*The Convergence of the Fundamental Rights Protection in Europe* Rainer Arnold, 2016-04-05 The book gives insight into the structures and developments of the fundamental rights protection in Europe which is effective at the levels of the national Constitutions the European Convention of Human Rights and for the EU member States of the EU Fundamental Rights Charter The contributions of renowned academics from various European countries demonstrate the functional interconnection of these protection systems which result in an increasing convergence Basic questions are reflected such as human dignity as foundation of fundamental rights or positive action as a specific form of equality as well as the concept of rights convergence In this latter contribution the forms of direct reception of a different legal order and of the functional transfer of principles and concepts are analyzed Particular reference is made to the EU Charter the United Kingdom Human Rights Act as well as to France and Germany It becomes obvious how important interpretation is for the harmonization of national and conventional fundamental rights protection Traditional institutional approaches like the dualist

transformation concept in Germany are functionally set aside in the harmonization process through constitutional interpretation Specific studies are dedicated to the field of the EU Fundamental Rights Charter and to the European impacts on the national fundamental rights protection in selected countries such as the new democracies Poland Romania and Kosovo as well as more traditional systems such as Spain Italy the Nordic countries or Turkey

**Today's Priorities in Mental Health** S.H. Fine,R. Knell,T.Y. Lin,2012-12-06 Two themes seem to emerge repeatedly when reading through this volume One is consensus and the other is search There was a strong consensus during the Congress that children and families were the major and foremost concern of all present regardless of their geographic origin or professional background This concern was often expressed in terms of commitment to or as goal for the international mental health movement for the years to come The second theme search represents an effort to translate this concern into activities search for concrete immediate goals for ways and means of translating into actual programs and projects for interested people to carry on the work and better ways to train them to do the work well for ways to obtain support and lastly search for ways of coordinating efforts of people in different parts of the world All these and other matters are taken up in the discussions in this volume The complexity of problems encountered in a rapidly changing world and the diversity of resources available in different parts of the world make the task of searching difficult and sometimes confusing In spite of the earnest efforts made the results may be inconclusive and some of those proposed can be regarded only as hypotheses or ideas for experimentation

Genethics David Heyd,2023-04-28 Unprecedented advances in medicine genetic engineering and demographic forecasting raise new questions that strain the categories and assumptions of traditional ethical theories Heyd's approach resolves many paradoxes in intergenerational justice while offering a major test case for the profound problems of the limits of ethics and the nature of value This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1992

**The Rights of the Child and the Changing Image of Childhood** Philip E. Veerman,2021-11-01 In this book Philip E Veerman presents and discusses milestones in the evolution of children's rights as well as the work of a number of important pioneers in this field in order to examine whether the concept of childhood has changed in our century With Samuel Shye's Systemic Quality of Life Model as a conceptual framework and uniform standard more than forty Declarations and Conventions are analysed and compared Veerman thus unfolds an exciting picture of the changing image of childhood starting at the beginning of this century and culminating in the United Nations Convention on the Rights of the Child of 1989 and the World Summit for Children of 1990 Finally the author proposes together with Samuel Shye a Declaration on the Rights of the Child based on the Systemic Quality of Life Model All the important Declarations and Conventions are reprinted as appendices This makes Veerman's study a complete and up to date textbook on children's right

Dr Veerman is the coordinator of the Israel Section of Defence for Children International DCI and Fellow of the Youth Policy Center of Haifa University

*Pilgrims in Medicine: Conscience, Legalism and Human Rights* Thomas Faunce, 2005-02-01

