom and barely served the Filipino people This book unlike previous books shows that both the roots and results of growth are largely political not just economic Specifically it pays attention to local not just national power networks that caused or prevented growth in the aforementioned countries Violence

has been common in these politics along with money Elections have contributed to socio political problems that are also obvious in Leninist or junta regimes because elections are surprisingly easy to buy with corrupt money from government contracts Liberals should pay more serious theoretical attention to the effects of money on justice and Western political science should focus more clearly on the ways non state local power affects elections By considering the role of local money and power above all from small and medium sized firms that emerged after agrarian reforms on elections and justice this book asks democrats squarely to face the extent to which electoral procedures have failed to help ordinary citizens Students and scholars of Asia will all need this book as will students of the West whose methods have become parochial

Development Plan, 1984-1987 Philippines. National Economic and Development Authority,1984 **Liberation Theology in the Philippines** Kathleen Nadeau,2001-10-30 Liberation Theology in the Philippines Faith in a Revolution studies the interrelationship of international development policies and local social and economic structures in the Philippines This ethnography demonstrates that the application of conventional development paradigms to the situation overlooks the human suffering and displacement experienced by the people for whom the policies are supposed to help By contrast the Basic Ecclesial Community BEC movement offers an alternative strategy for development that aims to build a more just and community oriented society while promoting sustainable development The study begins with an historical analysis of the relationship between liberation theology the Catholic Church and the nationalist struggle The remaining chapters look at the real experiences of people living and working in the BECs as they struggle against some of the negative impacts of traditional approaches to development In addition the author illustrates how BECs can fail when environmental and social factors clash with a community s attempts at development and highlights the theology and religious aspects of the BEC movement This unique contribution to the study of liberation theology and development will be of interest to scholars students and professionals working with development agencies and religious organizations **The State and the Advocate** Teresita

Cruz-del Rosario,2014-07-11 This book seeks to demonstrate the role of public policy in support of equitable and inclusive development The achievement of this overarching goal rests on an assumption that development does not happen by chance or by accident but rather through the deliberate application of analytical tools which public policy is able to provide Set within an Asian context the book emphasizes the role of public policy in reducing poverty eliminating deprivation promoting equity and ensuring social justice The book likewise aims to provide an argument for the developmental role of the state one which has been the subject of a long standing debate among development scholars In addition the book accounts for the role of civil society organizations particularly their involvement in multi stakeholder participation Through different case studies this book explains the outcome of public policy decisions as combinations of efforts among government and civil society actors to ensure the creation of the most optimal public good Finally the book takes a comparative perspective i e there are cases that directly or indirectly implicate the regional character of public policies that result in the creation and distribution of regional public goods *American Studies* Janice A. Radway,Kevin Gaines,Barry Shank,Penny Von Eschen,2009-03-09
