

The background of the slide features a close-up, slightly blurred photograph of a stack of old, thick books with worn spines. In the foreground, there are several sheets of paper, some of which appear to be old photographs or documents with dark, indistinct markings. The lighting is soft and focused on the books, creating a sense of depth and history.

and entailed a revision of the traditional relations between literary history and general history. Combining close textual analysis with wide ranging intellectual history this volume both revises the standard story of the history of literary criticism and illuminates a central feature of the cultural history of twentieth century Britain. *The Cambridge History of Literary Criticism: Volume 9, Twentieth-Century Historical, Philosophical and Psychological Perspectives* Christa Knellwolf, Christopher Norris, Jessica Osborn, 1989. This ninth volume in *The Cambridge History of Literary Criticism* presents a wide ranging survey of developments in literary criticism and theory during the last century. Drawing on the combined expertise of a large team of specialist scholars it offers an authoritative account of the various movements of thought that have made the late twentieth century such a richly productive period in the history of criticism. The aim has been to cover developments which have had greatest impact on the academic study of literature along with background chapters that place those movements in a broader intellectual national and socio cultural perspective. In comparison with Volumes Seven and Eight also devoted to twentieth century developments there is marked emphasis on the rethinking of historical and philosophical approaches which have emerged especially during the past two decades as among the most challenging areas of debate.

The Cambridge Introduction to William Wordsworth Emma Mason, 2010-08-19. William Wordsworth is the most influential of the Romantic poets and remains widely popular even though his work is more complex and more engaged with the political social and religious upheavals of his time than his reputation as a nature poet might suggest. Outlining a series of contexts biographical historical and literary as well as critical approaches to Wordsworth this Introduction offers students ways to understand and enjoy Wordsworth's poetry and his role in the development of Romanticism in Britain. Emma Mason offers a completely up to date summary of criticism on Wordsworth from the Romantics to the present and an annotated guide to further reading. With definitions of technical terms and close readings of individual poems Wordsworth's experiments with form are fully explained. This concise book is the ideal starting point for studying *Lyrical Ballads*, *The Prelude* and the major poems as well as Wordsworth's lesser known writings.

Modernist Short Fiction by Women Claire Drewery,2016-04-15 Taking on the neglected issue of the short story s relationship to literary Modernism Claire Drewery examines works by Katherine Mansfield Dorothy Richardson May Sinclair and Virginia Woolf Drewery argues that the short story as a genre is preoccupied with transgressing boundaries and thus offers an ideal platform from which to examine the Modernist fascination with the liminal Embodying both liberation and restriction liminal spaces on the one hand enable challenges to traditional cultural and personal identities while on the other hand they entail the inevitable negative consequences of occupying the position of the outsider marginality psychosis and death Mansfield Richardson Sinclair and Woolf all exploit this paradox in their short fiction which typically explores literal and psychological borderline states that are resistant to rational analysis Thus their short stories offered these authors an opportunity to represent the borders of unconsciousness and to articulate meaning while also conveying a sense of that which is unsayable Through their concern with liminality Drewery shows these writers contribute significantly to the Modernist aesthetic that interrogates identity the construction of the self and the relationship between the individual and society **Fair Liberty Was All His Cry** A. Norman Jeffares,1967-06-18 **Language, Truth, and Literature** Richard Gaskin,2013-04-18 Richard Gaskin offers an original defence of literary humanism according to which works of imaginative literature have an objective meaning which is fixed at the time of production and not subject to individual readers responses He shows that the appreciation of literature is a cognitive activity fully on a par with scientific investigation **Reading**