This arrestingly novel work develops a normative synthesis of medical humanities virtue ethics medical ethics health law and human rights It presents an ambitious complex and coherent argument for the reconceptualisation of the doctor patient relationship and its regulation utilising approaches often thought of as being separate if not opposed virtue based ethics and universal human rights The case is argued gracefully with moderation but also with respect for opposing positions The book's analysis of the foundational professional virtue of therapeutic loyalty is an original departure from the traditional discourse of patient autonomy and the ethical and legal duties of the medical practitioner The central argument is not merely presented as bookends in the introduction and conclusion It is cogently represented in each chapter and section and measured against the material considered A remarkable feature is the use of aptly selected canonical literature to inform the argument These references run from Hesse's *The Glass Bead Game* in the abstract to Joyce's *Ulysses* in the conclusion They include excerpts from and discussion about Bergman Borges Boswell Tolstoy de Beauvoir Chekhov Dostoevsky Samuel Johnson Aristotle Orwell Osler Chaucer Schweitzer Shakespeare Thorwalds Kafka and William Carlos Williams Such references are used not merely as an artistic and decorative leitmotif but become a critical narrative element and another complex and rich layer to this work The breadth and quality of the references are testimony to the author's clear understanding of the modern law and literature movement This work provides the basis of a medical school course As many medical educators as possible should also be encouraged to read this work for the insights it will give them into using their own personal life narratives and those of their patients to inform their decision making process This thesis will also be of value to the judiciary whose members are often called upon to make normatively difficult judgments about medical care and medical rules The human rights material leads to a hopeful view of an international movement toward a universal synthesis between medical ethics and human rights in all doctor patient relationships

Preventing Prenatal Harm D. Mathieu,E. Haavi Morreim,2007-08-26 The issues explored in this book have unfortunately come to be known as maternal fetal conflicts The phrase is unsatisfactory because it is misleading It places the emphasis on the well being of the fetus instead of on the born child who will bear the burden of any harm done prenatally it assumes a conflict between a pregnant women and her offspring while the issue is usually more complex and more broadly based and it incorrectly implies that all pregnant women are appropriately regarded as mothers For these reasons I have chosen to avoid the phrase matern fetal conflict altogether and will instead speak in terms of preventable prenatal harm I mention this at the outset for those of you familiar with maternal fetal conflicts who might be wondering if I am addressing the same issues Yes But I am trying to look at them in a new and I hope more fruitful way I would like to thank the other participants in the Hastings Center s maternal fetal project especially those who disageed with me for being so thought provoking And I owe a lasting debt of gratitude to Henry Ruth and Allen Buchanan for their invaluable counsel **Quasi Person** Pnina

Lifshitz-Aviram,2024-02-09 This book delves into the controversial subject of late term abortions particularly those occurring after 24 weeks of gestation It emphasizes that the abortion debate is multifaceted involving ethical legal medical and philosophical aspects Different countries have diverse policies on abortion from strict prohibitions to more permissive approaches Recent legal developments in the United States exemplified by the Dobbs v Jackson Women s Health Organization case overturning Roe v Wade have stirred significant legal political and public upheaval surrounding abortion rights Advancements in medical technology have enabled early detection of fetal defects forcing expectant mothers to make complex decisions regarding continuing a pregnancy with potential health challenges for the child or opting for termination The book introduces the concept of viewing the fetus as a quasi person with the right to be born and enjoy good health especially after the 24th week of pregnancy It aims to strike a balance between women s autonomy and fetal rights considering advances in fetal therapy Employing a multidisciplinary approach drawing insights from law philosophy ethics medicine psychology and public policy the book seeks to reconcile the rights of women and fetuses It unequivocally supports protecting the right to life for viable fetuses justifying this stance through historical context advancements in fetal therapy and ethical considerations related to women s autonomy and fetal rights In summary this book provides a thorough examination of abortions performed after 24 weeks of gestation exploring the ethical legal medical and philosophical dimensions while advocating for the preservation of the right to life for viable fetuses Preventing Prenatal Harm Deborah Mathieu,1995-11-01 Arguing that the state must meet strict conditions to justify interfering in at risk pregnancies Deborah Mathieu examines the legal and ethical concerns that arise when governments mandate the behavior of pregnant women She explores both the pregnant woman s right to decide what happens to her body and the future child s right to be protected

from avoidable damage Mathieu addresses such topics as reproductive hazards in the workplace mandated fetal therapy forced lifestyle changes for pregnant women and the future child's right to sue for lack of prenatal care The controversy raises key issues of rights duties and the scope of legitimate state action thus posing fundamental challenges to the fields of medicine biomedical ethics law and public policy This edition has been completely updated and expanded Mathieu presents new arguments for acceptable types of state intervention and provides specific examples This edition also incorporates recent court decisions especially cases involving substance abuse The book includes both an updated bibliography and an updated reference list of relevant court cases

