Rights And Reconciliation U N Strategies In El Salvador:

Rights and Reconciliation Ian Johnstone,1995-01-01 Brief monograph written by UN official argues using El Salvador as example that UN peacekeeping missions can balance goals of peace and justice Well researched includes dozens of original interviews Handbook of Latin American Studies v 57 *Seeking Peace in El Salvador* D. Negroponte,2012-01-17 The resolution of the civil war in El Salvador coincided with the end of the Cold War After two years of negotiations and a decade long effort to implement the peace accords this work examines how peace was made and whether it has endured

Keeping the Peace Michael W. Doyle,Ian Johnstone,Robert C. Orr,1997-08-07 Keeping the Peace explores the new multidimensional role that the United Nations has played in peacemaking peacekeeping and peacebuilding over the last few years By examining the paradigm setting cases of Cambodia and El Salvador and drawing lessons from these UN success stories the book seeks to point the way toward more effective ways for the international community to address conflict in the post Cold War era This book is especially timely given its focus on multidimensional peace operations the most likely role for the UN in coming years *Peacebuilding as Politics* Elizabeth M. Cousens,Chetan Kumar,Karin Wermester,2001 Examines successes and failures of large scale interventions to build peace in El Salvador Cambodia Haiti Somalia and Bosnia and Herzegovina Sheds lights on the unique conditions for and constraints on peacebuilding in each country and examines the quality and coherence of international responses Cousens is director of research at the International Peace Academy Kumar is affiliated with the Office of the Special Representative of the UN Secretary General for Children and Armed Conflict Annotation copyrighted by Book News Inc Portland OR **Moral Victories** Susan D. Burgerman,2018-10-18 In the 1980s security forces and paramilitary organizations killed abducted or tortured an estimated 80 000 Salvadoran citizens During this period the government of Guatemala was responsible for the death or disappearance of more than 100 000 civilians many of them indigenous peasants But such abuses were curtailed when peace talks largely motivated by international human rights activism led to interventions by United Nations observers who raised the degree of respect for human rights within each nation These two cases are emblematic of many more in recent world events Susan Burgerman here explains how international pressure can be effective in changing oppressive state behavior Moral Victories includes a detailed comparative study of human rights abuses in El Salvador and Guatemala from 1980 to 1996 as well as a brief focused examination of the situation in Cambodia from 1975 to 1992 Moral Victories lays out the mechanisms by which the United Nations and transnational human rights activists have intervened in civil wars and successfully linked international peace and security with the promotion of human rights The meaning of state sovereignty defense of which had previously limited governments to unenforceable statements of opprobrium against violator nations has changed over the past two decades to allow for more aggressive action in support of international moral standards As a result human rights have gained increasing importance in the arena of world politics While researching this book in Guatemala and El Salvador Burgerman interviewed

government officials negotiators analysts and human rights workers and accompanied UN observer teams in their travels through rainforests and mountainous terrain The Oxford Handbook of United Nations Peacekeeping Operations Joachim Koops, Norrie MacQueen, Thierry Tardy, Paul D. Williams, 2015-07-09 The Oxford Handbook on United Nations Peacekeeping Operations presents an innovative authoritative and accessible examination and critique of the United Nations peacekeeping operations Since the late 1940s but particularly since the end of the cold war peacekeeping has been a central part of the core activities of the United Nations and a major process in global security governance and the management of international relations in general The volume will present a chronological analysis designed to provide a comprehensive perspective that highlights the evolution of UN peacekeeping and offers a detailed picture of how the decisions of UN bureaucrats and national governments on the set up and design of particular UN missions were and remain influenced by the impact of preceding operations The volume will bring together leading scholars and senior practitioners in order to provide overviews and analyses of all 65 peacekeeping operations that have been carried out by the United Nations since 1948 As with all Oxford Handbooks the volume will be agenda setting in importance providing the authoritative point of reference for all those working throughout international relations and beyond Constructing Peace Lisa A. Hall MacLeod, 2006-01-01 Civil conflict remains one of the most significant threats to peace and security in the contemporary era In Constructing Peace Lisa MacLeod offers the first ever application of Finnemore and Sikkink's model of norm construction to the study of peace building and conflict resolution by comparing operations in El Salvador and Cambodia **The UN Security Council and the Politics of International Authority** , **Making War and Building Peace** Michael W. Doyle, Nicholas Sambanis, 2011-04-22 Making War and Building Peace examines how well United Nations peacekeeping missions work after civil war Statistically analyzing all civil wars since 1945 the book compares peace processes that had UN involvement to those that didn't Michael Doyle and Nicholas Sambanis argue that each mission must be designed to fit the conflict with the right authority and adequate resources UN missions can be effective by supporting new actors committed to the peace building governing institutions and monitoring and policing implementation of peace settlements But the UN is not good at intervening in ongoing wars If the conflict is controlled by spoilers or if the parties are not ready to make peace the UN cannot play an effective enforcement role It can however offer its technical expertise in multidimensional peacekeeping operations that follow enforcement missions undertaken by states or regional organizations such as NATO Finding that UN missions are most effective in the first few years after the end of war and that economic development is the best way to decrease the risk of new fighting in the long run the authors also argue that the UN's role in launching development projects after civil war should be expanded **Decision-making in the UN Security Council** David Malone, 1998 This unique and intriguing study examines the UN's efforts to reinstate Haitian President Aristide overthrown in a 1991 coup An active participant Malone sheds new light on the roles and motivations of key actors particularly the US *The UN Security*

