Wronging Rights? Aakash Singh Rathore,Alex

Cistelecan,2012-03-12 This book brings together two of the most powerful and relevant philosophical critiques of human rights the post colonialist and the post Althusserian its balanced internal structure not just throwing these two critiques together but actually forcing them to enter into confrontation and dialogue The book is organised in three parts at each end the post colonialist and the post Althusserian critiques are represented by some of their main thinkers Ratna Kapur G C Spivak Upendra Baxi Slavoj i ek Jacques Ranci re while in the middle an American intermezzo Richard Rorty Wendy Brown functions as a genuine Derridian supplement always already contaminating the purity of the two theoretical schools preventing their enclosure and hence fuelling and complicating further their mutual confrontation As in any authentic dialogue the introduction and the conclusion each claim victory for one of the sides by changing the very terms and rules of the dialogue picturing it as a confrontation between emancipatory universalism and inefficient particularism from the perspective of the post Althusserians or as a split between hypocrisy and truth from the perspective of the post colonialists

Commanding Right and Forbidding Wrong in Islamic Thought

Michael Cook,2001-01-25 What kind of duty do we have to try to stop other people doing wrong The question is intelligible in just about any culture but few of them seek to answer it in a rigorous fashion The most striking exception is found in the Islamic tradition where commanding right and forbidding wrong is a central moral tenet already mentioned in the Koran As an historian of Islam whose research has ranged widely over space and time Michael Cook is well placed to interpret this complex subject His book represents the first

sustained attempt to map the history of Islamic reflection on this obligation. It covers the origins of Muslim thinking about forbidding wrong, the relevant doctrinal developments over the centuries, and its significance in Sunni and Shi'ite thought today. In this way, the book contributes to the understanding of Islamic thought, its relevance to contemporary Islamic politics and ideology, and raises fundamental questions for the comparative study of ethics.

Hope and Joy in Education Isabel Nuñez, Jason Goulah, 2021. Students, parents, and educators at all levels are increasingly frustrated, demoralized, burned out, and discontented with education and schooling today. At no previous time has it been more necessary to revitalize hope in the promise of education or to reestablish joy in teaching and learning than the current moment. In this timely and inspirational volume, authors from diverse disciplines consider and affirm the many places across curriculum and context where hope and joy are or can be strong and vibrant. Drawing on the life-affirming ideals of renowned education philosopher and school founder Daisaku Ikeda, *Hope and Joy in Education* will reenergize educational research, theory, and practice. Featuring contributions from such luminaries as Theodore Berry, Cynthia Dillard, Walter Gershon, Francine Huckaby, Johnny Lupinacci, and Anita Patterson, this book reminds readers that the classroom is still a magical space brimming with the brilliant and creative energy of young people. This is a necessary text at a necessary time if we are to revitalize hope in the promise of education. From the Foreword by Cynthia B. Dillard, University of Georgia. A beacon of light toward desirable collective futures in a world of increasing complexity, uncertainty, and vulnerability. Ming Fang He, Georgia Southern University. These essays are just what we need in these turbulent, uncertain times: a thoughtful focus on hope and joy as the path to educating for a more just, equitable, relational, and peaceful state of being. Denise Taliaferro Baszile, Miami University. This insightful book urges educators to center hope and joy in our work, not by turning away from the despair of the moment but by fostering dialogue, seeking connection, and always remembering that the true aim of education for teachers and students alike is to become more fully human. Gregory Michie, Chicago public school teacher.

Forbidding Wrong in Islam M. A. Cook, Michael Cook, 2003-05-27. Michael Cook's magisterial study in Islamic ethics, *Commanding Right and Forbidding Wrong in Islamic Thought*, was published to much acclaim in 2001. It was described by one reviewer as a masterpiece. In that book, the author reflected on the Islamic injunction incumbent on every Muslim to forbid wrongdoing. The present book is a short, accessible survey of the same material. Using anecdotes and stories from Islamic sources to illustrate the argument, Cook unravels the complexities of the subject. Moving backwards and forwards through time, he demonstrates how the past informs the present. By the end, the reader will be familiar with a colourful array of characters from Islamic history, ranging from the celebrated thinker Ghazzali to the caliph Harun al-Rashid to the Ayatollah Khomeini. The book educates and entertains at its heart; however, it is an important message about the Islamic tradition, its values, and the relevance of those values today.