**Implementing the Convention on the Rights of the Child** James R. Himes, 2023-08-28 This book considers one of the main umbrella articles of the Convention on the Rights of the Child Article 4 dealing with the concept of the obligations of the States Parties to meet their commitments to the maximum extent of their available resources and where needed within the framework of international cooperation The importance is emphasized of a broad interpretation of societal resources going well beyond the severely limited finances of governments in most developing countries and extending both to the international official and non governmental levels and to the expanding civil societies of these nations Resources are broadly defined to include human technological cultural and organizational capabilities as well as conventional economic resources The thematic chapters give many examples of how such resources can be effectively mobilized for children including the areas of education health nutrition and child labour

**The Oxford Handbook of Children and the Law**, 2020-02-07 The Oxford Handbook of Children and the Law presents cutting edge scholarship on a broad range of topics covering the life course of humans from before birth to adulthood by leading scholars in law medicine social work sociology education and philosophy and by practitioners in law and medicine An international collection of authors presents and analyzes the law and science pertaining to reproduction prenatal life including fetal exposure to toxic substances and abortion parentage including biology based rights background checks on birth parents adoption the status of gamete donors and surrogacy infant development and vulnerability child maltreatment including corporal punishment and religious defences to abuse and neglect child protection policy and systems foster care child custody disputes between parents or between parents and other caregivers schooling including financing resegregation religious expression in public schools at risk students special education regulation of private schools and homeschooling delinquency minimum age laws and child advocacy Most chapters follow a format wherein they first describe the most debated or dynamic issues in each topical area then explain in depth the law and or science pertaining to the author's particular focus and finally offer arguments and recommendations as to law and policy in that area The normative component aims to advance discussions and debates in vital areas of contemporary child welfare law and policy The Handbook is an essential resource for scholars and professionals interested in the intersection of children and the law

*EU Compendium - Fundamental Rights and Private Law* Christoph Busch, Hans Schulte-Nölke, 2010-12-23 This compendium provides an introduction to the intricate interplay of

fundamental rights and private law It identifies areas of commercial and civil law where fundamental rights from different sources play a key role in the interpretation and application of private law rules In addition it offers a collection of case law examples from across the EU which illustrate differences and commonalities regarding the influence of fundamental rights on civil and commercial litigation It is thus well suited for the training of judges and as a source of inspiration for national legislators Contributors to the study co ordinated by the European Legal Studies Institute at University of Osnabr ck with the support of the European Commission s Fundamental Rights and Citizenship Programme include high ranking judges as well as young researchers from across the EU As the Commissioner for Justice Fundamental Rights and Citizenship I can only praise the pertinent purpose and the methodology of the compendium which underlines the concrete approach the authors adopted Viviane Reding Vice President of the European Commission     Redefining Human Life Robert H Blank,2019-08-16 This book examines critical social policy issues emerging from recent developments in human reproductive technology Although considerable attention has been focused on the ethical dimensions of these developments the policy dimension has largely been obscured Dr Blank now provides a far ranging overview of the cumulative impact on society of a wide array of new reproductive technologies and the social patterns that accompany or precede their application The book begins with a description of the current context of reproductive decision making Dr Blank demonstrates how emerging technologies are producing complex and intense social policy concerns then reviews in detail human reproductive technologies and illustrates the significant consequences of technological innovations for political and legal concepts of rights and obligations Examples include recent cases involving torts for wrongful life He analyzes possible alterations in the moral and legal status of the fetus in light of apparent technological and social policy trends and presents a paradigm of fetal rights that reflects these changes A final case is made for a comprehensive assessment of reproductive technologies as well as for the urgent need to refine concepts of human life that in the past have been taken for granted but that now are being challenged     **Hearings, Reports and Prints of the House Committee on Interstate and Foreign Commerce** United States.