Council and Informal Groups of States Jochen Prantl, 2006-04-27 This book provides the first comparative treatment of the roles of informal ad hoc groupings of states within selected conflict settings and their effects on governance in and out of the UN Security Council. Since the 1990s informal institutions such as groups of friends and contact or core groups have proliferated as instruments for the management of risk and conflict due to the increasing demands on the UN Security Council to adapt to the new post cold war security environment. The perception of both the capacity and limits of the Security Council has had a catalytic effect on the creation of these ad hoc mechanisms. The substance of conflict resolution and the process of its legitimation tend to become increasingly detached with the former being delegated to informal groups or coalition of states while the Security Council provides the latter. The successful merger of right process and substantive outcome may strengthen the legitimacy of the Council and make actions taken by informal institutions more acceptable. This book seeks to establish the importance of informal ad hoc groupings of states in the making of peace. The dynamics between informal institutions and the Security Council are closely examined in the context of conflict resolution in Namibia, El Salvador and Kosovo. The study illustrates the changing role of the Council in the maintenance of international peace and security. The decentralization of tasks to informal groups allows the achievement of policy goals that would be unattainable in the centralized setting of formal international organizations. In effect informal institutions are agents of incremental change.

Walking the Tightrope Jaïr van der Lijn, 2006 The media generally tend to focus in particular on the failures of U N peacekeeping operations. In *Walking the Tightrope* Jaïr Van Der Lijn draws a different conclusion. He argues once a peace agreement has been signed the efforts of the U N peacekeeping operations do contribute to durable peace. By analyzing the U N peacekeeping operations in Cambodia, Mozambique, Rwanda and El Salvador in a structured focused comparison this book shows how U N operations do have a contribution to make.

Regeneration of War-Torn Societies NA NA, 2016-04-30 Regeneration and peacebuilding in war torn societies is a fast growing area of interest in world politics. The book is an original and timely contribution to the study of post conflict transition through an examination of various aspects of regeneration and detailed analysis of examples of intent. Four issues are highlighted in particular: the legacies of modern conflict in the transitions to relative peace; the question of ownership and accountability in the interactions between internal and external actors; the need for coherent responses to regeneration; the importance of case specific approaches. The book's purpose is to encourage students, policy makers and practitioners in governments, intergovernmental organisations, international and local non governmental organisations to understand and reflect on processes designed to promote social stability and relative peace and to re-examine the nature of the tasks they confront and their responses. The authors represent perspectives from law, political economy, social work, development studies, anthropology and international relations.

The United Nations & Regional Security Michael Charles Pugh, Waheguru Pal Singh Sidhu, 2003 Events in Europe over the past decade or so have created a dynamic requiring conceptual and practical adjustments on the part of the UN and a

range of regional actors This volume explores the resulting collaborative relationships in the context of peace operations in the Balkans

Peace Without Justice Margaret Popkin, 2010-11-01 Popkin analyzes the role of international actors notably the United States and the United Nations and the contributions and limitations of international assistance in efforts to establish accountability and reform the justice system in El Salvador The author discusses the essential role of civil society in attempts to establish accountability and an effective justice system for all and looks at the reasons for and the consequences of the limited role played by Salvadorean civil society She also addresses the challenges facing democratic reform efforts in the context of a postwar crime wave Peace Without Justice grew out of Margaret Popkin's extensive experience working as a human rights advocate in El Salvador during the armed conflict and interviews with a variety of Salvadorans and others involved in justice reform and in negotiating and implementing the peace accords

