About Recreation Walking Cycling Tracks Trails Land access New Zealand Maps **Property Rights in Land** Rosa Congost, Jorge Gelman, Rui Santos, 2016-10-04 Property Rights in Land widens our understanding of property rights by looking through the lenses of social history and sociology discussing mainstream theory of new institutional economics and the derived grand narrative of economic development Written by a collection of expert authors the chapters delve into social processes through which property relations became institutionalized and were used in social action for the appropriation of resources and rent This was in order to gain a better understanding of the social processes intervening between the institutionalized rules of the game and their economic and social outcomes Foot-tracks in New Zealand: Origins, Access Issues and Recent Developments Pete McDonald, 2011 Foot tracks in New Zealand examines the development of walking tracks over two centuries from the early 19th century to about 2011 Publisher Pete McDonald Page size A4 ISBN 0473190958 9780473190958 File format PDF Number of pages 1000 About Trails Tracks New Zealand History Recreation Land access Music Festivals in the UK Chris Anderton, 2018-07-17 The outdoor music festival market has developed and commercialised significantly since the mid 1990s and is now a mainstream part of the British summertime leisure experience The overall number of outdoor music festivals staged in the UK doubled between 2005 and 2011 to reach a peak of over 500 events UK Music 2016 estimates that the sector attracts over 3.7 million attendances each year and that music tourism as a whole sustains nearly 40 000 full time jobs Music Festivals in the UK is the first extended investigation into this commercialised rock and pop festival sector and examines events of all sizes from mega events such as Glastonbury Festival V Festival and the Reading and Leeds Festivals to boutique events with maximum attendances as small as 250 In the past research into festivals has typically focused either on their carnivalesque heritage or on developing managerial tools for the field of Events Management Anderton moves beyond such perspectives to propose new ways of understanding and theorising the cultural social and geographic importance of outdoor music festivals He argues that changes in the sector since the mid 1990s such as professionalisation corporatisation mediatization regulatory control and sponsorship branding should not necessarily be regarded as a process of transgressive alternative culture being co-opted by commercial concerns instead such changes represent a reconfiguration of the sector in line with changes in society and a broadening of the forms and meanings that may be associated with outdoor music events **Citizenships, Contingency and the Countryside** Gavin Parker, 2003-08-29 Citizenships Contingency and the Countryside defines citizenship in relation to the rural environment The book expands and explores a widened conceptualization of citizenship and sets out a range of examples where citizenship at different scales has been expressed in and over the rural environment Part of the analysis includes a review of the political construction and use of citizenship rhetoric over the past 20 years alongside an historical and theoretical discussion of citizenship and rights in the British countryside The text concludes with a call to recognise and incorporate the multiple voices and interests in decision making that all affect the British countryside Outdoor Recreation Management J.