At War's End Roland Paris, 2004-05-24 All fourteen major peacebuilding missions launched between 1989 and 1999 shared a common strategy for consolidating peace after internal conflicts immediate democratization and marketization Transforming war shattered states into market democracies is basically sound but pushing this process too quickly can have damaging and destabilizing effects The process of liberalization is inherently tumultuous and can undermine the prospects for stable peace A more sensible approach to post conflict peacebuilding would seek first to establish a system of domestic institutions that are capable of managing the destabilizing effects of democratization and marketization within peaceful bounds and only then phase in political and economic reforms slowly as conditions warrant Peacebuilders should establish the foundations of effective governmental institutions prior to launching wholesale liberalization programs Avoiding the problems that marred many peacebuilding operations in the 1990s will require longer lasting and ultimately more intrusive forms of intervention in the domestic affairs of these states This book was first published in 2004

Practice and Policies of Modern Peace Support Operations under International Law Geert-Jan Knoops, Roberta Arnold, 2006-07-19 Confronted with the practical legal aspects of Peace Support Operations PSO in their daily work the two authors realized that there was an urgent need for the international community of military and civilian lawyers law enforcement agencies policy makers legal advisers and military commanders dealing with these types of missions to have a guidebook analyzing questioning and providing some solutions to the practical legal aspects intrinsic in them and which are often known only to those who have been serving in the field It was therefore decided to create a tool to record and diffuse the know how acquired by those who have been directly confronted with these issues in the field and at headquarters Among the cutting edge topics practitioners explore in Peace Support Operations Their Legal Implications are human trafficking and illegal immigration in theatres of PSO such as the Balkans arrest and detention of suspects of serious breaches of the laws of war the relationship and role sharing of civilian law enforcement agencies and peacekeepers the use of non lethal and other weapons e g riot control agents criminal liability for breaches of international law and Rules Of Engagement Contributions of a more strategic nature deal further with the complexities of

Status of Forces Agreements and Memoranda of Understanding the extraterritorial applicability of human rights obligations the application of the law of occupation to peacekeeping forces their new role and the relative problems in peace building The main objective of this guidebook is to provide the basis for further discussion suggesting what should be done next and to constitute a problem solving tool for those deployed in the field often secluded from the external world and confronted with difficulties to be solved immediately under the pressure of time The idea is to show them the path undertaken by others who have been confronted with similar problems and to share the knowledge and fight the power Published under the Transnational Publishers imprint

Of Centaurs And Doves Susanne Jonas, 2018-02-06 In a century of horrors Guatemala from 1954 to the present has been a bloody scene of some of the worst horrors and the United States has been deeply involved Drawing upon 30 years of experience in Central America hundreds of interviews and analyses of the vast documentary materials Susanne Jonas masterfully explains not only how the Guatemalan tragedies the U S involvement and the stumbling 1990s peace process developed She also raises fundamental questions about the badly misunderstood and much over hyped democratic transition supposedly occurring in Guatemala and elsewhere in the region Walter LaFeber Cornell University author of *Inevitable Revolutions The United States in Central America* *International Norms and Mobilization for Democracy* Manuel Orozco, 2018-02-06 This title was first published in 2002 This volume demonstrates that international action for democracy does not solely rest on American democracy promotion strategies but that it actually depends on a variety of global actors and interactions It is suitable for policy experts non governmental organizations international aid agencies and courses on international relations theory comparative politics and Latin American politics The book introduces a theoretical framework about the effect of international norms on democracy promotion connects the role of international institutions and norms with advocacy movements in shaping the mobilization to promote democracy analyses the relationship between the international dimension of democracy promotion and democratization explains the effect of international democracy promotion in the political transition of Nicaragua from 1979 to 2001 and brings into analysis the various modalities of democracy promotion and their effects

Ecuador Vs. Peru Monica Herz, João Pontes Nogueira, 2002 Although the 1995 Cenepa War between Ecuador and Peru was the first military conflict in South America in over 50 years the Ecuador Peru relationship has been one of enduring rivalry This text analyzes the mediation process that followed the 1995 war
